

2026 Cisco Pass-Sure 350-601: Official Implementing Cisco Data Center Core Technologies (350-601 DCCOR) Study Guide

BONUS!!! Download part of TestInsides 350-601 dumps for free: https://drive.google.com/open?id=1_06_PGX5E0PhdnfVHw2AVw2VrGiApQml

Our TestInsides 350-601 exam materials provide all candidates with available free Demo. Before you decide to purchase 350-601 exam materials, we suggest that you should download our Demo. You can check for free demos to see if our exam questions contain what you need for the 350-601 exam, and you can view other exam applicants' experiences by using our exam materials. Tested and verified - Our 350-601 Exam Materials were trusted by thousands of candidates. You can visit our recommendation section and read the first-hand experience of verified users. Our 350-601 exam materials will help you figure out what the actual product will provide you, and whether these features will help future users learn within a week and pass the exam successfully.

All the 350-601 training files of our company are designed by the experts and professors in the field. The quality of our study materials is guaranteed. According to the actual situation of all customers, we will make the suitable study plan for all customers. If you buy the 350-601 learning dumps from our company, we can promise that you will get the professional training to help you pass your exam easily. By our professional training, you will pass your exam and get the related certification in the shortest time.

Quiz Cisco - 350-601 - Updated Official Implementing Cisco Data Center Core Technologies (350-601 DCCOR) Study Guide

TestInsides has a huge Cisco industry elite team. They all have high authority in the 350-601 area. They use professional knowledge

and experience to provide training materials for people ready to participate in different IT certification exams. The accuracy rate of exam practice questions and answers provided by TestInsides is very high and they can 100% guarantee you pass the exam successfully for one time. Besides, we will provide you a free one-year update service.

Cisco Implementing Cisco Data Center Core Technologies (350-601 DCCOR) Sample Questions (Q221-Q226):

NEW QUESTION # 221

Refer to the exhibit The VSAN 4041 and 4042 are exchanged between two Cisco MDS 9000 Series Switches called MDS-1 and MDS-2 The objective is to deploy a security mechanism on MDS-1 to allow MDS-2 to join the fabric exclusively Drag and drop the code snippets from the bottom onto the boxes in the code to complete the MDS-1 configuration Not all code snippets are used.

Answer:

Explanation:

NEW QUESTION # 222

Drag and drop the Hyperflex characteristics from the left onto the appropriate Hyper Hex node types on the right.

Answer:

Explanation:

NEW QUESTION # 223

An engineer must ensure fabric redundancy when implementing NPV mode on a Cisco MDS 9000 Series Switch. Which action enables fabric redundancy?

- A. Use TE ports to connect to upstream switches.
- B. Add a port channel to upstream switches.
- **C. Connect the NPV devices to multiple upstream switches.**
- D. Configure the NPV devices to use on external FLOGI database.

Answer: C

Explanation:

For fabric redundancy in NPV mode on a Cisco MDS 9000 Series Switch, the engineer must connect the NPV devices to multiple upstream switches (A). This setup ensures that if one upstream switch fails, the NPV device can still reach the fabric through another upstream switch, maintaining fabric redundancy.

NEW QUESTION # 224

Drag and drop the storage technologies from the left onto the correct descriptions on the right.

Answer:

Explanation:

NEW QUESTION # 225

An engineer must allow communication between the APIC controller and an OpenStack OpFlex agent. The agent is running on a compute node directly plugged to a Cisco ACI leaf switch. The engineer must enable and extend Infra VLAN on the port facing the compute and extend the Infra VLAN to the host. Which action must be taken to meet these requirements?

- **A. Enable the Infra VLAN on the Attachable Access Entity Profile.**
- B. Add the infra VLAN via the VMM domain.

- C. Add the infra VLAN via the physical domain.
- D. Enable the Infra VLAN on the Interface Profile policy

Answer: A

Explanation:

To facilitate communication between the APIC controller and an OpenStack OpFlex agent, it's necessary to enable the Infra VLAN on the Attachable Access Entity Profile (AAEP). The AAEP is used in Cisco ACI to group interfaces that share common policies and extending the Infra VLAN to these interfaces allows the OpFlex agent, which is part of the Cisco Application Centric Infrastructure (ACI), to communicate with the APIC controller. This setup is crucial for the OpFlex agent to function correctly, as it relies on the Infra VLAN for communication with the APIC controller¹.
