BICSI Registered Communications Distribution Designer - RCDD v15 Sample Questions (Q96-Q101):

NEW QUESTION # 96

A program manager is assigned to a large cross-functional program that includes five different technologies and multiple workstreams.

Some potential stakeholders have conflicting program expectations.

What should the program manager do next?

- A. Send out satisfaction surveys and document the results in the program's stakeholder engagement plan.
- B. Update the stakeholder register to document stakeholders' positions relative to the program.
- C. Conduct interviews with key stakeholders, and document the results in the program management plan.
- **D. Document stakeholder expectations in the program's risk register to determine their influence.**

Answer: D

NEW QUESTION # 97

An IT program manager is concerned that a program is not achieving its defined incremental benefits due to a lack of delivery by the business team. The IT team has several dependencies on the business team throughout the program. However, the business team does not report to the IT program manager and only two business team resources with the appropriate skills are available to complete the required program tasks.

To address this issue, what should the IT program manager do next?

- **A. Review and clarify the business team's program roles and responsibilities, determine the schedule impact on benefits, and direct the IT project manager to meet with the business team to ensure dependencies are understood and that the appropriate resources can be made available.**
- B. Modify the program milestone dates to include a larger contingency, determine the impact on the project implementation date, and update the benefits management plan.
- C. Schedule a meeting with the business team to discuss transferring the two business team resources to the IT team, update the program risk register to include risk mitigation steps.
- D. Escalate the lack of commitment by the business team to the program steering committee; hire a new project resource to complete the required tasks; update the program risk register to include risk mitigation steps.

Answer: A

NEW QUESTION # 98

Which two of the following are means in which radiated interference primarily enters electronic devices? (Select two options.)

- A. Missing or inadequate optical connections
- B. Interface designs
- **C. Proximity to interfering sources**
- D. Input signal lines
- **E. Missing or inadequate device or cable shielding**

Answer: C,E

NEW QUESTION # 99

A program manager concurrently implements a software program at four client locations.

The client's objective is to maintain quality while shortening the software implementation timeline.

What key elements should be included in the benefits register to achieve this goal?

- A. Plans for defining metrics and key performance indicators (KPIs), and procedures to measure benefits
- B. Plans for conducting program quality assurance and control on a regular basis
- C. Plans for tracking and communicating risks associated with the program
- **D. Plans for program schedule control to meet the shorter timeline**

Answer: D

NEW QUESTION # 100

The new performance financial system is delivered to all business entities on time following a one-year implementation program. After six months of utilization, the global finance department, one of the main beneficiaries of the program, determines that the quality and level of granularity of the financial data is not sufficient for them to analyze the key performance indicators (KPIs) defined. Additionally, the global finance department is missing the analytical tools required to understand the causes of discrepancies. To address these shortcomings, the global finance department submits a request for a follow-up initiative through the process defined by which of the following documents?

- A. Benefits transition plan
- **B. Benefits governance plan**
- C. Benefits realization report
- D. Benefits sustainment plan

Answer: B

NEW QUESTION # 101
