Salesforce Certified Administrator Sample Questions (Q106-Q111):

NEW QUESTION # 106

What should an administrator use as an identifier when importing and updating records from a separate system?

- **A. External ID**
- B. Record ID
- C. Rich Text field
- D. Auto-Number field

Answer: A

NEW QUESTION # 107

A sales rep at Ursa Major Solar has launched a series of networking events. They are hosting one event per month and want to be able to report on campaign ROI by month and series.

How should the administrator set up the Campaign to simplify reporting?

- A. Add different record types for the monthly event types.
- **B. Configure campaign Member Statuses to record which event members attended.**
- C. Use Campaign Hierarchy where the monthly events roll up to a parent Campaign
- D. Create individual Campaigns that all have the same name.

Answer: B

NEW QUESTION # 108

Support reps at Cloud Kicks (CK) are reporting that when they try to close a case, the Closed option in the Case Status picklist is missing. CK has asked the administrator to find a solution.

Why are the support reps unable to see the Closed option in the specified picklist?

- A. The Close Case page layout must be used to close a case.
- **B. The Support Process being used omits Closed as a status choice.**
- C. The Show Closed Statuses in Case Status Field checkbox is set to the default.
- D. The Case record type is missing Closed as a picklist value.

Answer: B

Explanation:

Explanation

A support process is a feature that allows administrators to define and enforce the stages that a case or work order must go through based on its record type. A support process determines which values are available for the status field for each record type. If a support process omits a certain value for the status field, such as Closed, then users will not be able to see or select that value when working with cases or work orders of that record type.
