Quiz 2026 AZ-120: Planning and Administering Microsoft Azure for SAP Workloads –Updated Exam Dumps Zip

Cracking the AZ-120 examination requires smart, not hard work. You just have to study with valid and accurate Microsoft AZ-120 practice material that is according to sections of the present Microsoft AZ-120 exam content. Dumpcollection offers you the best AZ-120 ExamDumps in the market that assures success on the first try. This updated AZ-120 exam study material consists of AZ-120 PDF dumps, desktop practice exam software, and a web-based practice test.

Candidates for the Microsoft AZ-120 Exam should have a solid understanding of SAP applications, as well as experience with Azure services such as Azure Active Directory, Azure Backup, Azure Site Recovery, and Azure Security Center. They should also be familiar with Azure infrastructure and deployment models, including virtual machines, containers, and serverless computing.

Microsoft Planning and Administering Microsoft Azure for SAP Workloads Sample Questions (Q88-Q93):

NEW QUESTION # 88

For each of the following statements, select yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Explanation

NEW QUESTION # 89

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You deploy SAP HANA on Azure (Large Instances).

You need to back up the SAP HANA database to Azure.

Solution: You create a Recovery Services vault and a backup policy.

Does this meet the goal?

- A. Yes
- B. No

Answer: A

Explanation:

Backup architecture

* The backup process begins by creating a Recovery services vault in Azure. This vault will be used to store the backups and recovery points created over time.

* The Azure VM running SAP HANA server is registered with the vault, and the databases to be backed-up are discovered. To enable the Azure Backup service to discover databases, a preregistration script must be run on the HANA server as a root user.

* This script creates AZUREWLBACKUPHANAUSER DB user and a corresponding key with the same name in hdbuserstore. Refer to the setting up permissions section to understand more about what the script does.

* Azure Backup Service now installs the Azure Backup Plugin for HANA on the registered SAP HANA server.

* The AZUREWLBACKUPHANAUSER DB user created by the preregistration script is used by the Azure Backup Plugin for HANA to perform all backup and restore operations. If you attempt to configure backup for SAP HANA DBs without running this

script, you might receive the following error: UserErrorHanaScriptNotRun.

* To configure backup on the databases that are discovered, choose the required backup policy and enable backups.

* Once the backup is configured, Azure Backup service sets up the Backint parameters at the DATABASE level on the protected SAP HANA server.

* The Azure Backup Plugin for HANA maintains all the backup schedules and policy details. It triggers the scheduled backups and communicates with the HANA Backup Engine through the Backint APIs.

* The HANA Backup Engine returns a Backint stream with the data to be backed up.

* All the scheduled backups and on-demand backups (triggered from the Azure portal) that are either full or differential are initiated by the Azure Backup Plugin for HANA. However, log backups are managed and triggered by HANA Backup Engine itself.

NEW QUESTION # 90

You deploy an SAP environment on Azure.

You need to grant an SAP administrator read-only access to the Azure subscription. The SAP administrator must be prevented from viewing network information.

How should you configure the role-based access control (RBAC) role definition? To answer, drag the appropriate values to the correct targets. Each value may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Values

- */read
- Microsoft.Authorization/*/read
- Microsoft.Compute/*/read
- Microsoft.Insights/*/read
- Microsoft.Management/managementGroups/read
- Microsoft.Network/*/read
- Microsoft.Resources/*/read
- Microsoft.Storage/*/read

Answer Area

```
{  
  "Name": "CustomRole001",  
  "IsCustom": true,  
  "Description": "",  
  "Actions": [ ],  
  "NotActions": [ "Microsoft.Network/*/read" ],  
  "DataActions": [],  
  "AssignableScopes": ["/subscriptions/ 0eaeef253-d1ee-423e-a95a-418939ee14ae"]  
}
```

Answer:

NEW QUESTION # 91

You recently migrated an SAP HANA environment to Azure.

You plan to back up SAP HANA databases to disk on the virtual machines, and then move the backup tiles to Azure Blob storage for retention.

Which command should you run to move the backups to the Blob storage?

- A. azcopy
- **B. backint**
- C. robocopy
- D. scp

Answer: B

NEW QUESTION # 92

You plan to migrate an SAP database from Oracle to Microsoft SQL Server by using the SQL Server Migration Assistant (SSMA).

You are configuring a Proof of Concept (PoC) for the database migration. You plan to perform the migration multiple times as part of the PoC.

You need to ensure that you can perform the migrations as quickly as possible. The solution must ensure that all Oracle schemas are migrated.

Which migration method and migration mode should you use? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.

Answer selected as in image below.

Answer:

Explanation:

NEW QUESTION # 93

.....

The language of our AZ-120 study torrent is easy to be understood and the content has simplified the important information. Our product boosts the function to simulate the exam, the timing function and the self-learning and the self-assessment functions to make the learners master the AZ-120 guide torrent easily and in a convenient way. Based on the plenty advantages of our product, you have little possibility to fail in the exam. We guarantee to you that we provide the best AZ-120 study torrent to you and you can pass the exam with high possibility and also guarantee to you that if you fail in the exam unfortunately we will provide the fast and simple refund procedures.
