PECB Certified NIS 2 Directive Lead Implementer Reliable Exam Papers & NIS-2-Directive-Lead-Implementer Study Pdf Vce & PECB Certified NIS 2 Directive Lead Implementer Online Practice Test

So many of our worthy customers have achieved success not only on the career but also on the life style due to the help of our NIS-2-Directive-Lead-Implementer study guide. You can also join them and learn our NIS-2-Directive-Lead-Implementer learning materials. You will gradually find your positive changes after a period of practices. Then you will finish all your tasks excellently. You will become the lucky guys if there has a chance. Our NIS-2-Directive-Lead-Implementer Exam Braindumps are waiting for you to have a try.

PECB Certified NIS 2 Directive Lead Implementer Sample Questions (Q35-Q40):

NEW QUESTION # 35

During which phase of the key management life cycle can keys be manually adjusted to implement alternative algorithms?

- A. Key generation
- B. Key backup or recovery
- C. Key rotation

Answer: C

NEW QUESTION # 36

According to Article 31, what is the recommended approach for competent authorities to supervise public administration entities?

- A. They should rely solely on national frameworks for guidance on supervision
- B. They should have operational independence
- C. They should consultant legal experts for guidance on supervision

Answer: B

NEW QUESTION # 37

Scenario 5:Based in Altenberg, Germany, Astral Nexus Power is an innovative company founded by visionary engineers and scientists focused on pioneering technologies in the electric power sector. It focuses on the development of next-generation energy storage solutions powered by cutting-edge quantum materials. Recognizing the critical importance of securing its energy infrastructure, the company has adopted the NIS 2 Directive requirements. In addition, it continually cooperates with cybersecurity experts to fortify its digital systems, protect against cyber threats, and ensure the integrity of the power grid. By incorporating advanced security protocols, the company contributes to the overall resilience and stability of the European energy landscape. Dedicated to ensuring compliance with NIS 2 Directive requirements, the company initiated a comprehensive journey toward transformation, beginning with an in-depth comprehension of its structure and context, which paved the way for the clear designation of roles and responsibilities related to security, among others. The company has appointed a Chief Information Security Officer (CISO) who is responsible to set the strategic direction for cybersecurity and ensure the protection of information assets. The CISO reports directly to the Chief Executive Officer (CEO) of Astral Nexus Power which helps in making more informed decisions concerning risks, resources, and investments. To effectively carry the roles and responsibilities related to information security, the company established a cybersecurity team which includes the company's employees and an external cybersecurity consultant to guide them.

Astral Nexus Power is also focused on managing assets effectively. It consistently identifies and categorizes all of its digital assets,

develops an inventory of all assets, and assesses the risks associated with each asset. Moreover, it monitors and maintains the assets and has a process for continual improvement in place. The company has also assigned its computer security incident response team (CSIRT) with the responsibility to monitor its on and off premises internet-facing assets, which help in managing organizational risks. Furthermore, the company initiates a thorough process of risk identification, analysis, evaluation, and treatment. By identifying operational scenarios, which are then detailed in terms of assets, threats, and vulnerabilities, the company ensures a comprehensive identification and understanding of potential risks. This understanding informs the selection and development of risk treatment strategies, which are then communicated and consulted upon with stakeholders. Astral Nexus Power's commitment is further underscored by a meticulous recording and reporting of these measures, fostering transparency and accountability. Has Astral Nexus Power followed all the necessary steps to manage assets in cyberspace in accordance with best practices? Refer to scenario 5.

- A. No, the company should also implement appropriate security controls after assessing the risks associated with each asset
- B. Yes, the company has followed all the steps required to manage assets in cyberspace in accordance with best practices
- C. No, the company must also involve external third parties to review and validate its asset management processes

Answer: A

NEW QUESTION # 38

What does integration testing involve?

- A. Testing and analyzing the functionality of each individual module in isolation
- B. Testing combination of modules as a group to analyze their interactions and functionality
- C. Both A and B, depending on the objectives of the organization

Answer: B

NEW QUESTION # 39

Scenario 1:

into incidents that could result in substantial material or non-material damage. When it comes to identifying and mitigating risks, the company has employed a standardized methodology. It conducts thorough risk identification processes across all operational levels, deploys mechanisms for early risk detection, and adopts a uniform framework to ensure a consistent and effective incident response. In alignment with its incident reporting plan, SecureTech reports on the initial stages of potential incidents, as well as after the successful mitigation or resolution of the incidents.

Moreover, SecureTech has recognized the dynamic nature of cybersecurity, understanding the rapid technological evolution. In response to the ever-evolving threats and to safeguard its operations, SecureTech took a proactive approach by implementing a comprehensive set of guidelines that encompass best practices, effectively safeguarding its systems, networks, and data against threats. The company invested heavily in cutting-edge threat detection and mitigation tools, which are continuously updated to tackle emerging vulnerabilities. Regular security audits and penetration tests are conducted by third-party experts to ensure robustness against potential breaches. The company also prioritizes the security of customers' sensitive information by employing encryption protocols, conducting regular security assessments, and integrating multi-factor authentication across its platforms.

Based on the last paragraph of scenario 1, which of the following standards should SecureTech utilize to achieve its objectives concerning the protection of customers' data?

- A. ISO/IEC 27017
- B. ISO/IEC 27018
- C. ISO/IEC TR 27103

Answer: B

NEW QUESTION # 40

.....

As we all know, the preparation process for an exam is very laborious and time-consuming. We had to spare time to do other things to prepare for NIS-2-Directive-Lead-Implementer exam, which delayed a lot of important things. If you happen to be facing this problem, you should choose our NIS-2-Directive-Lead-Implementer Real Exam. Our NIS-2-Directive-Lead-Implementer study materials are famous for its high-efficiency and high-quality. If you buy our NIS-2-Directive-Lead-Implementer learning guide, you will find that the exam is just a piece of cake in front of you.
