NEW QUESTION # 297

You need to determine a solution for the customers in Jamaica.

What should you recommend? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Explanation:

Box 1: Power Apps app

Customers who sign up for add-on Jamaica excursions bring friends who have not signed up ahead of time.

The sales representatives record the customer information on paper, take payment, and then enter the information into the system later. The information is frequently inaccurate and creates discrepancies.

Box 2: Common Data Model

Dynamics 365 common data model (CDM) is designed to simplify the data integration and management across business processes and applications. Microsoft introduced CDM as an integral part PowerApps offering.

The good news is that Dynamics 365 CDM enables apps to easily integrate and share data even without custom and extensive integration.

Note: In Jamaica, employees use SoftwareC, a homegrown application based on spreadsheets. Local sales representatives use pen and paper in the field.

New customers in Jamaica must be reviewed and approved due to frequent customer data discrepancies. The sales representatives

in the field will enter information that must be routed to validate against existing data.
