

# Pass Guaranteed Cisco - High Pass-Rate 400-007 Online Bootcamps

BONUS!!! Download part of Test4Cram 400-007 dumps for free: [https://drive.google.com/open?id=1I593GE1oz37W3X5\\_sfGZRx8fjbh8UoIt](https://drive.google.com/open?id=1I593GE1oz37W3X5_sfGZRx8fjbh8UoIt)

The 400-007 guide torrent is compiled by the experts and approved by the professionals with rich experiences. The 400-007 prep torrent is the products of high quality compiled elaborately and gone through strict analysis and summary according to previous exam papers and the popular trend in the industry. The language is simple and easy to be understood. It makes any learners have no learning obstacles and the 400-007 Guide Torrent is appropriate whether he or she is the student or the employee, the novice or the personnel with rich experience and do the job for many years.

Cisco 400-007 exam covers a wide range of topics, including network infrastructure design, network services design, network security design, and network management design. 400-007 exam is designed to test the candidate's ability to analyze complex network requirements, identify design challenges, and develop effective solutions that meet business needs and technical requirements. 400-007 exam consists of multiple-choice questions and simulations that require the candidate to apply their knowledge and skills to real-world scenarios. Passing the 400-007 exam requires a deep understanding of network design concepts, as well as hands-on experience with Cisco networking technologies and products.

Cisco 400-007 Exam is a challenging certification exam that requires extensive preparation. Candidates must have a deep understanding of network design principles, protocols, and technologies. They must also have hands-on experience designing and implementing network solutions. To prepare for the exam, candidates should review the Cisco CCDE exam topics, study the Cisco CCDE reference materials, and practice designing and configuring complex networks.

## 400-007 Valid Exam Braindumps | Valid 400-007 Exam Guide

We update our 400-007 Test Prep within one year and you will download free which you need. After one year, we provide the client 50% discount benefit if buyers want to extend their service warranty so you can save much money. If you are the old client, you can enjoy some certain discount when buying 400-007 exam torrent so you can enjoy more service and more benefits. Our update can provide the latest and most useful Cisco Certified Design Expert (CCDE) Written Exam prep torrent to you and you can learn more and master more. Because we update frequently, the client can understand the latest change and trend in the theory and the practice. So you will benefit from the update a lot.

## Cisco Certified Design Expert (CCDE) Written Exam Sample Questions (Q61-Q66):

### NEW QUESTION # 61

Refer to the exhibit. An engineer is designing the network for a multihomed customer running in AS 111 does not have any other ASs connected to it.

Which technology is more comprehensive to use in the design to make sure that the AS is not being used as a transit AS?

- A. Use the local preference attribute to configure your AS as a "non-transit" AS.
- B. include an AS path access list to send routes to the neighboring ASs that only have AS 111 in the AS path field.
- C. Include a prefix list to only receive routes from neighboring ASs.
- D. Configure the AS-set attribute to allow only routes from AS 111 to be propagated to the neighbor ASs.

**Answer: B**

Explanation:

Using an AS path access list helps ensure that only routes originating from the customer AS (AS 111) are advertised to another ASs. By filtering routes with an empty AS path field, AS 111 can prevent being used as a transit AS by disallowing routes coming from another ASs. This is a more comprehensive approach compared to other methods in the options provided.

### NEW QUESTION # 62

In a distributed cloud-native environment, calls to services and cloud resources can fail caused by unanticipated events that will require longer periods of time to resolve. These faults can range in severity from a partial loss of connectivity to the complete failure of a service. In these situations, it ' s pointless for an application to continually retry an operation that is unlikely to succeed. Which pattern can prevent an application from repeatedly trying to execute an operation that ' s likely to fail?

- A. fallback
- B. bulkhead
- C. timeout
- D. circuit breaker

**Answer: D**

### NEW QUESTION # 63

Company XYZ is revisiting the security design for their data center because they now have a requirement to control traffic within a subnet and implement deep packet inspection Which technology meets the updated requirements and can be incorporated into the design?

- A. VLAN ACLs on the switch
- B. zone-based firewall on the Layer 3 device
- C. transparent firewall
- D. routed firewall

**Answer: C**

### NEW QUESTION # 64

Refer to the table.

A customer investigates connectivity options for a DCI between two production data centers to aid a large- scale migration project. The migration is estimated to take 20 months to complete but might extend an additional 10 months if issues arise. All connectivity options meet the requirements to migrate workloads.

Which transport technology provides the best ROI based on cost and flexibility?

- A. Metro Ethernet
- B. CWDM over dark fiber
- C. DWDM over dark fiber
- D. MPLS

**Answer: A**

Explanation:

Let's calculate the total cost for each solution based on the most likely maximum duration (20 + 10 = 30 months) to ensure conservative, flexible planning.

-

\* DWDM over dark fiber:

\* CAPEX = \$200,000

\* OPEX (annual): \$100,000#for 30 months = (2.5 × \$100,000) = \$250,000

\* Installation fee = \$30,000

\* Total = \$200,000 + \$250,000 + \$30,000 = \$480,000

\* CWDM over dark fiber:

\* CAPEX = \$150,000

\* OPEX (annual): \$100,000#for 30 months = (2.5 × \$100,000) = \$250,000

\* Installation fee = \$25,000

\* Total = \$150,000 + \$250,000 + \$25,000 = \$425,000

\* MPLS wires only:

\* CAPEX = \$50,000

\* OPEX (annual): \$180,000#for 30 months = (2.5 × \$180,000) = \$450,000

\* Installation fee = \$5,000

\* Total = \$50,000 + \$450,000 + \$5,000 = \$505,000

\* Metro Ethernet:

\* CAPEX = \$65,000

\* OPEX (annual): \$100,000#for 30 months = (2.5 × \$100,000) = \$250,000

\* Installation fee = \$5,000

\* Total = \$65,000 + \$250,000 + \$5,000 = \$320,000

-

Analysis:

\* Metro Ethernet has the lowest overall cost at \$320,000 and provides sufficient flexibility for workload migration since "all connectivity options meet technical requirements."

\* Metro Ethernet is typically more flexible than DWDM/CWDM for temporary or dynamic migration projects because it does not require optical expertise or complex dark fiber management.

\* MPLS is more expensive here and less flexible for large-scale Layer 2 migrations.

\* CWDM/DWDM are suitable for permanent solutions where long-term investment is justified, but not optimal here due to cost.

Therefore, best ROI and flexibility: Metro Ethernet

Final correct answer: D

### NEW QUESTION # 65

QUESTION 69 Refer to the exhibit. A/J links are P2P Layer 3. A high availability application is synchronizing data between host A and host B. To increase chance of delivery the same data is sent twice from host A on two different NICs toward the two NICs on host B.

□ Which solution must be deployed in the network to ensure that any failure in the network does not trigger data loss on host B?

- A. IP Fast Reroute
- B. EIGRP with feasible successors
- C. BFD
- D. Static routes

**Answer: B**

### NEW QUESTION # 66

.....

Three formats of Cisco Certified Design Expert (CCDE) Written Exam (400-007) practice material are always getting updated according to the content of real Cisco Certified Design Expert (CCDE) Written Exam (400-007) examination. The 24/7 customer service system is always available for our customers which can solve their queries and help them if they face any issues while using the 400-007 Exam product. Besides regular updates, Test4Cram also offer up to 1 year of free real Cisco Certified Design Expert (CCDE) Written Exam (400-007) exam questions updates.
