- A. The experience has not yet been published.
- B. A change set containing the Network needs to be deployed.
- C. The "Enable ExperienceBundle Metadata API" setting needs to be checked.
- D. A custom Experience template needs to be created.

Answer: C

NEW QUESTION # 27

Cloud Kicks (CK) is in the process of updating and retiring multiple Experience Cloud sites on its one org. What should CK consider before taking action as it inactivates and brings on new sites?

- A. Each org can have up to 100 Experience Cloud sites; active, preview, and inactive sites all count toward that limit.
- B. Each org can have up to 100 Experience Cloud sites; preview sites don't count toward that limit.
- C. Each org can have up to 100 Experience Cloud sites as long as they are active.
- D. Each org can have up to 100 Experience Cloud sites; preview sites count toward that limit but inactive sites do not.

Answer: A

Explanation:

This license type allows users to access accounts, contacts, leads, opportunities, orders, price books, products, and custom objects in a partner community. Channel Account users can also register deals and collaborate with UMS on sales opportunities. Channel Account users cannot access reports and dashboards, cases, or Knowledge articles.

NEW QUESTION # 28

Zephyrus Relocation (ZRS) plans to launch a public site. ZRS would like to leverage a topic catalog so that site users can see all the organized topics in one place and easily navigate to any topic or subtopic.

Which step is required to set up a topic catalog?

- A. Create at least one subtopic and add the More Topic link when editing the navigation menu.
- B. Create at least one topic along with its subtopic.
- C. Create at least one topic and add the More Topics,,, ;link editing the navigation menu.
- D. Enable Topic Hierarchy and create at least one topic with two subtopics.

Answer: D

Explanation:

To set up a topic catalog, the step that is required is to enable Topic Hierarchy and create at least one topic with two subtopics. A topic catalog is a feature that allows you to display all the topics and subtopics on your Experience Cloud site in a hierarchical structure. Users can see the topic catalog by clicking the More Topics link on the navigation menu. To use the topic catalog, you need to enable Topic Hierarchy, which allows you to create topics and subtopics up to three levels deep. You also need to create at least one topic with two subtopics, which will populate the topic catalog with some content.

NEW QUESTION # 29

Universal Container (UC) has a business model that involves B2C as well B2B customers. A group of B2B customers has recently signed a contract with UC that would allow them to start working with the UC Support team in resolving low-severity B2C customer issues.

How should UC use Experience Cloud to accomplish this goal?

- A. Create a digital experience for B2B customers, a partner portal for B2B customers, and use the internal CRM org for employees.
- B. Create a digital experience for B2C customer and employees, and another one for B2B customers and employees.
- C. Create a digital experience for B2C customers and B2B customers, and use the internal CRM app for employees.
- D. Create a single digital experience for B2C customers, B2B customers, and employees.

Answer: D
