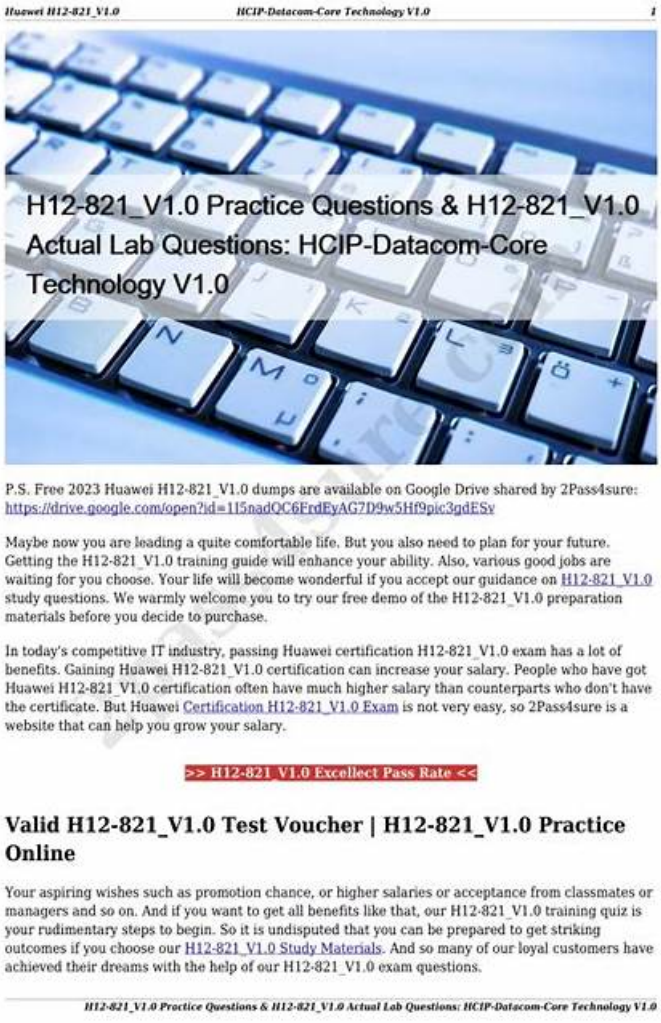
Valid H12-821_V1.0 Practice Materials - Valid H12-821_V1.0 Practice Questions



BTW, DOWNLOAD part of ExamsTorrent H12-821_V1.0 dumps from Cloud Storage: https://drive.google.com/open?id=1LqzGiy5xMLwe9YU-JTVGubEJ5AZZ8oAz

In order to pass Huawei certification H12-821_V1.0 exam, selecting the appropriate training tools is very necessary. And professional study materials about Huawei certification H12-821_V1.0 exam is a very important part. Our ExamsTorrent can have a good and quick provide of professional study materials about Huawei Certification H12-821_V1.0 Exam. Our ExamsTorrent IT experts are very experienced and their study materials are very close to the actual exam questions, almost the same. ExamsTorrent is a convenient website specifically for people who want to take the certification exams, which can effectively help the candidates to pass the exam.

The HCIP-Datacom-Core Technology V1.0 exam is targeted at professionals who are involved in the design, implementation, and maintenance of data communication networks. H12-821_V1.0 Exam is designed to test the candidate's knowledge and proficiency in the core technologies used in data communication networks. HCIP-Datacom-Core Technology V1.0 certification is recognized globally and provides a competitive edge to professionals who are seeking to advance their careers in the field of data communication.

Valid Huawei H12-821_V1.0 Practice Questions - Study H12-821_V1.0 Plan

Our H12-821_V1.0 study materials are willing to stand by your side and provide attentive service, and to meet the majority of customers, we sincerely recommend our H12-821_V1.0 practice guide to all customers, for our rich experience and excellent service are more than you can imagine. Here are several advantages of H12-821_V1.0 training guide for your reference: we have free demos for you to download before payment, and we offer one year free updates of our H12-821_V1.0 exam questions after payment and so on.

Huawei HCIP-Datacom-Core Technology V1.0 Sample Questions (Q305-Q310):

NEW QUESTION # 305
When deploying BFD, you need to adjust some parameters so that it can better detect the network status.
Which of the following statements isfalseabout BFD optimization?

- A. After a high priority is configured for BFD packets, BFD packets are preferentially forwarded.
- B. To quickly learn about the network status and performance requirements, you can set the interval for sending BFD packets to the minimum value.
- C. On a live network, some devices switch traffic only when a BFD session changes to the Up state. If a routing protocol goes Up later than an interface, no route is available for switching traffic back, leading to traffic loss. To resolve this issue, configure a delay to compensate for the time difference caused when the routing protocol goes Up later than the interface.
- D. If a BFD session flaps, master/backup switchovers are frequently performed on the application associated with the BFD session. To prevent this, set the WTR time of the BFD session.

Answer: B

Explanation:
Comprehensive and Detailed Step-by-Step Explanation:
1. Overview of BFD Optimization:
BFD (Bidirectional Forwarding Detection) is a protocol that provides rapid detection of link failures.
Optimizing BFD involves adjusting parameters to balance between detection speed and network stability.
2. Analysis of Each Statement:
Option A: After a high priority is configured for BFD packets, BFD packets are preferentially forwarded.
Correct (True Statement).
High priority ensures that BFD packets are not delayed or dropped under congestion, improving detection accuracy.
Option B: To quickly learn about the network status and performance requirements, you can set the interval for sending BFD packets to the minimum value.
Incorrect (False Statement).
Setting the interval to the minimum value can lead to excessive BFD session flapping, which may overload the network or cause instability. The interval should be configured based on network requirements and conditions, rather than set to the minimum.
Option C: On a live network, some devices switch traffic only when a BFD session changes to the Up state...
configure a delay to compensate for the time difference.
Correct (True Statement).
This is a valid optimization to avoid issues caused by timing mismatches between BFD and routing protocols.
Option D: If a BFD session flaps, master/backup switchovers are frequently performed... set the WTR time.
Correct (True Statement).
The WTR (Wait to Restore) timer helps stabilize BFD by delaying session recovery after a flap, reducing the risk of frequent switchovers.
3. Summary:
The false statement isB, as setting the BFD packet interval to the minimum can destabilize the network.

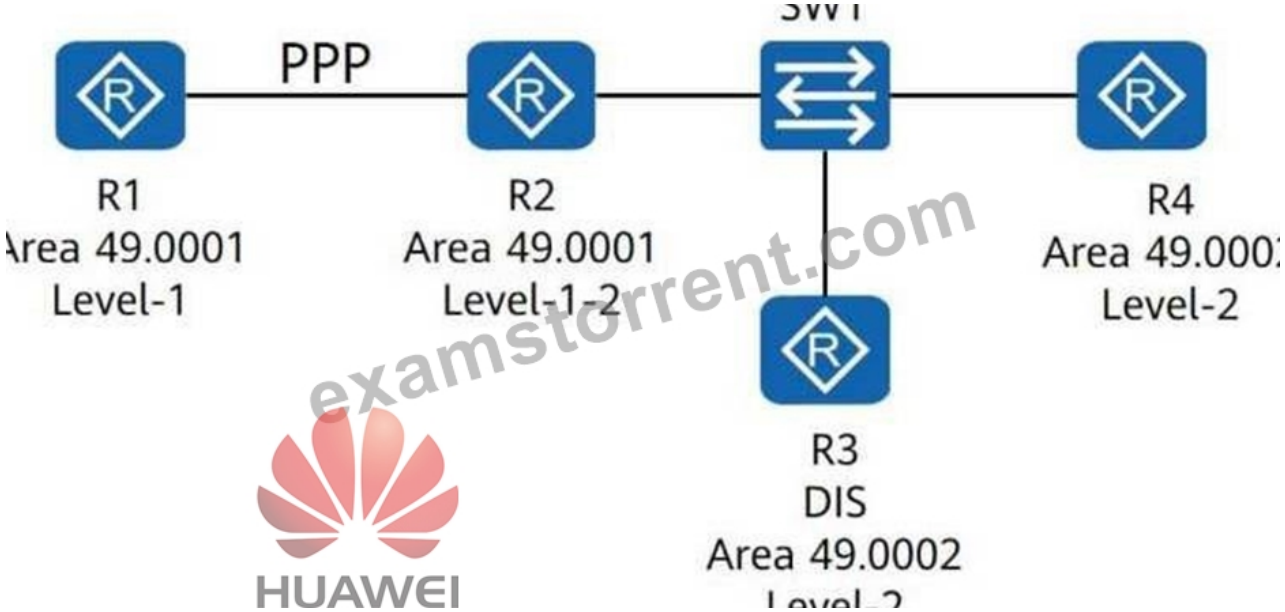
NEW QUESTION # 306
The four routers run IS-IS and have established adjacency. The area numbers and router levels are marked in the figure. The link between R1 and R2 is a PPP link, and R2 is DIS.



examstorrent.com

Which of the following statements is correct? (Multiple choice)

- A. R2 sends the LSP to R3 and R4 in unicast mode
- B. If R1 sends an LSP message, R2 needs to send PSNP for confirmation
- C. R3 periodically sends CSNP to help achieve Level-2 LSDB synchronization

Answer: B,C

NEW QUESTION # 307
The port role that cannot be in the forwarding state in RSTP is? (Multiple choice)

- A. Designated Port
- B. Alternate Port
- C. Backup Port
- D. RootPort

Answer: B,C

NEW QUESTION # 308
Which of the following descriptions of SPT switching in PIM-SM is incorrect?

- A. The RPT tree may not be the optimal path for multicast traffic forwarding
- B. SPT has the shortest path and better forwarding performance
- C. If all multicast traffic passes through the RP router, the RP router may become a bottleneck for data forwarding.
- D. After the SPT switch is completed, multicast traffic still passes through the RPT tree.

Answer: D

NEW QUESTION # 309
An enterprise needs to move its applications to the cloud. In order to integrate and process various data more quickly and conveniently, you can use Huawei platform () to deploy.

Answer:

Explanation:
DGC

NEW QUESTION # 310

.....

Huawei H12-821_V1.0 Practice tests are formatted like real tests. The ExamsTorrent platform provides an exceptional level of support for individuals preparing for and taking the Huawei H12-821_V1.0 exam. Their dedicated support team is available to assist candidates with any issues or concerns related to Huawei H12-821_V1.0 Test Preparation. Additionally, the platform offers a money-back guarantee for those who do not pass the H12-821_V1.0 test on their first attempt.
