PETA (People for the Ethical Treatment of Animals) is an animal rights group that has over 2 million members across the country and spends millions of dollars on advertising (print, broadcast and social media) in order to spread social awareness about their cause each year. Which theory attempts to explain PETA's success? (ch21) CORRECT ANSWERS Resource mobilization theory

The anti-drug campaign in the 1980's encouraged students to "just say no" to put an end to drug use and drug violence. Which type of framing did this campaign use? (ch21) CORRECT ANSWERS Motivational

This type of social movement framing seeks to offer a solution to a social problem and describes how to implement this solution in society: (ch21) CORRECT ANSWERS Prognostic framing

Which of the following is not a widely contributing factor in social change? (ch.21) CORRECT ANSWERS Disease

Exams-boost Salesforce Certified MuleSoft Integration Foundations Certification Exam come in three different formats so that the users can choose their desired design and prepare Salesforce Certified MuleSoft Integration Foundations (Mule-101) exam according to their needs. The first we will discuss here is the PDF file of real Salesforce Certified MuleSoft Integration Foundations (Mule-101) exam questions. It can be taken to any place via laptops, tablets, and smartphones. In addition, you can print these Salesforce Certified MuleSoft Integration Foundations (Mule-101) PDF questions for paper study in this format of Exams-boost product frees you from restrictions of time and place as you can study Mule-101 exam questions from your comfort zone in your spare time.

You can enter a better company and improve your salary if you have certificate in this field. Mule-101 training materials of us will help you obtain the certificate successfully. We have a professional team to collect the latest information for the exam, and if you choose us, you can know the latest information timely. In addition, we provide you with free update for 365 days after payment for Mule-101 Exam Materials, and the latest version will be sent to your email address automatically.

>> **Guaranteed Mule-101 Success** <<

Perfect Guaranteed Mule-101 Success & Leader in Qualification Exams &

Latest updated Salesforce Salesforce Certified MuleSoft Integration Foundations

Together with our excellent Mule-101 learning guide, the after-sale service staffs in our company share a passion for our customers on our Mule-101 exam questions, an intense focus on teamwork, speed and agility, and a commitment to trust and respect for all individuals. At present, our company is a leading global provider of Mule-101 Preparation exam in the international market. You may hear our website from your friends, colleagues or classmates for we have become a brand and professional on the Mule-101 practice engine.

Salesforce Certified MuleSoft Integration Foundations Sample Questions (Q32-Q37):

NEW QUESTION # 32

In preparation for a digital transformation initiative, an organization is reviewing related IT integration projects that failed for various reasons.

- A. Following an Agile delivery methodology
- **B. Lack of alignment around business outcomes**
- C. Reliance on an Integration-Platform-as-a-Service (iPaaS)
- D. Spending too much time on enablement

Answer: B

Explanation:

MuleSoft Catalyst: This is MuleSoft's delivery methodology. It identifies that integration projects often fail not due to technology, but due to a lack of clear strategy and alignment.

Business Outcomes: A primary cause of failure is when IT builds projects in isolation without understanding the business value or specific outcomes (KPIs) required by the organization.

Why others are incorrect:

Agile (C): Is generally recommended/beneficial.

Enablement (B): Is a core pillar of success (C4E), not a cause of failure.

NEW QUESTION # 33

A DevOps team has adequate observability of individual system behavior and performance, but it struggles to track the entire lifecycle of each request across different microservices. Which additional observability approach should this team consider adopting?

- A. Metrics
- B. Data mining
- C. Analytics
- **D. Tracing**

Answer: D

Explanation:

The Challenge: In a microservices architecture, a single user request might traverse dozens of different services. If an error occurs or latency is high, looking at the logs of just one service isn't enough.

Distributed Tracing: This is the specific technology used to track a request as it hops between services.

How it works: It assigns a unique Trace ID (Correlation ID) to the request at the entry point. This ID is passed to every downstream service. Tracing tools (like Anypoint Monitoring's Telemetry or Jaeger) verify the full path, showing exactly how long the request spent in each hop.

NEW QUESTION # 34

What is an advantage that Anypoint Platform offers by providing universal API management and Integration-Platform-as-a-Service (iPaaS) capabilities in a unified platform?

- **A. Ability to use a single control plane for both full-lifecycle API management and integration**
- B. Ability to use a single iPaaS to manage and integrate all API gateways
- C. Ability to use a single connector to manage and integrate all APIs

- D. Ability to use a single iPaaS to manage all API developer portals

Answer: A

Explanation:

Unified Platform: Many vendors offer either API Management (APIM) or Integration (iPaaS) as separate tools. Anypoint Platform combines them.

Single Control Plane: The primary advantage is having a single interface (The Anypoint Control Plane) where you can do everything: design APIs, build integrations, deploy them, govern them with policies, and monitor them.

Impact: This reduces complexity, lowers costs (no need to buy two separate stacks), and streamlines the workflow from development to operations.

NEW QUESTION # 35

An integration team follows MuleSoft's recommended approach to full lifecycle API development. 9

- A. Use the API specification to build the MuleSoft application
- B. Design the API specification
- C. Use the API specification to monitor the MuleSoft application
- D. Validate the API specification

Answer: A

Explanation:

(Note: The question implies "What is the next step after design/validation?" or "How is the spec used?". Based on the answer key A, the context is how the spec drives development).

Comprehensive and Detailed Explanation:

Shutterstock

Explore

API-Led Connectivity & Design-First: MuleSoft promotes a "Design-First" approach. You first write the RAML or OAS specification.

MuleSoft scaffolding: Once the specification is designed and published to Exchange, the developer imports it into Anypoint Studio. Studio then scaffolds (automatically generates) the Mule flows based on the API Specification.

The Workflow:

Design: Create the API contract (RAML/OAS).

Publish: Publish to Exchange.

Build (Answer A): Use the API specification to generate the flow structure (APIKit Router) and implement the logic.

This ensures the implementation strictly matches the design defined in the earlier phases.

NEW QUESTION # 36

An organization's IT team must secure all of the internal APIs within an integration solution by using an API proxy to apply required authentication and authorization policies.

- A. Electronic Data Interchange (EDI)
- B. Integration Platform-as-a-Service (IPaaS)
- C. API Management (APIM)
- D. Robotic Process Automation (RPA)

Answer: C

Explanation:

API Management (APIM): This category of software capability focuses on the Governance, Security, and Lifecycle of APIs. 7 The Role of the Proxy: In MuleSoft's API Manager (the APIM component), you create an API Proxy. This proxy sits in front of the backend API implementation. It intercepts incoming requests, checks security policies (like Client ID enforcement or OAuth 2.0), and only forwards valid requests to the backend.

Why others are incorrect:

iPaaS: Refers to the integration/building platform (connecting systems), though modern platforms like Anypoint combine both iPaaS and APIM. The specific act of securing via proxy is an APIM function.

EDI: Standard for B2B document exchange (like Purchase Orders).

RPA: Automating manual tasks on UI screens.

NEW QUESTION # 37

.....

Our company Exams-boost abides by the industry norm all the time. By virtue of the help from professional experts, who are conversant with the regular exam questions of our latest Mule-101 real dumps. They can satisfy your knowledge-thirsty minds. And our Mule-101 Exam Quiz is quality guaranteed. By devoting ourselves to providing high-quality Mule-101 practice materials to our customers all these years we can guarantee all content is of the essential part to practice and remember.

Exam Mule-101 Blueprint: <https://www.exams-boost.com/Mule-101-valid-materials.html>

Salesforce Guaranteed Mule-101 Success We are currently working on Android and iOS versions of the software, If you are tired with the screen for study, you can print the Mule-101 pdf dumps into papers, Salesforce Guaranteed Mule-101 Success Our high quality can make you rest assured, Salesforce Guaranteed Mule-101 Success Thus, those without the relevant certificates are actually the underdogs while hunting for jobs, Salesforce Guaranteed Mule-101 Success It is our promissory announcement that you will get striking by these viable ways.

This joint will be the main control for twisting forearm and hand skeletons, Efforts have been made in our experts to help our candidates successfully Pass Mule-101 Exam.

We are currently working on Android and iOS versions of the software, If you are tired with the screen for study, you can print the Mule-101 pdf dumps into papers.
