Microsoft Endpoint Administrator Sample Questions (Q348-Q353):

NEW QUESTION # 348

You have a Microsoft 365 subscription that contains the devices shown in the following table.

You plan to enroll the devices in Microsoft Intune.

How often will the compliance policy check-ins run after each device is enrolled in Intune? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Explanation:

Box 1: Every three minutes for 15 minutes, then every 15 minutes for two hours, and then around every eight hours If devices recently enroll, then the compliance, non-compliance, and configuration check-in runs more frequently. The check-ins are estimated at:

Windows 10: Every 3 minutes for 15 minutes, then every 15 minutes for 2 hours, and then around every 8 hours

Box 2: Every 15 minutes for one hour, and then every eight hours

iOS/iPadOS: Every 15 minutes for 1 hour, and then around every 8 hours

□ For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

□ **Answer:**

□ Explanation:

NEW QUESTION # 351

You have a Microsoft 365 subscription. The subscription contains computers that run Windows 11 and are enrolled in Microsoft Intune. You need to create a compliance policy that meets the following requirements:

* Requires BitLocker Drive Encryption (BitLocker) on each device

* Requires a minimum operating system version

Which setting of the compliance policy should you configure for each requirement? To answer, drag the appropriate settings to the correct requirements. Each setting may be used once, more than once, or not at all.

You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

□ **Answer:**

□ Explanation:

□ Explanation:

NEW QUESTION # 352

Your network contains an Active Directory domain. The domain contains computers that run Windows 8.1 and the users shown in the following table.

□ You plan to use the Microsoft Assessment and Planning (MAP) Toolkit to collect inventory data.

The MAP Toolkit has the following configurations:

- Inventory scenario: Windows computers

- Discovery method: Use Active Directory Domain Services (AD DS)

You need to identify which user to use for the MAP Toolkit inventory discovery. The solution must use principle of least privilege.

What should you identify?

- A. User3
- B. User2
- C. User1
- D. User4

□ **Answer: A**

□ Explanation:

Discovery method: Use Active Directory Domain Services (AD DS)

Credentials required - The wizard requires a domain account that is to be used to query AD DS.

At a minimum, this account should be a member of the Domain.

Users group in the domain. For each computer to be included in the WMI inventory process, the wizard also requires an account that is a member of the local Administrators group on that computer.
