# Valid SCP-NPM Test Cost & SCP-NPM Verified Answers

What's more, part of that UpdateDumps SCP-NPM dumps now are free: https://drive.google.com/open?id=1MP0mBbV9mJEKqIWtWDcM7e62bzpg-P8d

Boring life will wear down your passion for life. It is time for you to make changes. Our SCP-NPM training materials are specially prepared for you. In addition, learning is becoming popular among all age groups. After you purchase our SCP-NPM Study Guide, you can make the best use of your spare time to update your knowledge. For we have three varied versions of our SCP-NPM learning questions for you to choose so that you can study at differents conditions.

We did not gain our high appraisal by our SCP-NPM real exam for nothing and there is no question that our SCP-NPM practice materials will be your perfect choice. Though it is unavoidable that you may baffle by some question points during review process, our SCP-NPM Study Guide owns clear analysis under some necessary questions. So as long as you practice our SCP-NPM training quiz, you will perfect yourself to pass your exam successfully.

SCP-NPM Verified Answers, Reliable SCP-NPM Exam Sample

If you are going to purchase SCP-NPM test materials online, the safety of the website is significant. We provide you with a clean and safe online shopping environment if you buying SCP-NPM trining materials form us. We have professional technicians to exam the website every day, therefore the safety for the website can be guaranteed. Moreover, SCP-NPM Exam Materials are high quality and accuracy, and you can pass the exam just one time. We offer you free update for 356 days for SCP-NPM traing materials and the update version will be sent to your email automatically.

SolarWinds Network Performance Monitor (NPM) Exam Sample Questions (Q51-Q56):

NEW QUESTION # 51
How can you quickly generate a report in NPM to show the top 50 interfaces by percent utilization?

- A. Create an advanced SQL query report
- B. Copy a similar default report and edit it for the top 50 interfaces
- C. Create a web-based report and filter the data to restrict to the top 50 interfaces
- D. Copy a similar default report and edit it for different time-frames

Answer: B

NEW QUESTION # 52
You configured devices to send SNMP traps to NPM, but do not see the messages in the Orion Web Console. You verified that the firewall ports are open and the devices are correctly configured.
What can you verify to troubleshoot the cause?

- A. Verify that you have the SNMP Trap module installed for NPM
- B. Verify you use Log Analyzer to view traps
- C. Verify you configured the SNMP Traps view in the Orion Web Console
- D. Verify the SNMP trap service is running

Answer: D

Explanation:
The SNMP trap service is responsible for receiving, decoding, displaying, and storing the SNMP trap messages in the Log Analyzer database. If the service is not running, you will not see the messages in the Orion Web Console. You can verify the status of the service by using the Orion Service Manager or the Windows Services console. You can also restart the service if needed. The other options are not relevant for troubleshooting the cause of missing SNMP trap messages. Reference:
Monitor SNMP traps
Troubleshoot SNMP traps
Orion Service Manager

NEW QUESTION # 53
You run a Network Discovery and discover devices that you do not want to monitor. What feature can you use to exclude those devices from future discoveries?

- A. Discovery Trash List
- B. Discovery Watch List
- C. Discovery Ignore List
- D. Discovery White List

Answer: C

NEW QUESTION # 54
You want a user to be able to acknowledge alerts. Which permissions do you assign to the user account?

- A. Allow Administrator Rights
- B. Allow Account to Unmanage Objects
- C. Allow Account to Clear Events and Acknowledge Alerts and Syslogs
- D. Allow Node Management Rights

Answer: C

Explanation:
According to the SolarWinds NPM Administrator Guide, you can assign different permissions to user accounts to control their access and actions in the Orion Platform. One of the permissions is "Allow Account to Clear Events and Acknowledge Alerts and Syslogs", which enables the user to acknowledge alerts, clear events, and mark syslogs as read. This permission is required for a user to be able to acknowledge alerts, as acknowledging an alert stops the escalation process and provides an audit trail. The other permissions listed are not related to alert acknowledgment. "Allow Account to Unmanage Objects" allows the user to temporarily stop monitoring selected network objects. "Allow Node Management Rights" allows the user to add, edit, and delete nodes and interfaces. "Allow Administrator Rights" grants the user full access to all Orion Platform features and settings. Reference: SolarWinds NPM Administrator Guide, page 69-70; Add or remove an alert acknowledgment.

NEW QUESTION # 55

How do you assign users access to select reports?

- A. Use custom properties and account limitations to control report access
- B. Configure the report and add a Report Limitation. Assign the limitation to users who need access to the report
- C. Save the reports in different sub-directories and set the permissions for each user
- D. Create the reports while logged in as each user and set permissions

Answer: A

Explanation:

To assign users access to select reports, you can use custom properties and account limitations to restrict the scope of data that users can view and report on. Custom properties are user-defined fields that you can assign to monitored objects, such as nodes, interfaces, or applications. Account limitations are rules that you can apply to user accounts to filter the network data that users can access and view. By using custom properties and account limitations together, you can create granular and flexible report access for different users or groups. For example, you can create a custom property called Department and assign it to nodes that belong to different departments in your organization. Then, you can create an account limitation based on the Department custom property and assign it to users who only need to see and report on the nodes in their own department. Reference: How to create different Orion Support Users and assign them different properties in NPM, Define what users can access and do in the SolarWinds Platform

NEW QUESTION # 56

......

Now you do not need to worry about the relevancy and top standard of UpdateDumps SolarWinds Network Performance Monitor (NPM) Exam (SCP-NPM) exam questions. These SolarWinds SCP-NPM dumps are designed and verified by qualified SCP-NPM exam trainers. Now you can trust SCP-NPM practice questions and start preparation without wasting further time. With the SCP-NPM Exam Questions you will get everything that you need to learn, prepare and pass the challenging SolarWinds SCP-NPM exam with good scores.

SCP-NPM Verified Answers: https://www.updatedumps.com/SolarWinds/SCP-NPM-updated-exam-dumps.html

We adhere to the principle of No Help, Full Refund, if you failed the exam with our SCP-NPM valid dumps, we will full refund you, We Have Experts, SolarWinds Valid SCP-NPM Test Cost 100% high-quality dumps, Now getting an international SCP-NPM certificate has become a trend, SolarWinds Valid SCP-NPM Test Cost We are pass guaranteed and money back guaranteed, it is a package of SolarWinds SolarWinds Certified Professional SCP-NPM UpdateDumps that is prepared by the proficient IT experts.

You also learn how to ask the player questions, get his SCP-NPM or her feedback, and act accordingly on that feedback, You can also use pipelining to combine several actions.

We adhere to the principle of No Help, Full Refund, if you failed the exam with our SCP-NPM valid dumps, we will full refund you, We Have Experts, 100% high-quality dumps.
