### Microsoft Identity and Access Administrator Sample Questions (Q135-Q140):

#### NEW QUESTION # 135

You have an Azure subscription.

Azure AD logs are sent to a Log Analytics workspace.

You need to query the logs and graphically display the number of sign-ins per user.

How should you complete the query? To answer, select the appropriate options in the answer area.

```
SigninLogs
| where ResultType == 0
|  login_count = count() by Identity

extend
print
project
render
summarize

| 
  columnchart
```

 Microsoft

#### Answer:

Explanation:

```
SigninLogs | where ResultType == 0 |  login_count = count() by Identity
```

extend

print

project

render

```
|  columnchart
```

extend

print

project

summarize

Explanation:

Box 1 =

SigninLogs

| where ResultType == 0

| summarize login\_count = count() by identity

| render piechart

This query retrieves the sign-in logs, filters the successful sign-ins, summarizes the count of sign-ins per user, and renders the result as a pie chart.

Box 2 = Render

#### NEW QUESTION # 136

You implement the planned changes for SSPR.

What occurs when User3 attempts to use SSPR? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

Number of authentication methods required:

Authentication methods that can be used:

Answer:

Explanation:

Answer Area

Number of authentication methods required:  2

Authentication methods that can be used:  Email and phone only

Name  ✓

Homepage URL  D

Logo  AP

Select a file D

User access URL  D

Application ID  D

Object ID  D

Terms of Service Url  Microsoft

Privacy Statement Url  D

Reply Url  D

User assignment required?  Yes  No

Visible to users?  Yes  No

Use the drop-down menus to select the answer choice that completes each statement based on the information presented in the graphic.

NOTE: Each correct selection is worth one point.

### Answer Area

[answer choice] can access App1 from the homepage URL.

All users
No one
Only users listed on the Owners blade
Only users listed on the Users and groups blade

App1 will appear in the Microsoft Office 365 app launcher for [answer choice].

Microsoft

all users
no one
only users listed on the Owners blade
only users listed on the Users and groups blade

### Answer:

Explanation:

### Answer Area

Microsoft

[answer choice] can access App1 from the homepage URL.

All users
No one
Only users listed on the Owners blade
Only users listed on the Users and groups blade

App1 will appear in the Microsoft Office 365 app launcher for [answer choice].

all users
no one
only users listed on the Owners blade
only users listed on the Users and groups blade

Explanation:

Box 1: All users

"Enable for users to sign-in" is selected and "User assignment required" is set to No. Any user can login using the app url.

Box 2: Only users listed on the users and groups blade

User assignment required - This option does not affect whether or not an application appears on My Apps. To show the application there, assign an appropriate user or group to the application.
