

300-610 PDF Cram Exam | 300-610 Practical Information

Trường Đại học Thủy lợi	Đề thi số: 02	Trường bộ môn Kỹ thuật
Khoa: Hóa và Môi trường	Học phần: TA Chuyên ngành	
Bộ môn: Kỹ thuật Hóa học		

Thời gian làm bài: 90' (không được phép ghi/nhập vào đề)

Exercises 1: Reading the passage and answer the following questions

The cobalt (III) complex with oxalate and phenanthroline was prepared by the following process. This compound was prepared by the reaction of 5 ml cobalt nitrate ($\text{Co}(\text{NO}_3)_2 \cdot 6\text{H}_2\text{O}$ 1M), 1,10-orthophenanthroline monohydrate, phosphoric acid and oxalic acid dihydrate respectively in proportion (1:2:1:1) in 50 ml ethanol/water (1:1 v/v). The resulting mixture was heated to boiling point and stirred for two hours. A pink precipitate formed immediately. After two days single pink crystals were obtained by slow evaporation from aqueous solution at room temperature. The absorption spectra of the complexes show very intense bands in UV spectra. UV spectroscopic data for cobalt (III) complex was obtained in water solvent. The cobalt (III) complex exhibits three peak absorption, at 606 and 407 nm correspond to the two $e_g - t_{2g}$ transitions, at 569 nm which are attributed to a metal-to-ligand charge transfer (MLCT) transition.

a) The cobalt (III) complex with oxalate and phenanthroline was prepared from which compounds?
b) Calculate the mol of 1 cobalt nitrate which used for synthesis of the cobalt (III) complex?
c) How many milliliters of ethanol solvent was used for synthesis of the cobalt (III) complex?
d) How long does the reaction take?
e) What is the color of the cobalt (III) complex with oxalate and phenanthroline?
f) What absorption regions were shown in the absorption spectra of cobalt (III) complex with oxalate and phenanthroline?

Exercises 2: 1. Choose the correct answer:

a) The arrangement of elements had to change,new knowledge about their atomic structure had been acquired.
1. Because of 2. Because 3. Therefore 4. Owing to

b) Neutrons particles have a massthan protons.
1. Greatest 2. Greater than 3. The greatest 4. Greater

c) The neutral particles in the nucleus are called
1. Protons 2. Electrons 3. Proton 4. Neutrons

d) its exactness, physical chemistry has a great attraction for many scientists.
1. Because of 2. Because 3. Therefore 4. if

e) Potassium isthan iron metal.
1. Softer 2. Softest 3. The softer 4. The smaller

DOWNLOAD the newest PracticeVCE 300-610 PDF dumps from Cloud Storage for free: <https://drive.google.com/open?id=1f8V-U0yMna8UU73qjHO5XhS1kkGPRKb>

If you are willing to buy our 300-610 dumps pdf, I will recommend you to download the free dumps demo first and check the accuracy of our 300-610 practice questions. Maybe there are no complete 300-610 study materials in our trial, but it contains the latest questions enough to let you understand the content of our 300-610 Braindumps. Please try to instantly download the free demo in our exam page.

Official Training for Cisco 300-610 Exam

Considering the above amount of topics the candidates should learn for the Cisco 300-610 exam, success is only possible if they have a hold over dependable and updated study resources. It is recommended to begin with official training since whatever options the vendor offers are trustworthy.

Therefore, applying for the Designing Cisco Data Center Infrastructure (DCID) v7.0 course is the easiest and sure-shot way to master the tested concepts. This is a self-paced training program accessible for 180 days from the date of enrollment. It can be found on the Cisco Learning Network Store and costs \$1,500. A video training version is also available.

The best audience for these classes includes system engineers, network engineers, data center engineers, server administrators, and others. Before taking-up training, they should make sure they are well-versed in data center networking, storage and virtualization, alongside the Cisco UCS.

High Pass-Rate 300-610 PDF Cram Exam - Pass 300-610 Once - Fantastic 300-610 Practical Information

We have three versions of our 300-610 certification guide, and they are PDF version, software version and online version. With the PDF version, you can print our materials onto paper and learn our 300-610 exam braindumps in a more handy way as you can take notes whenever you want to, and you can mark out whatever you need to review later. With the software version, you are allowed to install our Designing Cisco Data Center Infrastructure guide torrent in all computers that operate in windows system. Besides, the software version can simulate the real test environment, which is favorable for people to better adapt to the examination atmosphere. With the online version, you can study the Designing Cisco Data Center Infrastructure guide torrent wherever you like, and you still have access to the materials even if there is no internet available on the premise that you have studied the 300-610 Certification guide online once before.

Exam Overview

Before going for the Cisco 300-610 test, you need to know the details of its structure and syllabus to be ready for the application. Thus, it is important to know that you will be given 90 minutes to clear 60 multiple-choice questions. To pass the exam, you should gain at least 825 points. Also, please note that the test is available in the English language and the voucher will cost you \$300.

Cisco Designing Cisco Data Center Infrastructure Sample Questions (Q131-Q136):

NEW QUESTION # 131

Drag and drop the data center technologies from the left onto the correct descriptions on the right. Not all technologies are used.

cut-through switching	connects a classical Ethernet vPC domain and a Cisco FabricPath cloud to interoperate
OTV	extends Layer 2 domains across distributed data centers
store-and-forward switching	performs Layer 2 lookup as soon as the destination MAC is received
VPC	two separate control planes, performs device aggregation
VPC+	

Answer:

Explanation:

cut-through switching	VPC+
OTV	OTV
store-and-forward switching	cut-through switching
VPC	VPC
VPC+	

cut-through switching	VPC+
OTV	OTV
store-and-forward switching	cut-through switching
VPC	VPC
VPC+	

NEW QUESTION # 132

An engineer working for a private data center with an employee ID 4947.57 424 designs a storage area network solution. The requirement is to apply QoS to ensure that Fibre Channel data traffic for latency-sensitive applications receives higher priority over throughput-intensive applications that are used for data warehousing. Which two attributes must be used to identify and set the Fibre Channel traffic classes? (Choose two)

- A. source or destination FCID
- B. egress interface
- C. source WWN
- D. source or destination WWN
- E. destination FCID

Answer: A,D

NEW QUESTION # 133

A company data center requires a new disaster recovery solution to host critical services. The solution can sustain several hours of data loss because the services are routinely backed up to an offsite location. Also, the disaster recovery solution must provide 24-hour availability. Due to the strict policy requirements, the company wants to retain complete control of when the failover process occurs. Which solution meets these requirements?

- A. active/active
- B. warm standby
- C. hot standby
- D. cold standby

Answer: D

NEW QUESTION # 134

An engineer needs an orchestration and monitoring tool that should be used for managing the storage networks and VXLAN fabrics. The tool should also allow support built-in dashboard and real-time health summary for managed devices. Which tool meets these requirements?

- A. Puppet
- B. Cisco Intersight
- C. Cisco DCNM
- D. Ansible

Answer: C

NEW QUESTION # 135

Which type of encoding is used on 8-Gbps links as compared to 10-Gbps links?

- A. 8-Gbps links and 10-Gbps links use 8B/10B encoding.
- B. 8-Gbps links use 8B/10B encoding, and 10-Gbps links use 64B/66B encoding.
- C. 8-Gbps links use 64B/66B encoding, and 10-Gbps links use 8B/10B encoding.
- D. 8-Gbps links and 10-Gbps links use 64B/66B encoding.

Answer: B
