Họ tên: ..... Số báo danh: ..... Mã đề 0510

**PHẦN I.** Thi sinh trả lời từ Câu 1 đến Câu 24. Mỗi câu hỏi thi sinh chỉ chọn 1 đáp án.

**Câu 1:** Chọn 1 trong 2 ngôn ngữ lập trình Python hoặc C++ để xem xét đoạn chương trình sau:

Đoạn chương trình viết bằng Python	Đoạn chương trình viết bằng C++
<pre>x = [2, 5, 4, 3, 2, 7] dem = 0 for i in range(1, 6):     if (x[i] % 2 == 0):         dem = dem + 1 print(dem)</pre>	<pre>int x[6] = {2, 5, 4, 3, 2, 7}; int dem = 0; for (int i = 1; i &lt; 6; i++)     if (x[i] % 2 == 0)         dem ++; cout &lt;&lt; dem;</pre>

Đoạn mã trên in kết quả nào ra màn hình trong các phương án sau:  
A. 6.                      B. 2.                      C. 3.                      D. 0.

**Câu 2:** Phần tử title nằm trong phần tử nào sau đây?  
A. li.                      B. p.                      C. head.                      D. body.

**Câu 3:** Theo mặc định trong HTML, nếu bạn nhập giá trị số cho thuộc tính width và height (ví dụ: width="500"), trình duyệt sẽ hiểu đơn vị tính là gì?  
A. Centimeter (cm).                      B. Inch.                      C. Pixel (px).                      D. Phần trăm (%).

**Câu 4:** Trong các thiết bị dưới đây, thiết bị nào có chức năng chính là thiết lập kết nối không dây giữa các thiết bị trong mạng cục bộ?  
A. Modem.                      B. Access Point.                      C. Hub.                      D. Switch.

**Câu 5:** Khi sử dụng các dịch vụ lưu trữ đám mây (Google Drive, OneDrive), lợi ích lớn nhất đối với việc làm việc nhóm là gì?  
A. Chỉ một người được phép xem dữ liệu tại một thời điểm.  
B. Ngăn chặn hoàn toàn việc chia sẻ thông tin ra bên ngoài.  
C. Nhiều người có thể cùng truy cập và chỉnh sửa tài liệu từ xa.  
D. Giảm bớt dung lượng bộ nhớ của máy tính cá nhân.

**Câu 6:** Cho khai báo CSS sau:  
p { font-family: "Times New Roman"; font-size: 16px; color: blue; background-color: silver; }  
Nói đúng nhất trong phần tử <p> sẽ hiển thị như thế nào?  
A. Phông chữ Times New Roman, cỡ chữ 16 pixel, chữ màu bạc, nền màu xanh dương.  
B. Phông chữ Times New Roman, cỡ chữ 16 pixel, chữ màu xanh dương, nền màu bạc.  
C. Phông chữ Times New Roman, cỡ chữ 16 point, chữ màu xanh dương, nền màu bạc.  
D. Phông chữ Times New Roman, cỡ chữ 16 point, chữ màu đen, nền màu bạc.

**Câu 7:** Ví dụ nào sau đây là ứng dụng của trí tuệ nhân tạo (AI) trong các dịch vụ trực tuyến?  
A. Màn hình hiển thị hình ảnh của máy tính.  
B. Chương trình dùng để nhập và lưu trữ văn bản.  
C. Hệ thống gợi ý bài hát phù hợp dựa trên lịch sử nghe của người dùng.  
D. Thiết bị lưu trữ dữ liệu như ổ cứng.

**Câu 8:** Đoạn mã CSS nào sau đây sẽ đặt màu nền của tất cả các thẻ <h1> trên trang web thành màu xanh dương?  
A. h1 { background-color: blue; }                      B. h1 { background-color: blue; }  
C. #h1 { background-color: blue; }                      D. <h1 style = "background-color: blue;">

**Câu 9:** Tại sao giao tiếp trong không gian mạng có thể khó xây dựng mối quan hệ chất chẽ?  
A. Vì thiếu tin hiệu phi ngôn ngữ và cảm xúc.                      B. Vì các công cụ giao tiếp hạn chế.  
C. Vì dễ bị lộ thông tin cá nhân.                      D. Vì chi phí cao.

**Câu 10:** Giao thức nào sau đây thường được sử dụng để truyền tải siêu văn bản trên Internet?  
A. FTP.                      B. HTTP.                      C. SMTP.                      D. POP3.

**Câu 11:** Xét đoạn mã HTML sau dùng để định dạng màu chữ cho các đoạn văn:  
<p style="color: red">Hello HTML</p>  
<p style="color: #0000FF">Hello CSS</p>  
Khi hiển thị trang web trên trình duyệt, màu chữ của hai dòng văn bản lần lượt là gì?  
A. Dòng "Hello HTML" màu đỏ, dòng "Hello CSS" màu xanh lá cây.  
B. Cả hai dòng đều có màu xanh dương.  
C. Dòng "Hello HTML" màu đỏ, dòng "Hello CSS" màu xanh dương.

## Updates to CompTIA PK0-005 Exam Questions Are Free For 1 year

Many people dream about occupying a prominent position in the society and being successful in their career and social circle. Thus owning a valuable certificate is of paramount importance to them and passing the test PK0-005 certification can help them realize their goals. If you are one of them buying our PK0-005 Exam Prep will help you pass the exam successfully and easily. Our PK0-005 guide torrent provides free download and tryout before the purchase and our purchase procedures are safe.

## CompTIA Project+ Certification Exam Sample Questions (Q149-Q154):

### NEW QUESTION # 149

A project sponsor is struggling to provide the latest project status information on a weekly executive call. Which of the following should be reviewed?

- A. Adoption training
- B. Meeting cadence
- **C. Dashboard**
- D. Gap analysis

**Answer: C**

Explanation:

A dashboard is a visual tool that displays key project metrics and indicators in a single view<sup>12</sup>. A dashboard can help a project sponsor to provide the latest project status information on a weekly executive call by showing the project progress, budget, schedule, risks, issues, and milestones in a clear and concise way<sup>34</sup>. A dashboard can also facilitate communication, collaboration, and decision making among project stakeholders<sup>56</sup>. A dashboard should be reviewed and updated regularly to reflect the current state of the project<sup>7</sup>. Definition and Key Terms - Indeed<sup>10</sup>

### NEW QUESTION # 150

A highly scored negative risk causes a risk trigger, but the issue has not started yet. Which of the following is the next step the project team should take?

- A. Escalate to senior management
- **B. Execute the contingency plan**
- C. Perform a work-around
- D. Assign a risk owner

**Answer: B**

Explanation:

When a risk trigger is detected, the risk hasn't yet turned into an issue, but the conditions indicate it may happen. At this stage, the project team should execute the contingency plan that was pre-developed during risk planning. Assigning a risk owner happens earlier in the planning stage, and work-arounds are used only for unplanned risks. Escalation is only needed if the contingency cannot address the risk.

### NEW QUESTION # 151

A PM is working with the development team and stakeholders to determine how to relate first name, last name, and address in a database. Which of the following identifies these types of data elements?

- A. CMS
- B. PCI
- **C. PII**
- D. PHI

**Answer: C**

Explanation:

First name, last name, and address are Personally Identifiable Information (PII) because they can identify (directly or when combined with other data) a specific individual. CompTIA Project+ includes compliance /privacy and information handling considerations relevant to projects, and knowing common sensitive data categories is part of applying appropriate controls.

The other options don't fit: PCI refers to payment card information standards/data (e.g., card numbers, CVV) rather than general

identity details. PHI is Protected Health Information, tied to healthcare/medical data and regulated in healthcare contexts. CMS typically refers to a content management system, which is a technology platform, not a data classification category. Correctly identifying data as PII matters because it drives project requirements for security and privacy: access control (need-to-know/least privilege), encryption in transit/at rest, retention rules, logging, and potentially regulatory obligations depending on jurisdiction. As the PM coordinates database design decisions with stakeholders, labeling these fields as PII ensures the team applies the correct controls and avoids accidental exposure-like overly broad access or insecure storage-throughout development, testing, and production deployment.

#### NEW QUESTION # 152

Due to multiple changes, the sign-off for the project scope baseline is delayed. The project sponsor has restricted the budget for this project. Which of the following should the project manager MOST likely do to move forward?

- A. Initiate a formal change request to modify the cost
- **B. Communicate with the affected stakeholders.**
- C. Set a new cost using a lightweight estimation method.
- D. Adjust the scope to stay within the cost.

**Answer: B**

Explanation:

The project manager should communicate with the affected stakeholders first after realizing that the sign-off for the project scope baseline is delayed due to multiple changes and that the budget for this project is restricted by the project sponsor. The affected stakeholders are those who have an interest or influence on the project and may be impacted by any changes or delays. Communicating with them can help to explain the situation, assess the impact, seek feedback, and manage expectations.

#### NEW QUESTION # 153

Which of the following is the most important activity for the project manager during the closure of a project?

- A. Document historical information.
- B. Release resources.
- C. Capture lessons learned.
- **D. Obtain project sign-off.**

**Answer: D**

Explanation:

Obtaining project sign-off is crucial in the closure phase, as it signifies formal acceptance of the project deliverables by the stakeholders. According to CompTIA Project+, project sign-off is a key milestone in officially closing the project.

#### NEW QUESTION # 154
