Salesforce Certified Experience Cloud Consultant Sample Questions (Q174-Q179):

NEW QUESTION # 174

A consultant is setting up an experience for a client in a new org. The client insists on using standard profiles for external users. Which step is required in order to use standard profiles in an experience?

- A. Create a permission set with " Allow standard external profiles' check assign to all external users.
- B. Ensure the standard profile have Allow using standard external profiles for self-registration, usercreation, and login' set to True.
- C. Customer Community Plus Login Experience license need to be used.
- D. **Allow using standard external profiles for self-registration, user creation, and logging" must be enabled.**

Answer: D

Explanation:

To use standard profiles in an experience, the step that is required is to enable the "Allow using standard external profiles for self-registration, user creation, and login" option in Setup. A profile is a collection of settings and permissions that determine what users can see and do in Experience Cloud. Standard profiles are predefined profiles that come with Salesforce and cannot be edited or deleted. To use standard profiles for external users in an experience, you need to enable the "Allow using standard external profiles for self- registration, user creation, and login" option in Setup, which gives you access to use standard profiles such as Customer Community User or Partner Community User.

NEW QUESTION # 175

Northern Trail Outfitters would like to display a different Hero component on the Home page for United States and EMEA. How should an administrator accomplish this?

- A. Create a page variation for EMEA, configure the Theme, and include a different Hero component.
- B. Use the same page variation for EMEA, include multiple Hero components, and target each component.
- C. **Create a page variation for EMEA, configure the flexible page layout, and include a different Hero component.**
- D. Use the same page variation for EMEA and include multiple targeted HTML components.

Answer: C

Explanation:

Page variations allow you to create different versions of a page for different audiences. You can use the flexible page layout to customize the components and layout of each page variation. You can also target each page variation to a specific audience based on criteria such as location, profile, or record type.

NEW QUESTION # 176

Universal Containers is implementing a Partner Community.

Which sharing setting would allow users to collaborate with their peers who work for the same partner firm, but not with any users outside of their firm?

- A. Site User Visibility
- B. **Portal User Visibility**
- C. Community User Visibility
- D. Chatter Group Member Visibility

Answer: B

Explanation:

The sharing setting that would allow users to collaborate with their peers who work for the same partner firm, but not with any users outside of their firm, is Portal User Visibility. Portal User Visibility is a setting that allows portal users (such as Customer Community or Partner Community users) to see other portal users who have the same role or a role below them in the portal role hierarchy. This setting enables portal users to share information and collaborate with their peers within their own firm, but not with other firms.

NEW QUESTION # 177

Cloud Kicks (CK) wants potential customers to use self-registration to sign up and gain access to its new site.

CK uses Person Accounts for its customers.

How should the CK system administrator configure self-registration?

- A. Create a flow to convert the Contact to a Person Account.
- B. **Leave the Account field blank.**
- C. Create a trigger on User to convert the Contact to a Person Account.

- D. Set the profile to the standard Person Account profile.

Answer: B

Explanation:

To configure self-registration for customers who use Person Accounts, CK should leave the Account field blank. This will allow CK to create individual customers without associating them with an account. CK can use the standard self-registration configuration under Experience Workspace and select a profile or permission set that supports Person Accounts. CK can also customize the self-registration page and Apex handler to create Person Accounts for customers based on their information.

NEW QUESTION # 178

Dreamscape Flowers needs to create a digital experience that meets the following requirements:

- * It allows for collaboration between customer and partner users.
- * Self-service for customer users is available.
- * Partner users create or resolve cases for their customers and need to see case data on a dashboard.
- * Partner users do not manage Leads, Opportunities, or Campaigns.

Which license type should a Salesforce Admin use for these partner users?

- A. Employee Community
- B. Partner Community
- **C. Customer Community Plus**
- D. Customer Community

Answer: C

Explanation:

Customer Community Plus licenses allow users to access standard CRM objects, such as cases and accounts, and custom objects. They also allow users to collaborate with other users through Chattergroups, files, and topics. Customer Community Plus licenses are suitable for partner users who need to create or resolve cases for their customers and see case data on a dashboard, but do not manage leads, opportunities, or campaigns.

NEW QUESTION # 179

.....
