AGA Examination 2: Governmental Accounting, Financial Reporting and Budgeting (GAFRB) Sample Questions (Q31-Q36):

NEW QUESTION # 31

A city issues \$100,000 of 10-year general obligation bonds on April 1, 2024. Debt service of \$10,000 must be paid each year on March 31, with 5% interest paid on the unpaid balance. Based upon this information, the interest expense reported on the government-wide statement for fiscal year ending March 31, 2025, is

- A. \$ 3,750.
- B. \$15,000.
- C. \$ 4,500.
- **D. \$5,000.**

Answer: D

Explanation:

The city issues \$100,000 in general obligation bonds on April 1, 2024, and the first principal payment of \$10,000 is due on March 31, 2025. The interest rate is 5% annually on the unpaid principal balance.

As of April 1, 2024, the full \$100,000 is outstanding. For the full fiscal year (April 1, 2024 to March 31, 2025), interest accrues on the full amount until payment is made. The interest on \$100,000 for one year at 5% =

$$\text{Interest Expense} = \$100,000 \times 5\% = \$5,000$$

Note: Interest is typically calculated on the beginning-of-period balance, and since the payment is made at the end of the year (March 31, 2025), the full \$5,000 interest is recognized for that year.

NEW QUESTION # 32

A federal AFR includes all of the following EXCEPT

- **A. a standard general ledger trial balance.**
- B. the MD&A.
- C. an audit opinion.
- D. the RSI.

Answer: A

Explanation:

An Agency Financial Report (AFR), required by OMB Circular A-136, must include the following core components:

#Management's Discussion and Analysis (MD&A)

#Financial Section (includes basic financial statements and accompanying notes)

#Required Supplementary Information (RSI)

#Auditor's Opinion (if audited)

However, the Standard General Ledger (SGL) trial balance is not included in the AFR itself. While agencies must use the SGL for financial reporting consistency and submit trial balances to Treasury (e.g., via GTAS), the trial balance is not published in the AFR.

C). a standard general ledger trial balance

NEW QUESTION # 33

Governmental funds reported \$80 million current expenditures and \$2 million capital outlays. The reconciliation of the Statement of Revenues, Expenditures, and Change in Fund Balance to the Statement of Activities starts with the total net change in fund balances in the governmental fund and

- A. \$2 million in capital outlays is subtracted.
- B. \$80 million in current expenditures is added.
- C. \$80 million in current expenditures is subtracted.
- **D. \$2 million in capital outlays is added.**

Answer: D

Explanation:

In the reconciliation from the governmental fund financial statements to the government-wide Statement of Activities, capital outlays that were treated as expenditures in the governmental funds are added back. This is because the government-wide financial statements use full accrual accounting, where capital outlays are capitalized as assets and not expensed.

Thus, the \$2 million in capital outlays would be added back to adjust net change in fund balances to arrive at the change in net position for governmental activities.

C). \$2 million in capital outlays is added

NEW QUESTION # 34

Depreciation is measured on the statewide financial statements using the

- A. modified accrual basis.
- B. tax basis.
- **C. accrual basis.**
- D. cash basis.

Answer: C

Explanation:

In the statewide financial statements, which represent the government-wide financial reporting model, depreciation is reported using the full accrual basis of accounting. This means long-term assets and liabilities are recognized, and depreciation is recorded systematically over the useful lives of capital assets.

The modified accrual basis (used in governmental funds) does not report depreciation because capital assets are not reported in those funds.

D). accrual basis

NEW QUESTION # 35

An example of a federal principal financial statement is the

- A. Statement of Operations.
- **B. Statement of Budgetary Resources.**
- C. Statement of Cash Flows.
- D. Statement of Net Income.

Answer: B

Explanation:

Federal principal financial statements are required under OMB Circular A-136 and FASAB standards. They include:

Statement of Budgetary Resources (SBR)

Balance Sheet

Statement of Net Cost

Statement of Changes in Net Position

Statement of Custodial Activity (if applicable)

There is no "Statement of Cash Flows" or "Statement of Net Income" in federal accounting - those are private-sector financial statements.
