NEW QUESTION # 87
In Huawel's CloudCampus Solution, communication between virtual networks (VNs) is supported which of the following statements about the policies tor such communication is false?

- A. Free mobility is supported for policies in a VN
- B. Communication between VNs can be implemented through the external firewall
- C. Communication between VNs can be directly implemented on the border node
- D. Free mobility cannot be deployed for traffic between VNs

Answer: D

Explanation:

Explanation
Free mobility cannot be deployed for traffic between VNs. Free mobility is supported only for policies in a VN. Communication between VNs can be directly implemented on the border node or through the external firewall. Free mobility is a feature that allows users to access network resources without changing their IP addresses or VLANs when they move within a VN. Communication between VNs requires inter-VN routing or firewall policies to ensure security and isolation.
