ServiceNow Certified Implementation Specialist - Hardware Asset Management Sample Questions (Q57-Q62):

NEW QUESTION # 57

What hardware asset attribute should you track that is NOT part of a configuration item (CI)?

- A. IP address
- B. Operating system
- C. Cost
- D. CPU
- E. Memory

Answer: C

NEW QUESTION # 58

Classes are represented as tables in the ServiceNow database. Which is the base asset class?

- A. alm hardware
- B. cmdb_asset
- C. cmdb hardware
- D. alm_asset

Answer: D

Explanation:

Explanation

Classes are represented as tables in the ServiceNow database that define the attributes and relationships of a specific type of record1 The base asset class is the alm_asset table, which contains the common fields and properties for all types of assets, such as hardware, software, consumable, etc.2 The alm_asset table is extended by other asset classes, such as alm hardware, alm software, alm consumable, etc., which add more specific fields and properties for each asset type2 The cmdb_asset table is not a class, but a view that joins the alm_asset table and the cmdb_ci table, which is the base configuration item (CI) class3 The cmdb hardware table is a CI class, not an asset class, that contains the common fields and properties for all types of hardware CIs, such as computers, devices, network equipment, etc.4 References: 1: Tables and Classes - ServiceNow 2: Asset [alm_asset] table - ServiceNow 3: Asset and Configuration Item [cmdb_asset] view - ServiceNow 4: Hardware [cmdb_ci hardware] class - ServiceNow

NEW QUESTION # 59

Which of these tables are installed with Hardware Model Normalization? (Choose three.)

- A. Device Type
- B. Hardware Manufacturer
- C. Hardware Normalize Key
- D. Hardware Model Library
- E. Device Name

Answer: B,C,D

NEW QUESTION # 60

What do certification filters define?

- A. The percentage of tasks required for the certification to be considered complete
- B. The assets to be certified
- C. What fields are displayed for certification
- D. When the certification is performed

Answer: B

Explanation:

Explanation

Certification is a process of verifying the accuracy and completeness of asset data in the ServiceNow system¹. Certification filters define the criteria for selecting the assets that need to be certified, such as asset class, model, location, department, etc.²

Certification filters are used to create certification tasks, which are assigned to certifiers who are responsible for reviewing and updating the asset data³. Certification filters can be created and managed from the Certification Filters module under Hardware Asset Management application⁴.

References: 1: Certification Overview - ServiceNow 2: Create a certification filter - ServiceNow 3: Certify assets - ServiceNow 4: Certification Filters module - ServiceNow

NEW QUESTION # 61

What feature does the Hardware Asset Management (HAM) application use to fully normalize hardware models?

- **A. Normalization mappings**
- B. Normalization transformation
- C. Mapping assist
- D. Transform normalization
- E. Transform mappings

Answer: A

Explanation:

Normalization mappings are a feature of the Hardware Asset Management (HAM) application that allow you to standardize the manufacturer name, model name, and model number of hardware assets in the Configuration Management Database (CMDB)¹. Normalization mappings are created by matching the values from the discovery source to the values in the Product Catalog².

Normalization mappings help you to fully normalize hardware models by ensuring that the asset data is consistent, accurate, and complete³. Reference:

Hardware Normalization

Create normalization mappings

What is Hardware Asset Management?

NEW QUESTION # 62

.....

Experts hired by CIS-HAM exam questions not only conducted in-depth research on the prediction of test questions, but also made great breakthroughs in learning methods. With CIS-HAM training materials, you can easily memorize all important points of knowledge without rigid endorsements. With CIS-HAM exam torrent, you no longer need to spend money to hire a dedicated tutor to explain it to you, even if you are a rookie of the industry, you can understand everything in the materials without any obstacles.
