

# Updated C-TS422-2023 Dumps | C-TS422-2023 Valid Vce Dumps

P.S. Free 2026 SAP C-TS422-2023 dumps are available on Google Drive shared by Dupleader: <https://drive.google.com/open?id=1-g9WOJvHrxc7id0BaIjjwe7HSmy-00dj>

Get the latest C-TS422-2023 actual exam questions for C-TS422-2023 Exam. You can practice the questions on practice software in simulated real C-TS422-2023 exam scenario or you can use simple PDF format to go through all the real C-TS422-2023 exam questions. Our products are better than all the cheap C-TS422-2023 Exam braindumps you can find elsewhere, try free demo. You can pass your actual C-TS422-2023 Exam in first attempt. Our C-TS422-2023 exam material is good to pass the exam within a week. Dupleader is considered as the top preparation material seller for C-TS422-2023 exam dumps, and inevitable to carry you the finest knowledge on C-TS422-2023 exam certification syllabus contents.

## SAP C-TS422-2023 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>• Production Orders in SAP S</li><li>• 4HANA: This section covers BOM item categorization, order status management, availability checks, routing selection, order type setup, and material handling processes.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>• Process Orders in SAP S</li><li>• 4HANA: This section covers an introduction to process order components, processing, and relevant master data objects. Overview of Good Manufacturing Practices (GMP) features.</li></ul>
Topic 3	<ul style="list-style-type: none"><li>• Advanced Planning in SAP S</li><li>• 4HANA: This section includes an overview of advanced planning fundamentals and master data. Explanation of key tools and processes. Discussion of planning evaluation concepts.</li></ul>
Topic 4	<ul style="list-style-type: none"><li>• Material Requirements Planning in SAP S</li><li>• 4HANA: This part of the exam covers an examination of planning strategies, tools, and long-term planning concepts. Overview of MRP fundamentals and lot size procedures.</li></ul>

Topic 5	<ul style="list-style-type: none"> <li>• Introduction to SAP S</li> <li>• 4HANA Supply Chain Planning: This part covers the background and motivation for SAP S</li> <li>• 4HANA, its main components, business applications, and user experience strategy.</li> </ul>
Topic 6	<ul style="list-style-type: none"> <li>• Demand Management in SAP S</li> <li>• 4HANA: This section covers a comparison of production methods in various manufacturing environments.</li> </ul>
Topic 7	<ul style="list-style-type: none"> <li>• Master Data in SAP S</li> <li>• 4HANA: This section covers the exploration of crucial production-related master data elements, with emphasis on bill of material, routing, and production version.</li> </ul>
Topic 8	<ul style="list-style-type: none"> <li>• Capacity Planning in SAP S</li> <li>• 4HANA: This section covers a discussion of SAP S</li> <li>• 4HANA best practices, SAP HANA database concept, SAP Fiori user experience, and embedded analytics capabilities.</li> </ul>

## C-TS422-2023 Valid Vce Dumps - C-TS422-2023 Exam Price

No matter in the day or on the night, you can consult us the relevant information about our C-TS422-2023 preparation exam through the way of chatting online or sending emails. I'm sure our 24-hour online service will not disappoint you as we offer our service 24/7 on our C-TS422-2023 Study Materials. And we will give you the most considerate suggestions on our C-TS422-2023 learning guide with all our sincere and warm heart.

## SAP S/4HANA Cloud Private Edition - Production Planning and Manufacturing Sample Questions (Q14-Q19):

### NEW QUESTION # 14

Your project team decides to use a maketoorder planning strategy for a strategic material in discrete manufacturing. What are the impacts of this decision? Note: There are 3 correct answers to this question.

- A. Production orders are created with sales order reference.
- B. Sales orders have to be ATPconfirmed (availabletopromise) to be saved.
- C. Storage location MRP areas are required for salesorderspecific stock.
- D. Net requirements calculation is carried out for every sales order individually.
- E. Both the reduction of maketoorder stock requirements occur on delivery.

**Answer: A,B,D**

### NEW QUESTION # 15

You want to set up a make-to-order planning scenario for a finished material. The bill of material contains two components: one should be procured for each sales order individually, and the other should be procured jointly for all independent requirements. Forecasting for the finished product is NOT possible. Which settings do you make to achieve this?

- A. Choose planning strategy 50 (Planning without final assembly) and select the - corresponding Individual/Collective indicator.
- B. Choose planning strategy 20 (Make-to-Order) and select the corresponding Mixed MRP indicator.
- C. Choose planning strategy 50 (Planning without final assembly) and select the corresponding Mixed MRP indicator.
- D. Choose planning strategy 20 (Make-to-Order) and select the corresponding individual/Collective indicator.

**Answer: D**

Explanation:

To set up a make-to-order planning scenario for a finished material, you need to choose planning strategy 20 (Make-to-Order) and select the corresponding Individual/Collective indicator for the components in the bill of material. This way, you can control whether

the components are procured individually or collectively for the sales orders. The following steps explain how to achieve this: In the material master record of the finished material, you need to select the MRP type PD (MRP) and the strategy group 20 (Make-to-Order) in the MRP 1 view. This means that the finished material is planned based on the sales order requirements and not on the forecast<sup>12</sup>.

In the bill of material of the finished material, you need to select the Individual/Collective indicator for each component. This indicator determines whether the component is procured individually for each sales order or collectively for all independent requirements. For the component that should be procured for each sales order individually, you need to select the indicator 2 (Individual requirements only). For the component that should be procured jointly for all independent requirements, you need to select the indicator 1 (Collective requirements only)<sup>3</sup>.

When you create a sales order for the finished material, the system generates a sales order item and a planned independent requirement for the finished material. The planned independent requirement is used as a planning element in MRP and triggers the procurement of the components according to the Individual/Collective indicator. For the component with indicator 2, the system creates a dependent requirement that is linked to the sales order item. For the component with indicator 1, the system creates an independent requirement that is not linked to the sales order item.

#### NEW QUESTION # 16

What can you use standard heuristics in Advanced Planning (PP/DS) for?

- A. To optimize costs times in production plans
- **B. To solve planning problems for defined objects**
- C. To automate material movements in material staging
- D. To set default values in production master data

**Answer: B**

#### NEW QUESTION # 17

Which of the following processes lead to an entry in the MRP planning file? Note: There are 2 correct answers to this question.

- A. Changing the storage bin in warehouse management
- **B. Changing the procurement type in the product master**
- C. Changing the delivery address in transportation management
- **D. Changing the stock in inventory management**

**Answer: B,D**

#### NEW QUESTION # 18

What is the difference between coproducts byproducts? Note: There are 2 correct answers to this question.

- **A. Only coproducts appear in the process or production order settlement rule.**
- **B. Only coproducts have movement type 101.**
- C. Only coproducts have movement type 531.
- D. Only coproducts have a nonzero inventory valuation.

**Answer: A,B**

#### NEW QUESTION # 19

.....

We try our best to provide the most efficient and intuitive learning methods to the learners and help them learn efficiently. Our C-

TS422-2023 study materials provide the instances, simulation and diagrams to the clients so as to they can understand them intuitively. Based on the consideration that there are some hard-to-understand contents we insert the instances to our C-TS422-2023 Study Materials to concretely demonstrate the knowledge points and the diagrams to let the clients understand the inner relationship and structure of the knowledge points.
