If you want to spend less time on preparing for your AD0-E117 exam, if you want to pass your AD0-E117 exam and get the certification in a short time, our AD0-E117 Study Materials will be your best choice to help you achieve your dream. Only studying with our AD0-E117 exam questions for 20 to 30 hours, you will be able to pass the AD0-E117 exam with confidence.

Adobe Experience Manager Architect Master Sample Questions (Q10-Q15):

NEW QUESTION # 10

A large retail customer is building their ecommerce platform on AEM. Several third-party vendors sell products through their site. Those vendors need to review and verify the content close to production before the content goes live and the customer wants to provide them a restricted environment.

Which approach should the Architect recommend?

- A. Give third-party vendors access to the Author Server
- B. Export content as PDF and share with the vendors
- C. Use the Preview Capabilities of AEM Author Server
- **D. Add a Publish (preview) Server and provide access**

Answer: D

Explanation:

According to Adobe Experience Manager documentation¹, a publish (preview) server is a publish instance that is used for previewing content before it goes live on the production server. This can be useful for verifying content with third-party vendors or other stakeholders who need restricted access.

NEW QUESTION # 11

A customer wants to migrate their AEM environment from an on-premise infrastructure to a public cloud to improve performance. The customer currently hosts many assets (images, videos, documents) in the DAM.

Approximately 10 business users frequently upload new assets and update existing assets. Editors then use these assets on the sites. What should an Architect do as part of this migration?

- A. Set up Connected Assets to share the DAM assets in the sites
- B. Set up a horizontally scalable AEM environment on MongoDB
- C. Move to a shared datastore and enable binary less replication
- **D. Run online revision cleanup before moving to the new storage format**

Answer: D

Explanation:

"running online revision cleanup before moving to the new storage format can reduce the size of the repository and improve performance".

NEW QUESTION # 12

During development the AEM Publisher server keeps crashing randomly. The deployment included a new static FAQ component that was used in the websites Contact Us page. An Architect investigates to find the root cause for the random failures, and notices the following parameters:

- * The server slows down when requests are sent to the Contact us page
- * The number of requests to the page were very few
- * Heap dump shows a large number of instances of the FAQ component

What is likely causing this issue?

- A. The JVM garbage collection is not running
- B. The component triggers a traversal query.
- **C. The component has a cyclic dependency to itself**
- D. The page was not cached in the Dispatcher.

Answer: C

NEW QUESTION # 13

An AEM architect is planning to move the existing content from an AEM 6.5 instance to an AEM as a Cloud Service instance using the Content Transfer Tool. The architect is going to run the offline compaction on AEM 6.5 for migration purposes. What two actions would the architect take before starting the migration?

(Choose two.)

- A. Enable Wipe mode on AEM as cloud repository
- **B. Disable Wipe mode on AEM as cloud repository**
- C. Ensure destination AEM instance has free disk space of minimum 1.5x the JCR size
- **D. Ensure source AEM instance has free disk space of minimum 1.5x the JCR size**

Answer: B,D

NEW QUESTION # 14

A media company surveys the end users of their AEM Sites website. The survey identifies that it is difficult to locate content on the site due to lack of relevancy and slow performance when navigating through the large volume of content.

To address both issues, the business team suggests integrating an innovative taxonomy product to the company's AEM implementation. The product is new on the market and the development team has no experience with the technology.

Which two steps should an Architect recommend to evaluate this new feature? (Choose two.)

- **A. Develop the integration as proof of concept with sample content**
- B. Develop the integration as proof of concept with full production content
- **C. Test usability of the feature with selected end users**
- D. Test usability of the feature with selected business users
- E. Develop the integration and deploy it to 50% of the production AEM instances

Answer: A,C

Explanation:

"developing a proof of concept with sample content allows for testing the feasibility and performance of the integration without affecting production data. Testing usability with selected end users allows for validating the relevancy and user satisfaction of the feature".

NEW QUESTION # 15

.....

To go with the changing neighborhood, we need to improve our efficiency of solving problems, which reflects in many aspects as well as dealing with exams. Our AD0-E117 practice materials can help you realize it. To those time-sensitive exam candidates, our high-efficient AD0-E117 actual tests comprised of important news will be best help. Only by practicing them on a regular base, you will see clear progress happened on you. Besides, rather than waiting for the gain of our AD0-E117 practice materials, you can download them immediately after paying for it, so just begin your journey toward success now.
