Microsoft Collaboration Communications Systems Engineer Sample Questions (Q250-Q255):

NEW QUESTION # 250

You have a Teams Phone deployment that uses Direct Routing on a single Session Border Controller (SBC).

Users report that outbound PSTN calls are failing, but inbound PSTN calls are successful.

When you review the SBC logs, you discover that Microsoft is responding to SIP option requests, but is NOT sending SIP option requests.

What is the cause of the issue?

- A. An external DNS entry is missing from the FQDN of the SBC.
- B. The phone numbers of the users are defined by running the New-CsTeamsUnassignedNumber cmdlet.
- C. The online PSTN gateway is disabled.
- D. An SBC certificate is expired.

Answer: C

Explanation:

Issues that affect outbound direct routing calls

You might experience various issues when you use Direct Routing to make outbound calls from a Microsoft Teams client to a Session Border Controller (SBC). These issues include the following:

An incorrect caller ID is displayed to the call recipient.

A connection to the SBC is not established.

Some users in a tenant are unable to make calls.

No users in a tenant are able to make calls.

No users are able to make calls

If none of the users are able to make calls, the calls are probably not reaching the SBC. Check for one of the following causes.

Cause 1

Teams has a disabled gateway.

Resolution 1

Use the Microsoft Teams admin center to make sure that the gateway that's used by Teams is available and enabled.

NEW QUESTION # 251

You have a Microsoft 365 E5 subscription.

You need to compare the Microsoft 365 E5 subscription with a Microsoft Teams Premium license.

Which feature is included in Microsoft 365 E5, and which feature is exclusive with Teams Premium? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

The screenshot shows a comparison of features between Microsoft 365 E5 and Teams Premium. The interface includes the Microsoft logo and a watermark for 'trainingdumps.com'. Two dropdown menus are visible:

- Microsoft 365 E5:** A dropdown menu with the following options: 'End-to-end encryption for one-to-one calls' (selected), 'Add watermarks to meetings', 'Control who can record', 'End-to-end encryption for one-to-one calls', and 'Set up a green room for webinar presenters'.
- Teams Premium:** A dropdown menu with the following options: 'Use standard and custom meeting backgrounds at the user level' (selected), 'End-to-end encryption for one-to-one calls', 'Integrate with Dynamics 365', 'Set up a green room for webinar presenters', and 'Use standard and custom meeting backgrounds at the user level'.

Answer:

Explanation:

Answer Area

Microsoft 365 E5: End-to-end encryption for one-to-one calls
 Add watermarks to meetings
 Control who can record
 End-to-end encryption for one-to-one calls
 Set up a green room for webinar presenters

Teams Premium: Use standard and custom meeting backgrounds at the user level
 End-to-end encryption for one-to-one calls
 Integrate with Dynamics 365
 Set up a green room for webinar presenters
 Use standard and custom meeting backgrounds at the user level

Explanation:

Answer Area

Microsoft 365 E5: End-to-end encryption for one-to-one calls

Teams Premium: Use standard and custom meeting backgrounds at the user level

NEW QUESTION # 252

You have a Microsoft Teams Phone deployment that is used in the United States. You need to ensure that emergency calls placed to 9911.

What should you configure?

- A. a dial plan normalization rule
- B. an emergency call routing policy
- C. an emergency calling policy
- D. an outbound PSTN number translation rule

Answer: B

NEW QUESTION # 253

Hotspot Question

Your company is migrating from a legacy PBX system to Microsoft Teams.

The phone number range is +1-423-555-1xxx. The PBX system uses four-digit dialing internally.

Extensions are the last four digits of the number.

You need to ensure that you can use four-digit dialing for your numbers in Teams. The solution must minimize administrative effort.

How should you configure the normalization rule? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.
