## Salesforce Certified Sales Cloud Consultant Sample Questions (Q163-Q168):

#### NEW QUESTION # 163

The Cloud Kicks sales manager wants to deploy dynamic dashboards to show sales effectiveness in areas that sales members operate and manage.

Which two considerations should the consultant advise the sales manager about dynamic dashboards?

Choose 2 answers

- A. Dynamic dashboards require users to follow each component
- **B. Dynamic dashboards must be saved in public or shared folders.**
- C. Dynamic dashboards must be manually refreshed.
- **D. Dynamic dashboards allow all users to view data as any user.**

**Answer: B,D**

#### NEW QUESTION # 164

The sales director at Cloud Kicks wants to enable Person Accounts in its org. The sales director asked a consultant to evaluate the solution and present it to the sales team.

What should the consultant consider when evaluating Person Accounts?

- **A. Enabling the Person Accounts feature is Irreversible.**
- B. The Person Account object must have at least two record types.
- C. Enabling Person Accounts requires a Public Read/Write sharing model
- D. Person Account records only count toward Account storage.

**Answer: A**

#### NEW QUESTION # 165

Cloud Kicks (CK) operates in multiple countries and wants to track historical exchange rates. The consultant at CK has implemented dated exchange rates by using Advanced Currency Management.

How is the converted currency amount calculation on opportunities determined?

- **A. The close date regardless of the opportunity stage**
- B. The date the opportunity stage is closed regardless of the close date
- C. The close date only when the opportunity stage is closed

**Answer: A**

#### NEW QUESTION # 166

Universal Containers supports two lines of business: shipping and freight. The sales cycle for freight deals is more complex and involves more stages than the shipping sales cycle.

Which solution should a consultant recommend to meet these business requirements?

- A. Create different record types and sales processes for each line of business, and assign different sales processes to each page layout.
- B. Create different record types and sales processes for each line of business, and assign different stages to each page layout.
- **C. Create different record types and sales processes for each line of business, and assign different page layouts to each record type.**
- D. Create different record types and sales processes for each line of business, and use workflow field updates to assign stages.

**Answer: C**

#### NEW QUESTION # 167

Universal Containers has configured the Account organization-wide default (OWD) sharing as Public Read Only. All customer Accounts are owned by the customer success manager. When a customer calls support to update their contact information, the support agent on their Account team is unable to edit the Account.

Which approach should a consultant recommend allowing the support agent to edit the Account, while still enforcing the Public Read

## Only OWD?

- A. The customer success manager should include the support agent on the default Account team with Edit permissions.
- B. The customer success manager should change the owner of the Account to the support agent.
- C. The support agent should contact the customer success manager to update the Account.
- **D. The support agent should add themselves to the customer's Account team to grant Edit permissions.**

**Answer: D**

Explanation:

This is the approach that the consultant should recommend to allow the support agent to edit the Account, while still enforcing the Public Read Only OWD. Account teams are groups of users who work together on an account. Users can add themselves or others to an account team and specify different levels of access for each team member. By adding themselves to the customer's Account team with Edit permissions, the support agent can update the Account information without changing the owner or the OWD.
