FREE Dumps for Oracle 1Z0-071 Exam

1. Which two tasks can be performed by using Oracle SQL statements?

- A. changing the password for an existing database
- B. connecting to a database instance
- C. querying data from tables across databases
- D. starting up a database instance
- E. executing operating system (OS) commands in a session

Answer: C,E

2. Evaluate the following two queries:

```
SQL> SELECT cust_last_name, cust_city
FROM customers
WHERE cust_credit_limit IN (1000, 2000, 3000);

SQL> SELECT cust_last_name, cust_city
FROM customers
WHERE cust_credit_limit = 1000 OR cust_credit_limit = 2000 OR
cust_credit_limit = 3000;
```

Which statement is true regarding the above two queries?

- A. Performance would improve query 2 only if there are null values in the CUST_CREDIT_LIMIT column.
- B. There would be no change in performance.
- C. Performance would degrade in query 2.
- D. Performance would improve in query 2.

Answer: B

3. Which statement is true regarding external tables?

- A. The default REJECT LIMIT for external tables is UNLIMITED.
- B. The data and metadata for an external table are stored outside the database.
- C. ORACLE_LOADER and ORACLE_DATAPUMP have exactly the same functionality when used with an external table.
- D. The CREATE TABLE AS SELECT statement can be used to unload data into regular table in the database from an external table.

Answer: D

1 / 12

P.S. Free 2026 Oracle 1z0-071 dumps are available on Google Drive shared by FreePdfDump: <https://drive.google.com/open?id=1O2Zo55niDWUzV1T7Oanv8LqUgXq66wkQ>

We provide our candidates with valid 1z0-071 vce dumps and the most reliable pass guide for the certification exam. Our IT professionals written the latest 1z0-071 test questions based on the requirement of the certification center, as well as the study materials and test content. By using our online training, you may rest assured that you grasp the key points of 1z0-071 Dumps Torrent for the practice test.

As long as you need the exam, we can update the Oracle certification 1z0-071 exam training materials to meet your examination needs. FreePdfDump's training materials contain many practice questions and answers about Oracle 1z0-071 and they can 100% ensure you pass Oracle 1z0-071 exam. With the training materials we provide, you can take a better preparation for the exam. And we will also provide you a year free update service.

1z0-071 Exam Bible - Free 1z0-071 Exam Dumps

The 1z0-071 Test Guide is written by lots of past materials' rigorous analyses. The language of our study materials are easy to be understood, only with strict study, we write the latest and the specialized study materials. We want to provide you with the best service and hope you can be satisfied. It boosts your confidence for real exam and will help you remember the exam questions and answers that you will take part in. You may analyze the merits of each version carefully before you purchase our Oracle Database

SQL guide torrent and choose the best one.

Oracle Database SQL Sample Questions (Q111-Q116):

NEW QUESTION # 111

Which two are true about external tables that use the ORACLE_DATAPUMP access driver?

- A. Creating an external table creates a directory object.
- B. Creating an external table creates a dump file that can be used only by an external table in the same database.
- C. When creating an external table, data can be selected only from a table whose rows are stored in database blocks.
- **D. When creating an external table, data can be selected from another external table or from a table whose rows are stored in database blocks.**
- E. Creating an external table creates a dump file that can be used by an external table in the same or a different database.

Answer: D

Explanation:

External tables using the ORACLE_DATAPUMP access driver have specific characteristics:

C). Creating an external table using the ORACLE_DATAPUMP access driver allows you to select data from other tables, including another external table or a regular table whose rows are stored in database blocks.

A, B, D, and E are incorrect. Specifically:

* A is incorrect because creating an external table does not automatically create a directory object; the

* directory object must exist prior to or be created separately.

* B is incorrect as it limits the creation to tables stored in database blocks, which is not a restriction.

* D is incorrect because creating an external table does not create a dump file; it reads from an existing dump file created by Data Pump.

* E is also incorrect because the dump file is not created as part of the external table creation process.

* Oracle Database SQL Language Reference, 12c Release 1 (12.1): "CREATE TABLE" for External Tables

NEW QUESTION # 112

Examine this partial command:

```
CREATE TABLE cust (  
  cust_id NUMBER(2),  
  credit_limit NUMBER(10)  
)  
ORGANIZATION EXTERNAL
```

Which two clauses are required for this command to execute successfully? (Choose two.)

- A. the DEFAULT DIRECTORY clause
- B. the ACCESS PARAMETERS clause
- **C. the access driver TYPE clause**
- D. the REJECT LIMIT clause
- **E. the LOCATION clause**

Answer: C,E

NEW QUESTION # 113

Examine the structure of the BOOKS_TRANSACTIONS table:

Examine the SQL statement:

Which statement is true about the outcome?

- A. It displays details only for members who have borrowed before today with RM as TRANSACTION_TYPE.
- B. It displays details for only members A101 and A102 who have borrowed before today with RM TRANSACTION_TYPE.
- C. It displays details for members who have borrowed before today's date with either RM as TRANSACTION_TYPE or MEMBER_ID as A101 and A102.
- **D. It displays details for members who have borrowed before today with RM as TRANSACTION_TYPE and the details for members A101 or A102.**

Answer: D

NEW QUESTION # 114

Examine the description of the PRODUCTS table which contains data:

Name	Null?	Type
PROD ID	NOT NULL	NUMBER (2)
PROD NAME		VARCHAR2 (20)
EXPIRYDATE	NOT NULL	DATE

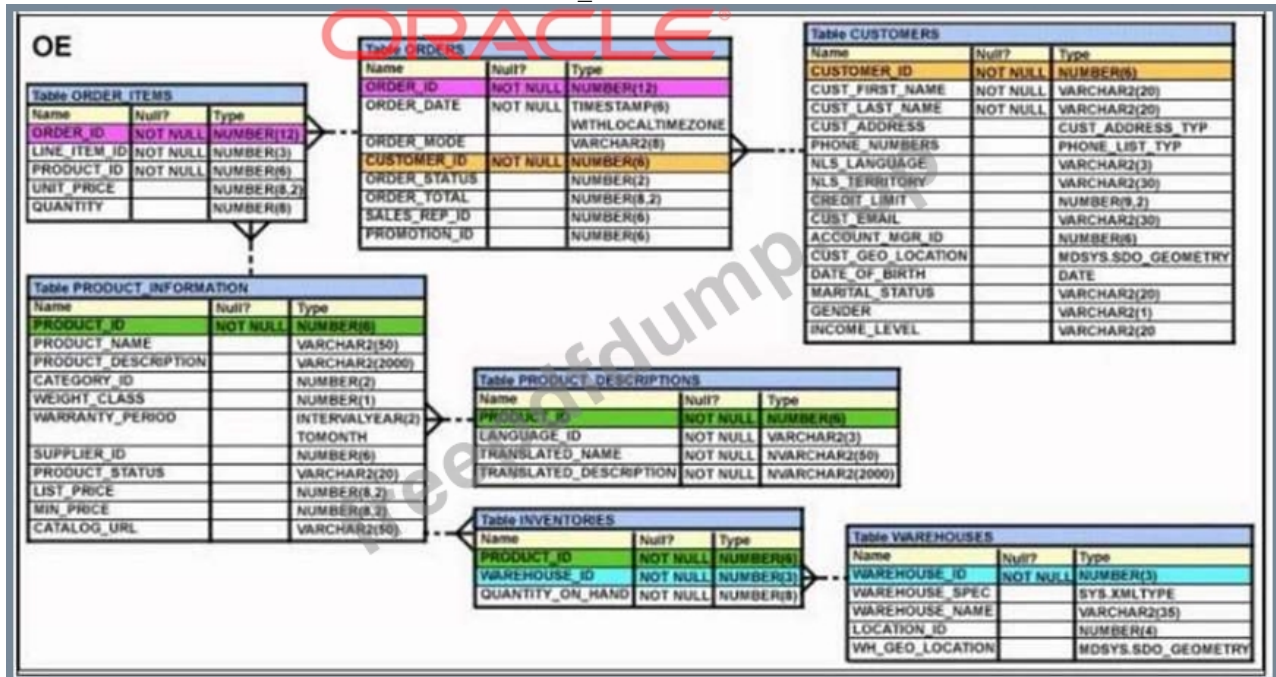

Which two are true?

- A. The PROD_ID column data type can be changed to VARCHAR2 (2).
- **B. The EXPIRY DATE column data type can be changed to TIME STAMP.**
- C. The EXPIRY DATE column cannot be dropped.
- **D. The PROD ID column can be renamed.**
- E. The PROD NAME column cannot have a DEFAULT clause added to it.

Answer: B,D

NEW QUESTION # 115

View the Exhibit and examine the details of the PRODUCT_INFORMATION table.

Evaluate this SQL statement:

```
SELECT TO_CHAR(list_price, '$9,999')
```

From product_information;

Which two statements are true regarding the output? (Choose two.)

- A. A row whose LIST_PRICE column contains value 1123.90 would be displayed as \$1,123.
- **B. A row whose LIST_PRICE column contains value 1123.90 would be displayed as \$1,124.**
- **C. A row whose LIST_PRICE column contains value 11235.90 would be displayed as #####.**
- D. A row whose LIST_PRICE column contains value 11235.90 would be displayed as \$1,123.

Answer: B,C
