As old saying goes, knowledge is wealth. So our CIS-SPM exam questions will truly teach you a lot of useful knowledge, which can compensate for your shortcomings. Actions speak louder than words. You are supposed to learn to make a rational plan of life. Our CIS-SPM Real Exam will accompany you to grow stronger. And the more you know, the more easily you can cope with the difficulties in your work. And the most important is that you can get the CIS-SPM certification.

ServiceNow Certified Implementation Specialist - Strategic Portfolio Management Sample Questions (Q60-Q65):

NEW QUESTION # 60
Use this table to configure the parameters displayed on a project card on the My Projects Space page of the Project Workspace.

- A. pm_home_page_config
- B. pm_toplevel_project
- C. pm_project
- D. project_template_config

Answer: A

Explanation:
According to the ServiceNow documentation1, the pm_home_page_config table is used to configure the parameters displayed on a project card on the My Projects Space page of the Project Workspace. The other tables are used for different purposes:
pm_project: Stores information about projects2.
pm_toplevel_project: Stores information about top-level projects3.
project_template_config: Stores information about project templates.

NEW QUESTION # 61
Which statement defines the Project Workspace?

- A. A central location transform the navigation of lists and forms into an interactive graphical experience
- B. A central location for viewing and assessing business demands
- C. A central location to view of all projects in a portfolio to prioritize work
- D. A central location for creating and managing projects

Answer: D

Explanation:
According to the ServiceNow documentation1, the Project Workspace is a central location for creating and managing projects. It provides a graphical interface that allows users to view and edit project information, such as tasks, resources, risks, issues, and dependencies. The Project Workspace also enables users to collaborate with team members and stakeholders, track project progress, and generate reports.
The other options are incorrect because:
A . A central location to view of all projects in a portfolio to prioritize work: This describes the Portfolio Workbench, not the Project Workspace2.
C . A central location transform the navigation of lists and forms into an interactive graphical experience: This describes the Lens, not the Project Workspace3.
D . A central location for viewing and assessing business demands: This describes the Demand Workbench, not the Project Workspace.

NEW QUESTION # 62

Which colors are used as indicators of project health in a project status report?

Choose 3 answers

- A. Orange
- B. Blue
- C. Green
- D. Yellow
- E. Red

Answer: C,D,E

NEW QUESTION # 63

Which role is needed to group related projects and demands?

- A. it_project_user
- B. it_program_manager
- C. it_demand_manager
- D. it_project_manager

Answer: B

Explanation:

According to the ServiceNow documentation1, the it_program_manager role is needed to group related projects and demands. This role can create and manage programs, which are containers for projects and demands that share a common goal or objective. The other options are incorrect because:

B . it_project_manager: The it_project_manager role can create and manage projects, but not group them into programs2.

C . it_demand_manager: The it_demand_manager role can create and manage demands, but not group them into programs3.

D . it_project_user: The it_project_user role can view and edit project tasks, but not create or manage projects, demands, or programs4.

NEW QUESTION # 64

A program is a container for the following except for:

- A. Portfolios
- B. Program tasks
- C. Issues
- D. Cost plans

Answer: A

Explanation:

According to the ServiceNow documentation1, a program is a container for the following:

Program tasks: Tasks that define the scope and deliverables of the program2.

Issues: Problems that affect the program or its outcome3.

Cost plans: Plans that estimate the cost of the program and its components4.

A portfolio is not a part of a program, but rather a collection of programs and projects that are aligned with a strategic goal or objective.
