

# 100% Pass Quiz JN0-336 - Security, Specialist (JNCIS-SEC) Perfect Exam Sample

What's more, part of that RealValidExam JN0-336 dumps now are free: <https://drive.google.com/open?id=1gLA1JzlrCcSDXKx27cROcdX5zMOh99QK>

As the leader in this career, we always adhere to the principle of “mutual development and benefit”, and we believe our JN0-336 practice materials can give you a timely and effective helping hand whenever you need in the process of learning. With our JN0-336 exam questions for 20 to 30 hours, you will find that you can pass the exam with confidence. Tens of thousands of our customers have tested that our pass rate of the JN0-336 study braindumps is high as 98% to 100%, which is unmatched on the market!

Desktop Security, Specialist (JNCIS-SEC) (JN0-336) practice exam software also keeps track of the earlier attempted JN0-336 practice test so you can know mistakes and overcome them at each and every step. The Desktop JN0-336 Practice Exam software is created and updated in a timely by a team of experts in this field. If any problem arises, a support team is there to fix the issue.

## Valid JN0-336 Braindumps - JN0-336 Latest Test Answers

JN0-336 Online test engine is convenient and easy to study, and it supports all web browsers, and you can practice offline if you like. Most importantly, JN0-336 Online test engine has testing history and performance review, and you can have a general review of what you have learned before next practice. In addition, we offer you free demo for JN0-336 Exam Dumps for you to have a try, so that you can know what the complete version is like. We have online and offline service for JN0-336 exam dumps, and if you are bothered by any questions, you can have a conversation with us, and we will give you the professional advice.

## Juniper Security, Specialist (JNCIS-SEC) Sample Questions (Q87-Q92):

### NEW QUESTION # 87

You are deploying a new SRX Series device and you need to log denied traffic.

In this scenario, which two policy parameters are required to accomplish this task? (Choose two.)

- A. deny
- B. session-close
- C. session-init
- D. count

**Answer: A,B**

### NEW QUESTION # 88

You are troubleshooting unexpected issues on your JIMS server due to out of order event log timestamps.

Which action should you take to solve this issue?

- A. Enable time synchronization on the client devices.
- B. Enable time synchronization on the JIMS server.
- C. Enable time synchronization on the SRX Series devices.
- **D. Enable time synchronization on the domain controllers.**

**Answer: D**

Explanation:

To solve the issue of out of order event log timestamps on your JIMS server, you should enable time synchronization on the domain controllers. JIMS (Juniper Identity Management Service) is a Windows service that collects user, device, and group information from Active Directory domains or syslog sources and provides it to SRX Series devices and CSO for identity-based security policies. JIMS relies on the timestamps of the event logs generated by the domain controllers to track user logins, logouts, and IP address changes. If the domain controllers have different or inaccurate clocks, the event logs may have out of order or incorrect timestamps, which can cause JIMS to miss or misinterpret some events and affect its accuracy and performance. Therefore, you should ensure that all the domain controllers in your network are synchronized with a reliable time source, such as an NTP server or a Windows Time service. Reference: = Juniper Identity Management Service User Guide, Juniper Identity Management Service Feature Guide, Configure JIMS Collector to Get Microsoft Event Logs, Considerations for timestamps in centralized logging platforms

#### NEW QUESTION # 89

You are currently using a third-party threat analyzer. You want your SRX Series device to send decrypted SSE traffic to..... In this scenario, which feature should you configure on the SRX device?

- A. SSL decryption mirroring
- **B. IPS IPanotify action**
- **C. JSA vulnerability assessment**
- D. Phase 2 proxy ID

**Answer: B,C**

#### NEW QUESTION # 90

After JSA receives external events and flows, which two steps occur? (Choose two.)

- A. After the information is filtered, JSA responds with active measures
- **B. After formatting the data, the data is stored in an asset database.**
- **C. Before the information is filtered, the information is formatted**
- D. Before formatting the data, the data is analyzed for relevant information.

**Answer: B,C**

Explanation:

When JSA (Juniper Secure Analytics) receives external events and flows, the typical processing steps are:

Option C. Before the information is filtered, the information is formatted.

Data formatting is an initial step in the process where raw data from events and flows is converted into a standard format that can be more easily processed and analyzed by JSA.

Option A. After formatting the data, the data is stored in an asset database.

Once the data is formatted, it is stored in an asset database. This database acts as a repository for all the formatted data, enabling JSA to perform further analysis, correlation, and eventually, to maintain a comprehensive view of the network assets and activities. These steps are part of JSA's comprehensive approach to security event management, which involves collecting, normalizing, and analyzing data to identify potential security threats and vulnerabilities efficiently.

#### NEW QUESTION # 91

What are two benefits of using a vSRX in a software-defined network? (Choose two.)

- A. no required software license
- **B. scalability**
- C. infinite number of interfaces
- **D. granular security**

**Answer: B,D**

Explanation:

- Scalability: vSRX instances can be easily added or removed as the needs of the network change, making it a flexible option for scaling in a software-defined network.

- Granular Security: vSRX allows for granular security policies to be enforced at the virtual interface level, making it an effective solution for securing traffic in a software-defined network.

The two benefits of using a vSRX in a software-defined network are scalability and granular security.

Scalability allows you to increase the number of resources available to meet the demands of network traffic, while granular security provides a level of control and flexibility to your network security that is not possible with a traditional firewall. With a vSRX, you can create multiple levels of security policies, rules, and access control lists to ensure that only authorized traffic can enter and exit your network.

Additionally, you would not require a software license to use the vSRX, making it an economical solution for those looking for increased security and flexibility.

## NEW QUESTION # 92

.....

The prime objective of our Juniper JN0-336 PDF is to improve your knowledge and skills to the level that you get attain success easily without facing any difficulty. For this purpose, RealValidExam hired the services of the best industry experts for developing exam dumps and hence you have preparatory content that is unique in style and filled with information. Each RealValidExam brain dump, included in the JN0-336 Brain Dumps PDF is significant and may also is the part of the actual exam paper.

**Valid JN0-336 Braindumps:** <https://www.realvalidexam.com/JN0-336-real-exam-dumps.html>

The user-friendliness nature of JN0-336 Dumps PDF is likeable the most, From last 7 years ago, we have been the front runner in providing the authentic JN0-336 dumps questions and answers materials, Well, worry no more, JN0-336 PDF version is printable and you can print them into hard one, and take some notes on them, Juniper Exam JN0-336 Sample It support all operate systems.

If you're stuck on a solution what do you do, The same holds true today, at the end of the Internet's golden age, The user-friendliness nature of JN0-336 Dumps PDF is likeable the most.

From last 7 years ago, we have been the front runner in providing the authentic JN0-336 dumps questions and answers materials, Well, worry no more, JN0-336 PDF version is printable and you can print them into hard one, and take some notes on them.
