years. By using our SAFe-Agilist study guide, your possibility of getting certificate and being success will increase dramatically and a series of benefits will come along in your life. So our SAFe-Agilist real quiz is versatile and accessible to various exam candidates. Just trust us and you can get what you want for sure!

Scaled Agile SAFe 6 Agilist - Leading SAFe (SA) (6.0) Sample Questions (Q41-Q46):

NEW QUESTION # 41

Why do Business Owners assign business value to team PI Objectives?

- A. To empower teams to make decisions around work
- B. To determine what the teams should work on first
- C. To override the decisions made in WSJF prioritization
- D. To ensure the teams do not work on architectural Enablers

Answer: A

Explanation:

The reason why business owners assign business value to team PI objectives is to empower teams to make decisions around work. Business value is a relative measure of the importance of a work item or an outcome to the business. Team PI objectives are SMART (Specific, Measurable, Achievable, Relevant, Time-bound) goals that reflect the value that each team intends to deliver in a PI. Business owners assign business value points to each team PI objective based on their alignment with the program vision and objectives. This helps teams prioritize their work, balance their capacity, negotiate dependencies, and make trade-offs based on value delivery. References: PI Planning, Business Owners

NEW QUESTION # 42

Which statement is a value from the Agile Manifesto?

- A. Customer collaboration over contract negotiation
- B. Customer collaboration over ongoing internal conversation
- C. Customer collaboration over a constant indefinite pace
- D. Customer collaboration over feature negotiation

Answer: A

NEW QUESTION # 43

What is the focus of Lean Thinking?

- A. Reducing delays
- B. Ensuring respect for people and culture
- C. Moving to an iterative development process
- D. Implementing objective measures of progress

Answer: A

Explanation:

Explanation

Reducing delays is the focus of Lean thinking. Lean thinking is a philosophy and a set of principles and practices that aim to eliminate waste and optimize value delivery. Waste is anything that does not directly contribute to customer value or that causes delays in delivering value. Delays are the primary cause of waste, as they increase inventory, risk, variability, overhead, and dissatisfaction. Reducing delays means minimizing the time between customer need and value delivery, which improves quality, efficiency, and customer satisfaction. NEW QUESTION # 44

An Enterprise has started adopting SAFe using the Implementation Roadmap. They are in the process of training executives, managers, and leaders. What is their next step?

- A. Extend to the Portfolio to achieve better flow
- B. Reorganize the reporting structure of the organization
- C. Launch the first ART
- **D. Identify Value Streams and Agile Release Trains**

Answer: D

Explanation:

The SAFe Implementation Roadmap provides an ordered sequence of transformation activities. After training leaders, the next step is:

"Identify Value Streams and ARTs - this step is essential to organizing around value, ensuring future trains are aligned with value delivery." Reference:SAFe Workbook, Page 6-12, SAFe Implementation Roadmap

NEW QUESTION # 45

What triggers the need for a Value Stream?

- A. User Story request
- B. Epic request
- **C. Feature request**
- D. Spike request

Answer: C

Explanation:

According to the SAFe Agilist 6.0 domain of Lean Thinking, a value stream is triggered by a demand for some value, such as a new feature, a change request, or a defect fix¹. A feature is a service that fulfills a stakeholder need². Therefore, a feature request is a valid trigger for a value stream.

A spike request is a type of exploration enabler that addresses technical uncertainty or risk³. A user story request is a type of backlog item that represents an end user goal or function⁴. These are not triggers for a value stream, but rather work items that flow through a value stream.

NEW QUESTION # 46

.....

As you know, we are now facing very great competitive pressure. We need to have more strength to get what we want, and SAFe-Agilist exam dumps may give you these things.
