PRINCE2 PRINCE2-Agile-Foundation最新問題、PRINCE2-Agile-Foundationトレーニングサンプル

ShikenPASSは、精巧にまとめられた非常に効率的な最高の有効なPRINCE2-Agile-Foundation試験問題を提供するWebサイトです。PRINCE2-Agile-Foundation学習ガイドで学習すると、時間と労力を節約できます。物事以外のいくつか。PRINCE2-Agile-Foundationトレーニング資料の合格率とヒット率も非常に高く、数千人の候補者が当社のWebサイトを信頼し、PRINCE2-Agile-Foundation試験に合格しています。候補者には非常に多くの保証を提供しており、PRINCE2-Agile-Foundation学習教材を心配なく購入できます。

PRINCE2 Agile Foundation認定試験に合格する個人は、PRINCE2プロジェクト環境でアジャイル手法の原則を適用する能力を示します。この認定は、プロジェクトマネージャーとしての信頼性を高め、継続的な学習と開発へ

の取り組みを示す素晴らしい方法です。

PRINCE2 Agile Foundation 認定 PRINCE2-Agile-Foundation 試験問題 (Q154-Q159):

質問 # 154

Which of the following is used to monitor progress?

- A. Swarming
- B. T-shirt sizing
- C. Delegation matrix
- D. Burn-down chart

正解: D

解説:

The burn-down chart is a visual tool used in agile to monitor progress by tracking the remaining work against time. It provides teams and stakeholders with a clear, real-time view of project status and forecast completion, allowing for early identification of potential delays or bottlenecks.

The delegation matrix (A) defines authority, swarming (B) is a team collaboration technique, and t-shirt sizing (C) is an estimation method, none of which directly monitor progress.

質問 # 155

Which statement about the 'keep teams stable' target is CORRECT?

- A. It is required in order to allow the team to self-organize
- B. It ensures that the level of quality is protected
- C. It will lead to a lower cost of ownership
- D. It results in the early delivery of a minimum viable product

正解: A

質問 # 156

Which workshop is used to assess the project's status and address any challenges?

- A. Progress review workshop
- B. Project retrospective workshop
- C. Team planning workshop
- D. Team retrospective workshop

正解: A

解説:

The Progress Review Workshop is the key forum to assess the current status of the project and address challenges or issues affecting progress. It typically involves reviewing the current stage or release against plan, assessing risks, issues, and dependencies, and agreeing on corrective actions or decisions to keep the project on track.

While retrospectives (B and C) focus on reflecting and improving team practices, and team planning (A) looks ahead to upcoming work, progress reviews are focused on monitoring, control, and decision-making at the project or stage level.

This workshop aligns with PRINCE2's principle of manage by exception, enabling timely interventions without unnecessary escalation.

Reference: PRINCE2 Agile Foundation Version 2, Section 6.6 "Progress Review," and PRINCE2 Agile Study Guide, Chapter 7.

質問 # 157

Which statement about the 'embrace change' target is CORRECT?

- A. It reduces testing in order to meet deadlines
- B. It reduces the planning of dependencies between projects

- C. It minimizes the time needed to train a new team member
- D. It encourages the customer to raise new ideas

正解: D

質問 # 158

Which principle establishes governance by delegating responsibilities and setting tolerances?

- A. Ensure continued business justification
- B. Focus on products
- C. Tailor to suit the project
- D. Manage by exception

正解: D

解説:

The principle that establishes governance by delegating responsibilities and setting tolerances is manage by exception, making option C the correct answer. Agile Foundation guidance, aligned with PRINCE2 and PRINCE2 Agile principles, explains that effective governance does not require constant oversight or micromanagement. Instead, it relies on clearly defined roles, delegated authority, and agreed tolerances within which teams are empowered to operate.

Manage by exception works by setting measurable tolerances for key aspects such as time, cost, scope, quality, risk, and benefits. As long as work remains within these agreed limits, the team or delivery level can proceed independently without escalation. This creates clarity around accountability while allowing teams the autonomy needed to work efficiently and respond to change-an essential aspect of Agile delivery. Escalation only occurs when forecasts indicate that tolerances will be exceeded, ensuring that senior management attention is focused where it adds the most value.

Option A, ensure continued business justification, focuses on confirming that the project remains viable and worthwhile, but it does not define how governance is enacted day to day. Option B, tailor to suit the project, emphasizes adapting methods and controls to the project context rather than establishing governance through delegation. Option D, focus on products, ensures clarity around outputs and acceptance criteria but does not address governance or escalation mechanisms.

Agile Foundation documents highlight that manage by exception supports agility by balancing control with empowerment. Teams gain the freedom to self-manage and deliver iteratively, while leadership retains confidence that risks are controlled and objectives are protected. This principle reduces unnecessary reporting, speeds up decision-making, and supports trust between governance levels. By clearly delegating responsibilities and defining tolerances, manage by exception provides a practical and effective governance model compatible with Agile ways of working.
