High Pass Rate NS0-521 Exam Questions to Pass NS0-521 Exam

What's more, part of that GetValidTest NS0-521 dumps now are free: https://drive.google.com/open?id=1S-z9DRDqXijazOAoqaKL0YWRrDFrURWF

Now they have become certified Implementation Engineer - SAN ONTAP Exam Certification Exam experts and pursue a rewarding career in the top world brands. You can also trust top-notch and easy-to-use Network Appliance NS0-521 practice test questions. The Implementation Engineer - SAN ONTAP Exam (NS0-521) exam questions are checked and verified by experienced and qualified Implementation Engineer - SAN ONTAP Exam (NS0-521) exam trainers. They have years of experience and knowledge to collect, design, and answer the real Implementation Engineer - SAN ONTAP Exam (NS0-521) exam questions.

NS0-521 Learning Materials will be your best teacher who helps you to find the key and difficulty of the exam, so that you no longer feel confused when review. NS0-521 learning materials will be your best learning partner and will accompany you through every day of the review. It will help you to deal with all the difficulties you have encountered in the learning process and make you walk more easily and happily on the road of studying.

Network Appliance NS0-521 Pdf Format Practice Program

Each Network Appliance certification exam candidate know this certification related to the major shift in their lives. Network Appliance Certification NS0-521 Exam training materials GetValidTest provided with ultra-low price and high quality immersive questions and answers dedication to the majority of candidates. Our products have a cost-effective, and provide one year free update. Our certification training materials are all readily available. Our website is a leading supplier of the answers to dump. We have the latest and most accurate certification exam training materials what you need.

Network Appliance Implementation Engineer - SAN ONTAP Exam Sample Questions (Q24-Q29):

NEW QUESTION # 24
Which two steps must be taken first to restore a LUN from a SnapMirror Synchronous destination? (Choose two.)

- A. Delete the relationship.
- B. Release the relationship.
- C. Resync the relationship.
- D. Initialize the relationship.

Answer: A,B

Explanation:
To restore a LUN from a SnapMirror Synchronous destination, the following steps must be taken:
* Release the relationship: This step is necessary to break the SnapMirror relationship, allowing the LUN to be restored

independently.

* Delete the relationship: After releasing the relationship, deleting it ensures that there are no residual dependencies or configurations that might interfere with the restore process.

For more information, refer to:

* NetApp Documentation on SnapMirror Synchronous (NetApp) (NetApp).

NEW QUESTION # 25

What Is a recommended setting for using the NetApp ONTAP LUN fractional reserve?

- A. LUN space reservation is disabled.
- B. Space guarantee is set to volume.
- C. Space allocation is set to enable.
- D. Volume Snapshot copy automatic deletion is disabled.

Answer: B

Explanation:

The recommended setting for using the NetApp ONTAP LUN fractional reserve is to set the space guarantee to "volume". This setting ensures that the required space for overwrites in the volume is reserved, preventing potential write failures when snapshot copies are created. This setup helps in maintaining the performance and reliability of the storage system by ensuring there is always enough space allocated for the LUN.

For further details, you can refer to:

* NetApp Community Discussion on Fractional Reserve

* NetApp Documentation on Space Management

NEW QUESTION # 26

A customer has created an SVM for their SAN workloads. They now want to configure the SVM to use NVMe/FC. Which two steps are needed to accomplish this task? (Choose two.)

- A. Create an NVMe/FC LIF.
- B. Create the NVMe service.
- C. Create the FC service.
- D. Add the FC protocol.

Answer: A,D

Explanation:

To configure an SVM to use NVMe/FC, the following steps are necessary:

* Add the FC protocol: This step involves enabling the Fibre Channel protocol on the SVM, which is required to support NVMe over Fibre Channel.

* Create an NVMe/FC LIF: Logical Interfaces (LIFs) must be created to handle NVMe traffic over the Fibre Channel network. These LIFs enable the NVMe namespace access to the host systems.

These steps ensure that the SVM is correctly set up to use NVMe/FC, allowing for efficient and high-performance access to NVMe storage.

For more information, refer to:

* NetApp NVMe/FC Configuration

NEW QUESTION # 27

A customer Is deploying a new 8-node NetApp ONTAP cluster for their SAN workloads using FCP, NVMe/FC, and NVMe/TCP.

In this scenario, which statement is true?

- A. NVMe/TCP supports a maximum of two LIFs per node.
- B. NVMe/TCP can only run at 32Gbps or faster.
- C. NVMe/FC and FCP require different FC ports.
- D. NVMe/FC and NVMe/TCP must be configured in separate SVMs.

Answer: C

Explanation:
In a NetApp ONTAP cluster using FCP, NVMe/FC, and NVMe/TCP, it is important to understand that NVMe/FC and FCP require different FC ports. This separation is necessary because the protocols, while both running over Fibre Channel, have different configurations and operational characteristics.
For more information, refer to:
* NetApp Documentation on NVMe Configuration
* NetApp Best Practices for SAN

NEW QUESTION # 28
Which NetApp feature presents LUNs only within the HA pair?

- A. Selective LUN Mapping
- B. Subsystem
- C. Consistency group
- D. igroup

Answer: A

Explanation:
Selective LUN Mapping (SLM) is the feature that presents LUNs only within the HA pair. SLM allows administrators to control which LUNs are visible to which hosts, ensuring that LUNs are only accessible through the designated HA pair, thus improving security and manageability.
For more information, see:
* NetApp Documentation on Selective LUN Mapping
* NetApp Community on LUN Mapping

NEW QUESTION # 29
......

Our NS0-521 learning materials are carefully compiled by industry experts based on the examination questions and industry trends in the past few years. The knowledge points are comprehensive and focused. You don't have to worry about our learning from NS0-521 exam question. We assure you that our NS0-521 learning materials are easy to understand and use the fewest questions to convey the most important information. As long as you follow the steps of our NS0-521 quiz torrent, your mastery of knowledge will be very comprehensive and you will be very familiar with the knowledge points. This will help you pass the exam more smoothly. The NS0-521 learning materials are of high quality, mainly reflected in the adoption rate. As for our NS0-521 Exam Question, we guaranteed a higher passing rate than that of other agency. More importantly, we will promptly update our NS0-521 quiz torrent based on the progress of the letter and send it to you. 99% of people who use our NS0-521 quiz torrent has passed the exam and successfully obtained their certificates, which undoubtedly show that the passing rate of our NS0-521 exam question is 99%. So our product is a good choice for you. Choose our NS0-521 learning materials, you will gain a lot and lay a solid foundation for success.
