

Exam HP HPE2-B08 Practice - HPE2-B08 Certificate Exam

As we all know, in the highly competitive world, we have no choice but improve our soft power (such as HPE2-B08 certification). You may be in a condition of changing a job, but having your own career is unbelievably hard. Then how to improve yourself and switch the impossible mission into possible is your priority. Here come our HPE2-B08 Guide torrents giving you a helping hand. It is of great significance to have HPE2-B08 question torrent to pass exams as well as highlight your resume, thus helping you achieve success in your workplace.

Our HPE2-B08 exam training' developers to stand in the perspective of candidate and meet the conditions for each user to tailor their HPE2-B08 learning materials. What's more, our HPE2-B08 guide questions are cheap and cheap, and we buy more and deliver more. The more customers we buy, the bigger the discount will be. In order to make the user a better experience to the superiority of our HPE2-B08 Actual Exam guide, we also provide considerate service, users have any questions related to our HPE2-B08 study materials, can get the help of our staff in a timely manner.

Free PDF Quiz HP - Useful Exam HPE2-B08 Practice

The HP HPE2-B08 exam questions are being offered in three different formats. These formats are HP HPE2-B08 PDF dumps files, desktop practice test software, and web-based practice test software. All these three HP HPE2-B08 Exam Dumps formats contain the real HPE Private Cloud AI Solutions (HPE2-B08) exam questions that assist you in your HPE2-B08 practice exam preparation and finally, you will be confident to pass the final HPE2-B08 exam easily.

HPE Private Cloud AI Solutions Sample Questions (Q27-Q32):

NEW QUESTION # 27

An architect is designing a high-performance computing environment for a customer with two distinct, demanding workloads:

1. A large-scale, multi-node deep learning model that requires the fastest possible server-to-server communication.
2. A data-intensive analytics workload that requires the fastest possible data ingestion from an HPE GreenLake for File Storage array.

Which combination of technologies from the HPE Private Cloud AI solution should the architect select to optimize both workloads?

(Select all that apply.)

- A. NVLink for intra-server GPU communication and RoCE for the server-to-server and server-to-storage fabric.
- B. InfiniBand for the server-to-server fabric and Fibre Channel for the storage fabric.
- C. A flat TCP/IP network for simplicity, relying on the speed of the 200GbE adapters.
- D. Multi-Instance GPU (MIG) to partition GPUs for each workload.
- E. GPUDirect Storage (GDS) to enable a direct data path between storage and GPUs for the analytics workload.

Answer: A,E

NEW QUESTION # 28

A data science team is struggling to manage their AI/ML projects. They use a variety of open-source tools for data preparation, training, and MLOps, but integrating them is complex and time-consuming.

They need a unified platform that provides self-service access to a curated and pre-integrated set of these tools.

Which HPE Private Cloud AI software component is specifically designed to solve this problem?

- A. HPE AI Essentials
- B. NVIDIA NIM
- C. HPE GreenLake for File Storage
- D. HPE Intelligent Configurator

Answer: A

NEW QUESTION # 29

An architect has used the HPE Intelligent Configurator and determined that a "Medium - Standard" configuration is required.

When creating the final quote in One Config Advanced (OCA), what is the mandatory prerequisite that the customer is responsible for providing for the solution to be valid?

- A. A list of all end-users who will access the system.
- B. A rack elevation diagram for the data center.
- C. A subscription to the NVIDIA NGC catalog for downloading AI models.
- D. A valid, bring-your-own-license (BYOL) for VMware vSphere Foundation (VVF) or VMware Cloud Foundation (VCF).

Answer: D

NEW QUESTION # 30

An architect has generated a configuration for HPE Private Cloud AI in OCA. The customer wants to know if they can use their existing data center network switches for the high-performance AI interconnect instead of the NVIDIA Spectrum switches included in the BOM.

What is the correct response?

- A. No, because the HPE Private Cloud AI solution is air-gapped and cannot connect to external switches.
- B. Yes, as long as the existing switches are also from NVIDIA, they are compatible.
- C. No, the NVIDIA Spectrum switches are part of the pre-validated, turnkey solution and are required for performance and support.
- D. Yes, any 200GbE switch can be substituted to lower the cost.

Answer: C

NEW QUESTION # 31

When a developer deploys an AI model using an NVIDIA Inference Microservice (NIM) on HPE Private Cloud AI, the NIM automatically detects the underlying NVIDIA GPU hardware.

The developer sees the following status message upon deployment:

...

NIM Status:

- Model: mistral-7b-instruct-v0.2
- Status: Running
- Engine Profile: Selected 'TensorRT-LLM FP8' for optimal latency on detected Hopper-class GPU.
- ...

What does the selection of the 'TensorRT-LLM FP8' engine profile indicate?

- A. The model is being automatically fine-tuned by the NIM using the TensorRT framework.
- **B. The underlying GPU supports the Hopper architecture, and NIM has optimized the model using a lower precision format for faster performance.**
- C. The NIM container has failed because it requires an FP32 profile to run.
- D. The NIM container is running on a CPU-only node and is emulating a GPU.

Answer: B

NEW QUESTION # 32

.....

Whether you are a newcomer or an old man with more experience, HP HPE2-B08 Study Materials will be your best choice for our professional experts compiled them based on changes in the examination outlines over the years and industry trends. HP HPE2-B08 test torrent not only help you to improve the efficiency of learning, but also help you to shorten the review time of up to several months to one month or even two or three weeks, so that you use the least time and effort to get the maximum improvement.
