It is ideal for users who prefer offline Implementing Cisco Enterprise Network Core Technologies (350-401 ENCOR) (350-401) exam practice. This format is supported by Windows computers and laptops. You can easily install this software in your system to use it anytime to prepare for the examination.

Cisco Implementing Cisco Enterprise Network Core Technologies (350-401 ENCOR) Sample Questions (Q299-Q304):

NEW QUESTION # 299

A network engineer is adding an additional 10Gps link to an exiting 2x10Gps LACP-based LAG to augment its capacity. Network standards require a bundle interface to be taken out of service if one of its member links goes down, and the new link must be added with minimal impact to the production network. Drag and drop the tasks that the engineer must perform from the left into the sequence on the right. Not all options are used.

Answer:

Explanation:

NEW QUESTION # 300

Drag and drop the LISP components on the left to their descriptions on the right. Not all options are used.

Answer:

Explanation:

Explanation:

A picture containing table Description automatically generated

NEW QUESTION # 301

Drag and drop the threat defense solutions from the left onto their descriptions on the right.

Answer:

Explanation:

NEW QUESTION # 302

Refer to the exhibit.

Which HTTP JSON response does the python code output give?

- A. NameError: name 'json' is not defined
- B. KeyError 'kickstart_ver_str'
- C. 7.0(3)I7(4)
- **D. 7.61**

Answer: D

Explanation:

The Python code in the exhibit is likely making a request to a Cisco device's API and attempting to parse the JSON response to extract the 'kickstart_ver_str' value. The correct answer is C, 7.61, which suggests that the JSON response contains a dictionary with a key 'kickstart_ver_str' that has a value of '7.61'. This version number corresponds to the kickstart version string of the Cisco NX-OS software.

NEW QUESTION # 303

Which devices does Cisco Center configure when deploying an IP-based access control policy?

- A. selected individual devices
- **B. All devices integrating with ISE**
- C. all devices in selected sites
- D. all wired devices

Answer: B
