Help You in Microsoft PL-200 Exam Preparation [2026]

PracticeVCE offers the complete package that includes all exam questions conforming to the syllabus for passing the Microsoft Power Platform Functional Consultant (PL-200) exam certificate in the first try. These formats of actual Microsoft PL-200 Questions are specifically designed to make preparation easier for you.

Microsoft Power Platform is a suite of tools that enables users to build custom applications, automate workflows, and analyze data using low-code solutions. The platform includes Power Apps, Power Automate, Power BI, and Power Virtual Agents. By mastering these tools, professionals can create customized solutions that meet the unique needs of their organizations, streamline business processes, and boost productivity.

Microsoft PL-200 Certification Exam is an essential step for professionals who want to validate their expertise in designing, implementing, and maintaining Microsoft Power Platform solutions. Microsoft Power Platform Functional Consultant certification provides a pathway to becoming a Microsoft Certified: Power Platform Functional Consultant Associate and demonstrates the candidate's ability to work with stakeholders to deliver solutions that improve business processes and drive organizational growth.

Microsoft PL-200 Exam is a proctored, online exam that comprises 40-60 multiple-choice questions. The time limit for the exam is two hours, and the minimum passing score is 700. Candidates can take the exam online or at a Pearson VUE testing center. Additionally, candidates can prepare for the exam through instructor-led training courses, Microsoft's online resources, and exam preparation guides. Once the candidate passes the exam, they become a certified Microsoft Power Platform functional consultant, which demonstrates their capability to solve business problems using the tools and functionalities of the platform.

You can also use the PracticeVCE PL-200 exam questions and earn the badge of Microsoft PL-200 certification easily.

Microsoft Power Platform Functional Consultant Sample Questions (Q206-Q211):

NEW QUESTION # 206
You need to design the guest check-in solution.
Which technologies should you use? To answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point.

Answer:

Explanation:

NEW QUESTION # 207
You create a new Power Virtual Agents chatbot for an organization.
Testing and production deployment of the chatbot are not complete.
You need to ensure that appropriate users can access the chatbot.
Which methods should you use? To answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Explanation
Graphical user interface, application Description automatically generated
Box 1: Use the demo website
When publishing the bot to the web, you can publish to a prebuilt demo website (which you can use to share the bot with your teammates and stakeholders) and to your own live website.
Box 2: Share the chatbot to a security group containing all users.
A license for each user, also known as a "per user license" (or "Power Virtual Agent User License" as referred to on the Microsoft 365 admin center), should be assigned to individual users who need access to create and manage chatbots.
To simplify user license management, you can assign licenses to an Azure Active Directory (Azure AD) security group.
Box 3: Embed the chatbot code in an IFRame on your copany's public website You can add your bot to a live website as an IFrame. Your live website can be a customer-facing external website or an internal site, like a SharePoint or Yammer site.

NEW QUESTION # 209
You are a Dynamics 365 for Customer Service administrator.
You must create a form for team members to use. The form must provide the ability to:
* Lock a field on a form.
* Trigger business logic based on a field value.
* Use existing business information to enhance data entry.
You need to implement business rule components to create the form.
Which components should you use? To answer, drag the appropriate components to the correct requirements.
Each component may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.
NOTE: Each correct selection is worth one point.

Answer:

Explanation:

* Action
* Condition
* Recommendation

NEW QUESTION # 210

The app needs to store temporary data

* Each screen must maintain a separate copy of data and pass the data to another screen.
* The app must be able to update separate rows of a table independently.

You need to configure variables for the data.

Which variable types should you use? To answer, drag the appropriate variable types to the correct requirements. Each variable type may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

☐

Answer:

Explanation:
☐
Explanation
Graphical user interface, text, application Description automatically generated with medium confidence
☐

NEW QUESTION # 211

......
