TDA-C01 Exam Tests & Pdf TDA-C01 Exam Dump

The services provided by our TDA-C01 test questions are quite specific and comprehensive. First of all, our test material comes

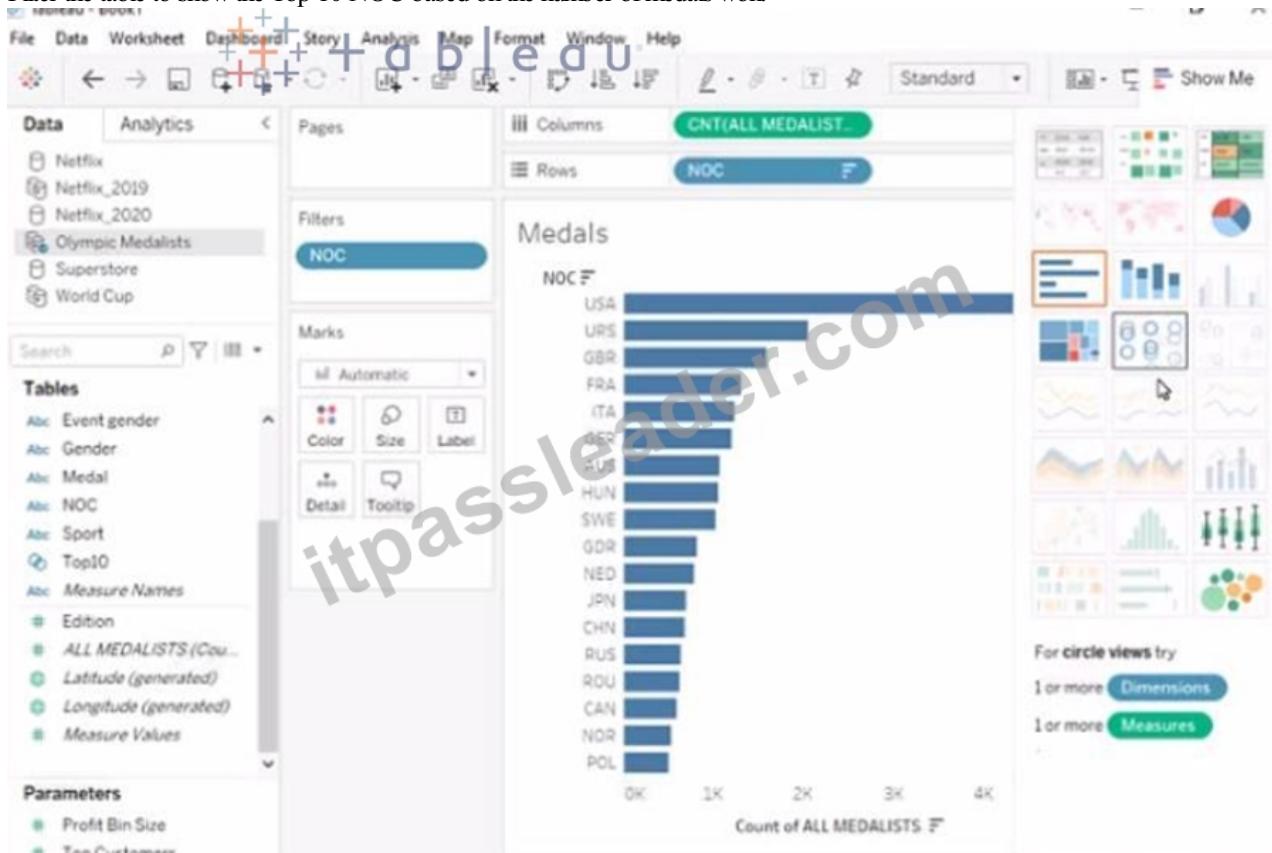

from many experts. The gold content of the materials is very high, and the updating speed is fast. By our TDA-C01 exam prep, you can find the most suitable information according to your own learning needs at any time, and make adjustments and perfect them at any time. Our TDA-C01 Learning Materials not only provide you with information, but also for you to develop the most suitable for your learning schedule, this is tailor-made for you, according to the timetable to study and review. I believe you can improve efficiency.

To become a Tableau Certified Data Analyst, candidates are required to have a good understanding of data analysis concepts and techniques. They should also have hands-on experience using Tableau to analyze data and create visualizations. Tableau Certified Data Analyst certification is ideal for individuals who work with data on a regular basis, such as business analysts, data scientists, and data engineers.

Tableau Certified Data Analyst Sample Questions (Q131-Q136):

NEW QUESTION # 131

Open the link to Book1 found on the desktop. Open Disciplines worksheet. Filter the table to show the Top 10 NOC based on the number of medals won.

Answer:

Explanation:

check the steps below in explanation.

Explanation:

To filter the table to show the Top 10 NOC based on the number of medals won, you need to do the following steps:

Open the link to Book1 found on the desktop. This will open the Tableau workbook that contains the Disciplines worksheet.

Click on the Disciplines tab at the bottom of the workbook to open the worksheet. You will see a table that shows the NOC, discipline, and medals for each country.

Drag Medals from the Measures pane to the Filters shelf. This will open a dialog box that allows you to filter by different criteria.

Select Top from the dialog box. This will show you options to filter by the top or bottom values of a field.

Enter 10 in the text box next to By field. This will filter by the top 10 values of Medals.

Select NOC from the drop-down list next to By field. This will filter by the top 10 values of NOC based on Medals.

Click OK to apply the filter. You will see that the table now shows only 10 rows, one for each NOC with the highest number of medals.

NEW QUESTION # 132

In a worksheet, you have a calculated column named YTD Sales that uses the following formula.

[Order Date] <= TODAY () AND DATETBUNC {"year", [Order Date]} = DATETPUNC "year", TODAY(J) You want to create a calculated column named Exclude Current Month that will be dragged to the Filters shell. Exclude Current Month will exclude the current month values from YTD Sales.

How should you complete the formula for Exclude Current Month? (Drag the appropriate Options to the Answer Area and drop into the correct locations.)

The screenshot shows a Tableau interface with a 'Options' list on the left and an 'Answer Area' on the right. The 'Options' list contains five items: 'Mon', 'Month', 'Quarter', 'Year', and 'yyyy'. The 'Answer Area' contains a formula: `DATEDIFF([Order Date], Today()) > 0` and `AND DATEDIFF([Order Date], Today()) = 0`. A watermark 'itpassleader.com' is overlaid on the image.

Answer:

Explanation:

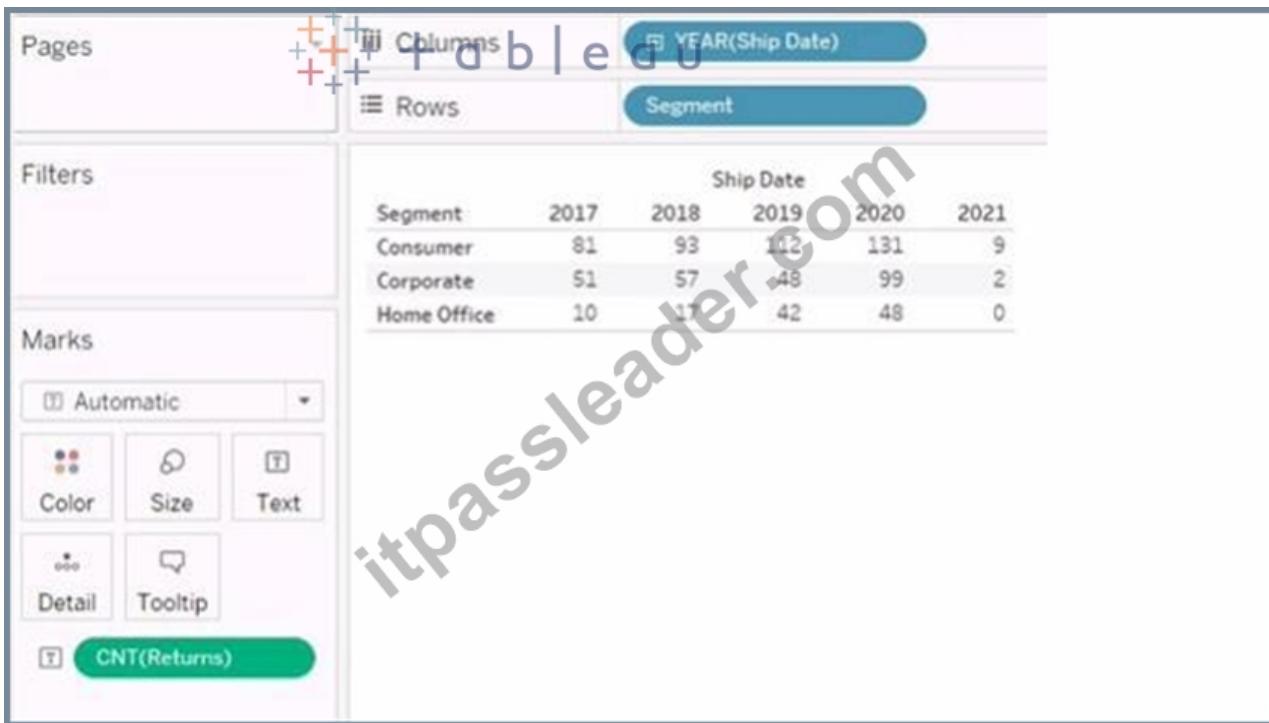

The screenshot shows a Tableau interface with a 'Options' list on the left and an 'Answer Area' on the right. The 'Options' list contains five items: 'Mon', 'Month', 'Quarter', 'Year', and 'yyyy'. The 'Answer Area' contains a formula: `DATEDIFF([Month], Today()) > 0` and `AND DATEDIFF([Month], Today()) = 0`. A watermark 'itpassleader.com' is overlaid on the image.

The 'Answer Area' contains a formula: `DATEDIFF([Month], Today()) > 0` and `AND DATEDIFF([Month], Today()) = 0`. A watermark 'itpassleader.com' is overlaid on the image.

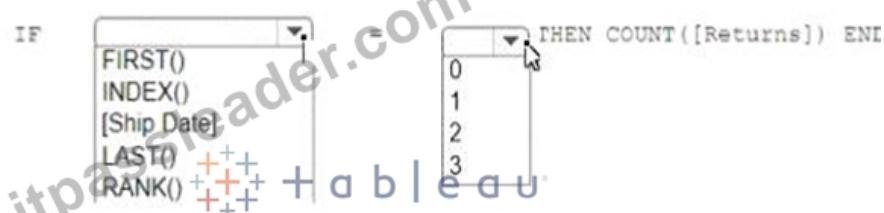

NEW QUESTION # 133

You have the following visualization.

You want the count of Returns displayed only for the first year in the table.

How should you complete the formula in the calculated field? (Use the dropdowns in the Answer Area to select the correct options to complete the formula.)

Answer:

Explanation:

Explanation:

we need to create a calculated field that displays the count of returns only for the first year in the table. To do this, we can use the following formula:

IF FIRST() = 0 THEN COUNT (Returns) END

This formula uses the FIRST() function, which returns the number of rows from the current row to the first row in the partition. If the current row is the first row, then FIRST() returns 0. The IF statement checks if this condition is true, and if so, it returns the count of returns for that row. Otherwise, it returns NULL.

To complete the formula in the calculated field, you should select the following options from the drop-down menus:

FIRST()

0

COUNT (Returns)

NEW QUESTION # 134

You are the owner of an alert.

You receive an email notification that the alert was suspended.

From where can you resume the suspended alert?

- A. The Notification area of Tableau Prep
- B. The Shared with Me page
- C. The Data Source page of Tableau Desktop
- D. The My Content area of Tableau web pages

Answer: D

Explanation:

To resume a suspended alert, you need to go to the My Content area of Tableau web pages, where you can see all the alerts that you own or subscribe to. You can click on the alert name and then select Resume from the menu. You can also edit or delete the alert from there. References:

<https://help.tableau.com/current/pro/desktop/en-us/alerts.htm>

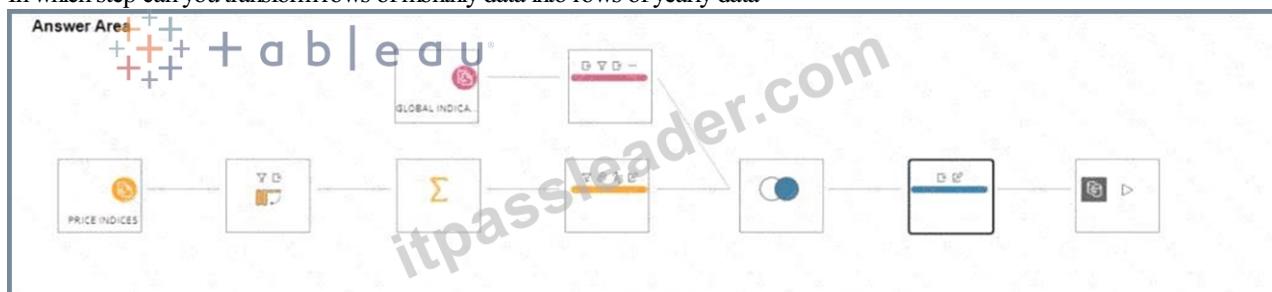

https://help.tableau.com/current/pro/desktop/en-us/alerts_manage.htm

In Tableau, the "My Content" area on the web interface is the place where a user can manage their content, including workbooks, data sources, and alerts. If an alert is suspended, the owner of the alert can go to the "My Content" area to resume it.

NEW QUESTION # 135

You have a Tableau Prep flow that joins a dataset named Global Indicators to a dataset named Price Indices.

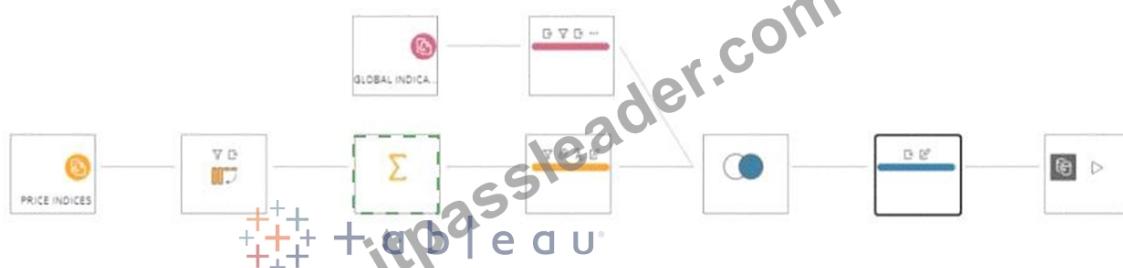

In which step can you transform rows of monthly data into rows of yearly data"

Answer:

Explanation:

Answer Area
