NS0-185 Reliable Dumps & NS0-185 Test Fee

If you buy our NS0-185 study materials you will pass the NS0-185 test smoothly and easily. We boost professional expert team to organize and compile the NS0-185 training materials diligently and provide the great service which include the service before and after the sale, the 24-hours online customer service and refund service. Our NS0-185 real quiz boosts 3 versions and varied functions to make you learn comprehensively and efficiently. The learning of our study materials costs you little time and energy and we update them frequently. questions: NetApp Storage Installation Engineer, ONTAP Professional Exam in detail please look at the introduction of our product as follow.

What we provide for you is the latest and comprehensive NS0-185 exam dumps, the safest purchase guarantee and the immediate update of NS0-185 exam software. Free demo download can make you be rest assured to buy; one-year free update of NS0-185 Exam software after payment can assure you during your preparation for the exam. What's more, what make you be rest assured most is that we develop the exam software which will help more candidates get NS0-185 exam certification.

NS0-185 Test Fee, NS0-185 Test Dumps

Computers have made their appearance providing great speed and accuracy for our work. IT senior engine is very much in demand in all over the world. Now Network Appliance NS0-185 latest dumps files will be helpful for your career. ActualTestsIT produces the best products with high quality and high passing rate. Our valid NS0-185 Latest Dumps Files help a lot of candidates pass exam and obtain certifications, so that we are famous and authoritative in this filed.

Network Appliance NetApp Storage Installation Engineer, ONTAP Professional Exam Sample Questions (Q118-Q123):

NEW QUESTION # 118
You were asked to install a FAS9000 with two quad-port SAS PCI cards installed in slot 9 and slot 1.
In this scenario, which ports are used for the second stack?

- A. 9c/1a
- B. 9a/1a
- C. 9a/1d

- D. 9b/1b

Answer: A

Explanation:
NetApp SAS cabling rules define port sequencing. The second stack uses9c and 1a, makingBcorrect.

NEW QUESTION # 119
A customer wants to enable SnapMirror Synchronous across their environment. The customer must ensure that SnapMirror Synchronous will work across the environment.
In this scenario, which two statements are true? (Choose two.)

- A. A SnapMirror Synchronous license is required on both the source and destination clusters.
- B. A SnapMirror license is not required on both the source cluster and the destination cluster.
- C. A SnapMirror license is required on both the source cluster and the destination cluster.
- D. A SnapMirror Synchronous license is required on the source cluster.

Answer: C,D

Explanation:
SnapMirror Synchronous requires the baseSnapMirror licenseon both source and destination clusters to enable replication functionality. In addition, theSnapMirror Synchronous licenseis required on thesource cluster, which initiates and controls synchronous replication operations.

NEW QUESTION # 120
You are installing a new AFF All SAN Array A700 HA pair.
Referring to the exhibit, which IP address would have been used to join node 02 to the cluster during setup?

- A. 169.254.145.151
- B. 192.168.0.112
- C. 192.168.0.101
- D. 169.254.212.198

Answer: D

Explanation:
During cluster setup, nodes usecluster interconnect LIFs, which are automatically assignedlink-local IP addresses in the 169.254.x.x range. Management IP addresses (192.168.x.x) are not used for node join operations.
The address169.254.212.198corresponds to node02's cluster LIF and would therefore be used to join the cluster.

NEW QUESTION # 121
You want to add an AFF A400 HA pair to an existing cluster.
In this scenario, which LIF type is required?

- A. intercluster
- B. node-mgmt
- C. data
- D. cluster-mgmt

Answer: A

Explanation:
When expanding an ONTAP cluster by adding new nodes or HA pairs,intercluster LIFsare required to enable secure communication between clusters or nodes during join and expansion workflows. Intercluster LIFs provide IP-based connectivity used for cluster peering, node addition, and replication setup.
Cluster management LIFs are used for administrative access, node management LIFs provide per-node management access, and data LIFs are used for client I/O. None of these LIF types support the inter-node communication required during cluster expansion. Therefore, anintercluster LIFis required.

NEW QUESTION # 122
An administrator issued the cluster setup command and configured a 2-node ONTAP 9.8 cluster.
In this scenario, which tool would the administrator use to validate the configuration?

- A. Active IQ Config Advisor
- B. NetAppDocs
- C. Active IQ Upgrade Advisor
- D. Interoperability Matrix Tool

Answer: A

Explanation:
After cluster setup, NetApp best practices require validating hardware, cabling, HA configuration, and system settings.Active IQ Config Advisoris the primary tool used for post-installation validation. It checks cabling correctness, HA pathing, disk ownership, network configuration, firmware versions, and other critical installation parameters.
The other tools listed are used for planning, documentation, or upgrades, not configuration validation.

NEW QUESTION # 123
.....

We can assure to all people that our study materials will have a higher quality and it can help all people to remain an optimistic mind when they are preparing for the NS0-185 exam, and then these people will not give up review for the exam. On the contrary, people who want to pass the exam will persist in studying all the time. We deeply believe that the NS0-185 Study Materials from our company will is most suitable and helpful for all people.

NS0-185 Test Fee: https://www.actualtestsit.com/NetworkAppliance/NS0-185-exam-prep-dumps.html

Since we apply the international recognition third party for NS0-185 exam materials payment, and they are very safe, Network Appliance NS0-185 Reliable Dumps As you know, many exam and tests depend on the skills rather than knowledge solely, Network Appliance NS0-185 Reliable Dumps So its status can not be ignored, But it is not easy for every one to achieve their NS0-185 certification since the NS0-185 exam is quite difficult and takes time to prepare for it.

Properly maintain and troubleshoot your Fire phone, This means that NS0-185 it is not always necessary to have a Java programmer or team of programmers to make functional additions or changes to an application.

Hot Network Appliance NS0-185 Reliable Dumps & Trustable ActualTestsIT - Leading Offer in Qualification Exams

Since we apply the international recognition third party for NS0-185 Exam Materials payment, and they are very safe, As you know, many exam and tests depend on the skills rather than knowledge solely.

So its status can not be ignored, But it is not easy for every one to achieve their NS0-185 certification since the NS0-185 exam is quite difficult and takes time to prepare for it.

To add all these changes in the NS0-185 exam questions we have hired a team of exam experts.
