MCE-Admn-201 Passed & MCE-Admn-201 Reliable Exam Materials

The Salesforce Certified Marketing Cloud Engagement Administrator (MCE-Admn-201) study material of NewPassLeader is available in three different and easy-to-access formats. The first one is printable and portable Salesforce Certified Marketing Cloud Engagement Administrator (MCE-Admn-201) PDF format. With the PDF version, you can access the collection of actual Salesforce Certified Marketing Cloud Engagement Administrator (MCE-Admn-201) questions with your smart devices like smartphones, tablets, and laptops.

Salesforce Certified Marketing Cloud Engagement Administrator Sample

Questions (Q47-Q52):

NEW QUESTION # 47

A Marketing Cloud admin is asked to add a set of four tracking parameters automatically to all the links in an email sent via email studio.

Which solution should the admin suggest?

- A. AMP script for Marketing Cloud
- B. Marketing Cloud Connect
- **C. Web Analytics Connector**
- D. Google Analytics 360

Answer: C

Explanation:

To automatically add tracking parameters to all links in emails sent from Email Studio, the admin should configure:

Web Analytics Connector: This feature automatically appends tracking parameters to URLs in emails to integrate with web analytics tools like Google Analytics.

Configuration Steps: Set up the Web Analytics Connector by specifying the desired tracking parameters in the Email Studio settings. This ensures all outgoing emails automatically include these parameters without the need for manual coding.

NEW QUESTION # 48

A Marketing Cloud admin runs the Contacts Counts report and sees there are currently 500,000 contacts in their account. They have a total of 300,000 email subscribers, 200,000 synchronized contacts, and 75,000 mobile subscribers.

Why would the total contact count be less than the total number of contacts from all data sources?

- **A. There are overlapping contacts in each of the channel**
- B. Mobile subscribers are not counted as contacts.
- C. Only active email subscriber is counted.
- D. Synchronized contacts are only counted after sending

Answer: A

Explanation:

The reason why the total contact count of 500,000 is less than the summed total of email subscribers, synchronized contacts, and mobile subscribers is D. There are overlapping contacts in each of the channels.

This overlap occurs when the same contact is counted across different channels (e.g., a contact might be both an email subscriber and a mobile subscriber), thus leading to a lower total contact count when duplicates are not counted more than once.

NEW QUESTION # 49

A Marketing Cloud admin is tasked with requesting Marketing Cloud Connect Multi-Org enablement.

What consideration should be given to the preference profile centers for this integration?

- A. Profile/Preference centers for Multi-Org accounts are configured in the Salesforce CRM settings.
- **B. Multi org does not support the standard profile preference center for the business units.**
- C. Branding for each business units' profile centers will be inherited from the default business unit setup.
- D. Profile/Preference centers are automatically created for each business unit connected through Multi-org

Answer: B

Explanation:

When enabling Multi-Org in Marketing Cloud Connect, it's important to consider:

The Multi-Org configuration does not support using a standard profile and preference center across connected business units. Each business unit operates independently.

Admins must consider alternative strategies for managing subscriber preferences across multiple Salesforce orgs linked to different business units in Marketing Cloud.

NEW QUESTION # 50

A Marketing Cloud admin is tasked with overhauling the data model for Enterprise. While the current data model is isolated to the email channel and there are plans to expand to both SMS and Push channels in the near future.

Which three data preparations should be made to retain high data quality in the new mode? Choose 3 answers.

- A. Ensure all available data is included.
- B. Remove nonessential data for marketing purposes.
- C. Ensure every data source has a sendable field.
- D. Identify and assign appropriate keys to tie records together.
- E. Normalize data and fields to prevent redundancy.

Answer: B,D,E

Explanation:

As the Marketing Cloud admin plans to expand the data model to include SMS and Push channels, it's important to prepare the data model for high data quality:

A). Remove nonessential data for marketing purposes: This helps streamline data management and ensures the data model is not cluttered with irrelevant information, making it easier to manage and use.

B). Identify and assign appropriate keys to tie records together: Proper key management ensures that different data sources can be linked effectively, facilitating a unified view across different marketing channels.

C). Normalize data and fields to prevent redundancy: Normalization reduces data redundancy and inconsistency, which is essential for maintaining data integrity and efficiency in a multi-channel environment.

NEW QUESTION # 51

Which two statements are correct about Send Logging?

Choose 2 answers

- A. A business unit can support up to three Send Logs.
- B. Send Log data extensions are archived automatically based on retention settings.
- C. SQL Query Activities can reference Send Logs in combination with system data views.
- D. AMP script can be used to pull data from Send Logs for use within emails.

Answer: C,D

Explanation:

Regarding Send Logging in Marketing Cloud:

B). AMPscript can be used to pull data from Send Logs for use within emails: AMPscript can retrieve and display data stored in Send Logs during email sends, allowing for dynamic content based on previous interactions.

C). SQL Query Activities can reference Send Logs in combination with system data views: SQL Query Activities enable more complex data retrieval and analysis, including combining Send Log data with other system data views for comprehensive reporting and segmentation.

These points underscore the functionality and utility of Send Logs in enabling dynamic content and deeper data analysis within Marketing Cloud.
