The key trait of our product is that we keep pace with the changes of syllabus and the latest circumstance to revise and update our Fundamentals-of-Crew-Leadership Study Materials, and we are available for one-year free updating to assure you of the reliability of our service.

## Eminent Fundamentals-of-Crew-Leadership Training Questions Carry You Subservient Exam Dumps - ValidVCE

Many people choose to sign up for the NCCER Fundamentals-of-Crew-Leadership certification examinations in order to advance their knowledge and abilities. We offer updated and actual NCCER Fundamentals-of-Crew-Leadership Dumps questions that will be enough to get ready for the NCCER Fundamentals-of-Crew-Leadership test. Our NCCER Fundamentals-of-Crew-Leadership questions are 100% genuine and will certainly appear in the next NCCER Fundamentals-of-Crew-Leadership test.

### NCCER Module 46101 Fundamentals of Crew Leadership Sample Questions (Q12-Q17):

#### NEW QUESTION # 12

Productivity is defined as the

- A. amount of material an individual worker places to complete a job.
- B. amount of material scheduled to be used in a given time.
- C. total amount of material a crew places for a given job.
- D. total amount of material an individual or crew places in a given time.

**Answer: D**

Explanation:

Productivity is most accurately defined as the total amount of material an individual or crew places in a given time (D). It measures the efficiency of work by relating output (e.g., quantity of material installed) to input (e.

g., labor hours). Option A describes the total output for a job, not the rate. Option B refers to planned material usage. Option C focuses on an individual's total output for a job, not necessarily within a specific timeframe.

(Fundamentals of Crew Leadership, Fourth Edition, NCCER, Section 5.1.1 Defining Productivity)

#### NEW QUESTION # 13

What is a potentially important use of the daily diary that is NOT related to the crew leader's efficient management of work?

- A. a source of information during litigation with the client
- B. recording an OSHA inspection visit
- C. documenting work completed
- D. scheduling a new-worker orientation session

**Answer: A**

Explanation:

While the daily diary is crucial for documenting work progress (A), recording important events like OSHA inspections (B), and potentially noting training activities, a potentially important use not directly related to efficient daily management is that it can serve as a source of information during litigation with the client (D) by providing a detailed record of site conditions, work performed, and any relevant incidents. Scheduling a new-worker orientation (C) is more of a planning task than a daily record. (Fundamentals of Crew Leadership, Fourth Edition, NCCER, Section 2.2.3 Maintaining a Daily Log)

#### NEW QUESTION # 14

Prohibitions on the abuse of drugs apply

- A. to any inappropriate use of drugs or other substances that cause impairment.
- B. only to illegal and prescription drugs, but no other substances.
- C. only to illegal drugs, such as cocaine, crystal meth, and many others like them.
- D. only to using someone else's prescription or overmedicating with prescription drugs.

**Answer: A**

Explanation:

Workplace drug and alcohol policies typically prohibit any inappropriate use of drugs or other substances that cause impairment (B), which can include illegal drugs, prescription drugs taken other than as prescribed, over-the-counter medications, alcohol, and even inhalants if they lead to impairment on the job. The prohibition is not limited to illegal and prescription drugs alone (A), only illegal drugs (C), or only misuse of prescription drugs (D), as impairment from any substance can create safety hazards. (Fundamentals of Crew Leadership, Fourth Edition, NCCER, Section 3.4.1 Understanding Substance Abuse in the Workplace)

#### NEW QUESTION # 15

Which style of leadership is more likely to be effective in dealing with a craft professional's negative attitude?

- A. directing
- B. dictator
- C. controlling
- D. buddy

**Answer: A**

Explanation:

When dealing with a negative attitude, a directing (C) leadership style, which involves clear expectations, specific instructions, and close supervision, can be effective in redirecting the individual's focus and behavior towards productive tasks. A "buddy" approach (A) might not address the negativity effectively. A "dictator" style (B) can create resentment. While "controlling" (D) might seem similar to directing, it often implies a lack of trust and can be demotivating in the long run. The directing style aims to guide and set clear boundaries. (Fundamentals of Crew Leadership, Fourth Edition, NCCER, Section 1.3.3 Understanding Leadership Styles)

#### NEW QUESTION # 16

A crew of electricians is needed to run 1,000 feet of conduit, and the estimator determined that two electricians could complete the job in an eight-hour day. What is the required productivity rate per person for the conduit install?

- A. 150 feet per hour
- B. 31.25 feet per hour
- C. 130 feet per hour
- D. 62.5 feet per hour

**Answer: D**

Explanation:

Productivity rate is calculated by dividing the total output by the total input (in this case, labor hours).

Total labor hours = 2 electricians \* 8 hours/day = 16 labor hours

Productivity rate = Total conduit / Total labor hours = 1000 feet / 16 hours = 62.5 feet per hour per person.

(Fundamentals of Crew Leadership, Fourth Edition, NCCER, Section 4.4.1 Understanding Productivity Rates)

#### NEW QUESTION # 17

.....

Our company is committed to the success of our customers. All company tenets are customer-oriented. Our Fundamentals-of-Crew-Leadership practice questions are created with the utmost profession for we are trained for this kind of Fundamentals-of-Crew-Leadership study prep with the experience and knowledge of professionals from leading organizations around the world.
