We provide the update freely of DEP-2025 exam questions within one year and 50% discount benefits if buyers want to extend service warranty after one year. The old client enjoys some certain discount when buying other exam materials. We update the DEP-2025 guide torrent frequently and provide you the latest study materials which reflect the latest trend in the theory and the practice. So you can master the Apple Deployment and Management Exam test guide well and pass the exam successfully. While you enjoy the benefits we bring you can pass the exam. Don't be hesitated and buy our DEP-2025 Guide Torrent immediately!

## Apple DEP-2025 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>Planning Device Ownership and Enrollment: This section of the exam measures the skills of an IT Administrator and covers enrollment planning strategies based on ownership models. It focuses on data separation and appropriate deployment paths based on user and organizational requirements.</li></ul>

Topic 2	<ul style="list-style-type: none"> <li>Network Integration: This section of the exam measures the skills of an IT Administrator and covers assessing network responsiveness and device connectivity. It also covers wireless auto-join behavior on Apple devices and ensures strong network coverage.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>Apple Configurator: This section of the exam measures the skills of an IT Administrator and covers the usage of Apple Configurator in enrollment, supervision, and deployment of Apple devices. It includes an overview of its features and setup processes.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>Software Updates: This section of the exam measures the skills of an MDM Specialist and covers update management strategies using MDM. It includes handling deadlines, updating behavior, and ensuring that updates are properly delivered and installed.</li> </ul>
Topic 5	<ul style="list-style-type: none"> <li>Device Enrollment: This section of the exam measures the skills of an MDM Specialist and covers the three main enrollment methods for Apple devices, their core concepts, and their properties. It prepares candidates to make appropriate choices based on organizational needs.</li> </ul>
Topic 6	<ul style="list-style-type: none"> <li>Device Security: This section of the exam measures the skills of an MDM Specialist and covers encryption on Apple platforms, FileVault operations, and the importance of key management. It focuses on protecting sensitive data on managed devices.</li> </ul>
Topic 7	<ul style="list-style-type: none"> <li>Manage Content and Data Flow: This section of the exam measures the skills of an IT Administrator and covers app distribution methods including managed, custom, and proprietary apps. It focuses on content purchasing and delivery through Apple Business or School Manager.</li> </ul>
Topic 8	<ul style="list-style-type: none"> <li>Device Configuration: This section of the exam measures the skills of an IT Administrator and covers declarative configuration properties and how they relate to the device enrollment type. It ensures that configurations align with organizational needs.</li> </ul>
Topic 9	<ul style="list-style-type: none"> <li>Device Setup: This section of the exam measures the skills of an MDM Specialist and covers strategies and use cases for managing Setup Assistant via MDM. It also covers the configuration of enrollment-related settings and pane options.</li> </ul>

## **DEP-2025 Practice Guide Materials: Apple Deployment and Management Exam and DEP-2025 Study Torrent - PrepAwayETE**

If you prefer to practice your DEP-2025 training materials on paper, then our DEP-2025 exam dumps will be your best choice. DEP-2025 PDF version is printable, and you can print them into hard one, and you can take them with you, and you can also study them anywhere and any place. Besides, DEP-2025 test materials are compiled by professional expert, therefore the quality can be guaranteed. You can obtain the download link and password for DEP-2025 exam materials within ten minutes, and if you don't receive, you can contact us, and we will solve this problem for you.

### **Apple Deployment and Management Exam Sample Questions (Q83-Q88):**

#### **NEW QUESTION # 83**

What's required to deploy macOS configuration profiles to devices?

- A. User acceptance
- B. An Apple Developer account
- C. A VPN configuration
- D. An MDM solution

**Answer: D**

Explanation:

Deploying macOS configuration profiles to devices requires an MDM solution, which pushes the profiles remotely via APNs to

enrolled devices, ensuring centralized management. An Apple Developer account (option A) is for app development, not profile deployment. User acceptance (option C) is needed for manual installation but not for MDM deployment, especially on supervised devices. A VPN configuration (option D) is unrelated. The Apple Platform Deployment Guide specifies MDM as the standard method for deploying profiles to macOS devices.

#### NEW QUESTION # 84

You manage the content caching server for your organization. You want the content caching server to cache only software and app updates. Which option should you choose from the Cache menu?

- A. Only iCloud Content
- B. All Content
- C. All Updates
- D. Only Shared Content

#### Answer: D

Explanation:

"Only Shared Content" caches updates. The macOS Deployment Reference states, "Selecting 'Only Shared Content' in the Cache menu ensures the content caching server caches software and app updates, excluding iCloud data." Option D isn't a real setting.

References:

macOS Deployment Reference, "Content Caching" section.

Apple Platform Deployment Guide, "Caching Settings" section.

#### NEW QUESTION # 85

Which macOS tool allows IT administrators to create configuration profiles?

- A. Terminal
- B. System Preferences
- C. Profile Manager
- D. Apple Configurator

#### Answer: C

Explanation:

Profile Manager, part of macOS Server (now integrated into macOS as a standalone service), is a tool that allows IT administrators to create, edit, and distribute configuration profiles for macOS, iOS, and iPadOS devices. These profiles define settings and restrictions that can be deployed via MDM or manually. Apple Configurator (option A) is primarily for iOS/iPadOS/tvOS device supervision and configuration, not profile creation for macOS. System Preferences (option C) is a user-facing settings app, not a profile creation tool. Terminal (option D) can be used for scripting but isn't designed for profile creation. The Apple Platform Deployment Guide identifies Profile Manager as the macOS tool for this purpose.

#### NEW QUESTION # 86

What links a device to an MDM solution?

- A. APNs
- B. A firewall
- C. A restriction
- D. An enrollment profile

#### Answer: D

Explanation:

Mobile Device Management (MDM) solutions are used to manage and secure Apple devices remotely. To link a device to an MDM solution, an enrollment profile is required. This profile is a configuration file that, once installed on the device, establishes a connection between the device and the MDM server, allowing the server to send commands and policies to the device. The enrollment profile contains information such as the MDM server's URL and authentication details, enabling secure communication via Apple Push Notification service (APNs). While APNs (option A) facilitates communication between the MDM server and the device after enrollment, it is not the mechanism that links the device to the MDM solution. A firewall (option B) is a network security

tool and unrelated to linking a device to MDM, and a restriction (option C) is a policy applied via MDM, not the linking mechanism itself. According to Apple's official documentation, such as the Apple Platform Deployment Guide, the enrollment profile is the foundational step for MDM enrollment.

Reference:Apple Platform Deployment Guide(Chapter: Mobile Device Management).

## NEW QUESTION # 87

When does an MDM server token expire?

- A. When new Terms and Conditions are accepted
- B. Every 12 months
- C. When the Managed Apple Account password is changed
- D. Every 6 months

**Answer: B**

### Explanation:

Server tokens expire annually. The Apple Business Manager User Guide states, "The MDM server token expires every 12 months and must be renewed to maintain enrollment functionality." References:

Apple Business Manager User Guide, "MDM Server Token" section.

Mobile Device Management Protocol Reference, "Token Renewal" section.

## NEW QUESTION # 88

• • • • •

Most of the candidates who plan to take the DEP-2025 certification exam lack updated practice questions to ace it on the first attempt. Due to this, they fail the Apple Deployment and Management Exam (DEP-2025) test, losing money and time. And in some cases, applicants fail on the second attempt as well because they don't prepare with DEP-2025 Actual Exam questions. This results in not only the loss of resources but also the motivation of the candidate.
