We are aware that the IT industry is a new industry. It is one of the chain to drive economic development. So its status can not be ignored. IT certification is one of the means of competition in the IT industry. Passed the certification exam you will get to a good rise. But pass the exam is not easy. It is recommended that using training tool to prepare for the exam. If you want to choose this certification training resources, ExamsLabs's Pure Storage FlashArray-Implementation-Specialist Exam Training materials will be the best choice. The success rate is 100%, and can ensure you pass the exam.

To get prepared for the Pure Storage Certified FlashArray Implementation Specialist (FlashArray-Implementation-Specialist) certification exam, applicants face a lot of trouble if the study material is not updated. They are using outdated materials resulting in failure and loss of money and time. So to solve all these problems, ExamsLabs offers actual FlashArray-Implementation-Specialist Questions to help candidates overcome all the obstacles and difficulties they face during FlashArray-Implementation-Specialist examination preparation.

Valid FlashArray-Implementation-Specialist Exam Topics, FlashArray-Implementation-Specialist PDF Dumps Files

As everybody knows, competitions appear ubiquitously in current society. In order to live a better live, people improve themselves by furthering their study, as well as increase their professional FlashArray-Implementation-Specialist skills. With so many methods can boost individual competitiveness, people may be confused, which can really bring them a glamorous work or brighter future? We are here to tell you that a FlashArray-Implementation-Specialist Certification definitively has everything to gain and nothing to lose for everyone. And our FlashArray-Implementation-Specialist exam questions are the best choice to help you pass the FlashArray-Implementation-Specialist exam and get the certification.

Pure Storage FlashArray-Implementation-Specialist Exam Syllabus Topics:

Topic	Details
Topic 1	- Post-Installation - Upgrade: This section of the exam measures the skills of FlashArray Implementation Specialists and evaluates how professionals confirm system functionality after installation or an upgrade. It involves validating connectivity, running health checks, confirming configurations, and ensuring that the deployment meets operational expectations.
Topic 2	Upgrades: This section of the exam measures the skills of FlashArray Implementation Specialists and focuses on tasks involved in managing firmware and software upgrades. Candidates must demonstrate knowledge of upgrade planning, verification steps, and rollback procedures, ensuring that systems are updated with minimal disruption to service.
Topic 3	- Pre-Installation - Upgrade: This section of the exam measures the skills of Enterprise Infrastructure Technicians and covers all preparation activities before deploying or upgrading a Pure Storage FlashArray. It includes understanding environmental requirements, verifying prerequisites, checking compatibility, and validating system readiness through appropriate tools and documentation.
Topic 4	Installation: This section of the exam measures the skills of Enterprise Infrastructure Technicians and focuses on executing a successful installation of FlashArray systems. It tests the ability to perform physical setup, cabling, configuration of network settings, and the application of initial system configurations necessary for full deployment.

Pure Storage Certified FlashArray Implementation Specialist Sample Questions (Q41-Q46):

NEW QUESTION # 41
An Implementation Engineer is scheduled to install a FlashArray and a DirectFlash Shelf (DFS).
What action should the Implementation Engineer perform?

- A. Install the Array and DFS with the Purity that shipped and have Support upgrade remotely.
- B. Only upgrade the Purity on the FlashArray and then attach the DFS.
- C. Refer to the "Recommended DFS Versions for Purity Releases" KB and upgrade Purity on the FlashArray and DFS.

Answer: C

Explanation:
To ensure compatibility and optimal performance, the Implementation Engineer should consult the recommended DFS versions for the installed Purity release and upgrade both the FlashArray and DirectFlash Shelf accordingly.

NEW QUESTION # 42
A client needs to upgrade Purity on their FlashArray, but is unable to wait for an available upgrade date from support.
What action should the customer take?

- A. Go through the Self-Service upgrade portal on Pure1 Manage and upgrade to the latest Purity version.
- B. Open a ticket with support, download the latest Purity version, copy to a USB flash drive, and run the pureinstall command on each controller.
- C. Log into the Purity CLI, download the latest Purity version, and run the pureinstall command on each controller.

Answer: A

Explanation:
Customers can independently upgrade Purity using the Self-Service upgrade portal on Pure1 Manage, enabling them to proceed without waiting for support scheduling.

NEW QUESTION # 43

A FlashArray arrives with Purity 5.3.8 applied out of the factory. The account team requests that the array configured with Purity 6.1.21. Which steps should the Implementation Engineer select to meet this requirement?

- A. Configure the array with the current code and then open a case with Support to upgrade.
- B. Create a bootable USB stick from the 6.1.21 ISO file and reimage both controllers with it.
- C. Copy the PPKG and SHA1 files to a USB stick and upgrade the controllers.

Answer: B

Explanation:
To upgrade from Purity 5.3.8 to 6.1.21 on a new array, the Implementation Engineer should create a bootable USB installer from the target ISO and reimage both controllers to ensure a clean and supported upgrade.

NEW QUESTION # 44

A customer has ordered several FlashArrays and wants to have ActiveCluster configured. What is the maximum quantity of arrays supported with ActiveCluster?

- A. 0
- B. 1
- C. 2

Answer: C

Explanation:
FlashArray ActiveCluster is designed for synchronous replication between two FlashArray systems, enabling active-active configurations across two sites. This setup allows both arrays to serve I/O simultaneously, providing high availability and zero RPO (Recovery Point Objective). Each array in the ActiveCluster configuration maintains identical volume identities, ensuring seamless access for hosts regardless of the array they connect to. The configuration supports metro-area clustering, with a maximum round-trip latency of 11 milliseconds between arrays. Additionally, the Pure1 Cloud Mediator or an on-premises mediator is utilized to manage failover and prevent split-brain scenarios, eliminating the need for a third site or external gateway.
While ActiveCluster supports a two-site configuration, it does not support additional arrays within the same synchronous setup. For scenarios requiring protection across more than two sites, asynchronous replication solutions like ActiveDR™ can be employed. ActiveDR allows for asynchronous replication to a third site, providing broader disaster recovery capabilities.
Therefore, the maximum number of arrays supported in a single ActiveCluster configuration is two.

NEW QUESTION # 45

If a Technical Support Engineer (TSE) is not available to perform health checks after an installation, what action should the Implementation Engineer take?

- A. Email the account team
- B. Verify that Remote Assist (RA) is open and update the case.
- C. Update and close the case.

Answer: B

Explanation:
Ensuring Remote Assist is enabled allows Support to perform remote health checks, and updating the case keeps all parties informed for follow-up.

NEW QUESTION # 46

......

The Pure Storage Certified FlashArray Implementation Specialist FlashArray-Implementation-Specialist exam is a valuable credential that will assist you to advance your career. To pass the FlashArray-Implementation-Specialist exam is not an easy job. It always gives tough times to their candidates. The best FlashArray-Implementation-Specialist Exam Preparation strategy along with

the ExamsLabs FlashArray-Implementation-Specialist exam practice test questions can help you to crack the Pure Storage FlashArray-Implementation-Specialist exam easily.
