In order to meet the needs of all customers, Our Plat-Admn-202 study torrent has a long-distance aid function. If you feel confused about our Plat-Admn-202 test torrent when you use our products, do not hesitate and send a remote assistance invitation to us for help, we are willing to provide remote assistance for you in the shortest time. We have professional IT staff, so your all problems about Salesforce Certified Platform App Builder guide torrent will be solved by our professional IT staff. We can make sure that you will enjoy our considerate service if you buy our Plat-Admn-202 study torrent. There are many IT staffs online every day; you can send your problem, we are glad to help you solve your problem. If you have any question about our Plat-Admn-202 test torrent, do not hesitate and remember to contact us.

Salesforce Plat-Admn-202 Exam Syllabus Topics:

| Topic | Details |
|---------|--|
| Topic 1 | <ul style="list-style-type: none"> App Deployment: This section of the exam measures the skills of Release Managers and Salesforce Administrators and covers the application lifecycle from planning through deployment. It requires determining the appropriate strategy when working with different sandboxes and managing milestones during development. Candidates must know when to use change sets and how to troubleshoot deployment issues. The section also includes understanding the implications of using unmanaged versus managed packages and selecting the correct deployment plan for various business scenarios. |
| Topic 2 | <ul style="list-style-type: none"> Salesforce Fundamentals: This section of the exam measures the skills of Salesforce Administrators and Junior Salesforce Consultants and covers the essential concepts needed to understand how Salesforce works at a foundational level. It focuses on recognizing when to use declarative tools versus programmatic customization, determining when AppExchange apps extend org capabilities, and understanding key methods for managing object, record, and field access. It also evaluates your ability to choose the right sharing model based on business needs and to apply reporting tools effectively, including report types and dashboards. Additionally, the domain reviews how to optimize the mobile experience through actions and layouts, and how Chatter can be used to support collaboration. |

| | |
|---------|---|
| Topic 3 | <ul style="list-style-type: none"> • Business Logic and Process Automation: This section of the exam measures the skills of Process Automation Specialists and Salesforce Administrators and covers the key tools Salesforce provides to automate and enforce business logic. It focuses on using formula fields, roll-up summary fields, and validation rules to meet defined requirements. Candidates must also understand approval processes and know how to select the right automation tool to prevent conflicts or errors. The domain emphasizes evaluating business requirements and recommending automation solutions that maintain system stability and accuracy. |
| Topic 4 | <ul style="list-style-type: none"> • Data Modeling and Management: This section of the exam measures the skills of Data Analysts and Salesforce Administrators and covers the core principles of designing and maintaining Salesforce data structures. It requires selecting the correct data model in various scenarios and understanding relationship types and how they influence reporting, record access, and the user interface. It also tests knowledge of field data types and the operational impact of changing them. The section includes evaluating the use of Schema Builder and understanding the considerations involved in importing and exporting data across internal and external sources. |
| Topic 5 | <ul style="list-style-type: none"> • User Interface: This section of the exam measures the skills of Salesforce UI Designers and Lightning App Builders and covers the ways in which Salesforce interfaces can be customized to improve usability. It includes understanding available options for UI customization and demonstrating when to apply custom buttons, links, and actions. The domain also distinguishes between declarative and programmatic methods for incorporating Lightning components in applications, ensuring that the right approach is selected for different user interface needs. |

Prominent Features of {Salesforce} Salesforce Plat-Admn-202 Exam Questions

In order to solve customers' problem in the shortest time, our Salesforce Certified Platform App Builder guide torrent provides the twenty four hours online service for all people. Maybe you have some questions about our Plat-Admn-202 test torrent when you use our products; it is your right to ask us in anytime and anywhere. You just need to send us an email, our online workers are willing to reply you an email to solve your problem in the shortest time. During the process of using our Plat-Admn-202 study torrent, we can promise you will have the right to enjoy the twenty four hours online service provided by our online workers. At the same time, we warmly welcome that you tell us your suggestion about our Plat-Admn-202 study torrent, because we believe it will be very useful for us to utilize our Plat-Admn-202 test torrent.

Salesforce Certified Platform App Builder Sample Questions (Q205-Q210):

NEW QUESTION # 205

An app builder wants to create a formula field on an Account to include data from related Contacts but is unable to find the relationship in the formula editor.

What is a limitation of formulas that could be causing the issue?

- **A. Unable to reference the child records.**
- B. Formula field limit reached on the Account object.
- C. More than 5,000 characters in the formula.
- D. A master-detail relationship should be created.

Answer: A

Explanation:

The app builder wants to create a formula field on an Account to include data from related Contacts but cannot find the relationship in the formula editor. This limitation occurs because formula fields in Salesforce cannot reference child records directly.

Option A (Unable to reference the child records): In Salesforce, formula fields can reference parent objects but not child objects. In this case, Contacts are child records of Accounts in a lookup relationship, and Account is the parent. This is why the formula editor does not provide access to the child records (Contacts) from the Account.

Formula Field Considerations

Option B (A master-detail relationship should be created): While master-detail relationships allow for roll-up summaries, creating a master-detail relationship is not applicable here since the standard Account-Contact relationship is a lookup, and changing it to master-detail is not possible.

Option C (Formula field limit reached on the Account object): This would limit the number of formulas but is not the root cause of the issue described.

Option D (More than 5,000 characters in the formula): This limit refers to formula field complexity, but it does not explain the inability to reference child records.

In summary, the limitation is due to Salesforce not allowing formula fields to reference child records.

NEW QUESTION # 206

The app builder at AW Computing has been asked to track the number of times a case has been reopened.

Which solution should the app builder utilize to help with this request?

- A. Scheduled Triggered flow
- B. Apex Trigger
- C. Process Builder
- D. Screw flow

Answer: A

Explanation:

Reference:

Salesforce Help - Scheduled Flows

NEW QUESTION # 207

Universal Containers wants to match Opportunity data from Salesforce to the records in a financial database.

What is required to configure an indirect lookup relationship in Salesforce between the Salesforce Opportunity records and those in a financial database?

- A. Salesforce Record ID
- B. CASESAFE(Id)
- C. TEXT(Id)
- D. External ID

Answer: D

Explanation:

An indirect lookup relationship is a custom relationship between two objects that are linked by an external ID field. The external ID field must be a custom field on the parent object that has the "External ID" attribute enabled. The child object must be a standard or custom object that is on the detail side of a master-detail or lookup relationship.

NEW QUESTION # 208

To increase adoption, Universal Containers is proposing changes to its Salesforce data model to allow easier visibility for sales reps into key metrics. The proposal has three custom objects related to the Account object, one with a master-detail, and two that are not. Each of these objects has 15 fields they would like to summarize on the Account object.

What are two considerations for this proposal?

Choose 2 answers

- A. An object can have 25 roll-up summaries.
- B. Roll-up summaries are limited to master-detail relationships.
- C. Roll-up summaries allow MAX, MIN, SUM, COUNT, and AVG.
- D. An object can have 20 object references.

Answer: B,C

Explanation:

Roll-up summaries allow MAX, MIN, SUM, COUNT, and AVG functions on numeric fields from child records related by a master-detail relationship. Roll-up summaries are limited to master-detail relationships and cannot be used with lookup relationships.

An object can have up to 40 roll-up summary fields, not 25. An object can have up to 25 relationship fields (master-detail or lookup), not 20.

NEW QUESTION # 209

Which two features can be used to allow users to access Flows?

Choose 2 answers

- A. Approval Process
- B. Quick Action
- C. Flow Launcher
- D. Apex

Answer: B,C

Explanation:

To allow users access to Flows, Salesforce offers multiple integration points:

A . Quick Action: Flows can be initiated from record pages, the app utility bar, or global actions using Quick Actions. This allows users to execute flows relevant to specific records or global processes.

C . Flow Launcher: A component available in Lightning App Builder that enables users to start flows directly from a Lightning page. Steps to set up these features:

For Quick Actions, navigate to Setup → Object Manager → select object → Buttons, Links, and Actions → New Action → Action Type (Flow).

For Flow Launcher, navigate to Lightning App Builder → select the page → drag the Flow component to the desired section of the page → configure it to launch the specific flow.

For more information on integrating Flows, check the Salesforce documentation on Flow Distribution.

NEW QUESTION # 210

.....

Various study forms are good for boosting learning interests. So our company has taken all customers' requirements into account. Some people are not good at operating computers. So you might worry about that the Plat-Admn-202 certification materials are not suitable for you. Try to believe us. Our experts have taken your worries seriously. They have made it easy to operate for all people. Even if you know little about computers, you can easily begin to do exercises of the Plat-Admn-202 Real Exam dumps.
