350-901 Test Practice - 350-901 Latest Cram Materials

2026 Latest DumpStillValid 350-901 PDF Dumps and 350-901 Exam Engine Free Share: https://drive.google.com/open?id=19jBFd58VXB6h87LSEJ_ib1Ct-nwp0ze1

With many advantages such as immediate download, simulation before the real test as well as high degree of privacy, our 350-901 actual exam survives all the ordeals throughout its development and remains one of the best choices for those in preparation for exams. Many people have gained good grades after using our 350-901 real test, so you will also enjoy the good results. Don't hesitate any more. Time and tide wait for no man. Now that using our 350-901 practice materials have become an irresistible trend, why don't you accept it with pleasure?

Cisco 350-901 Exam Syllabus Topics:

Topic	Details
Topic 1	• Construct A Python Script Using The Cisco DNA Center Apis To Retrieve And Display Wireless Health Information
Topic 2	• Construct API Requests To Create And Delete Objects Using Firepower Device Management (FDM) • Software Development And Design
Topic 3	• Utilize RESTCONF To Configure A Network Device Including Interfaces, Static Routes, And Vlans (IOS XE Only)
Topic 4	• Integrate An Application Into A Prebuilt CD Environment Leveraging Docker And Kubernetes • Describe An Effective Logging Strategy For An Application
Topic 5	• Implement Mitigation Strategies For OWASP Threats (Such As XSS, CSRF, And SQL Injection) • Configure Application Specific SSL Certificates
Topic 6	• Describe How End-To-End Encryption Principles Apply To Apis • Implement Control Flow Of Consumer Code For Unrecoverable REST API Errors
Topic 7	• Describe Distributed Applications Related To The Concepts Of Front-End, Back-End, And Load Balancing
Topic 8	• Evaluate Choice Of Database Types With Respect To Application Requirements • Construct A Sequence Diagram That Includes API Calls
Topic 9	• Evaluate An Application Design Considering High-Availability And Resiliency • Explain Architectural Patterns

Topic 10	• Identify The Secret Storage Approach Relevant To A Given Scenario • Construct An Application That Consumes A REST API That Supports Pagination
Topic 11	• Describe The Benefits Of Continuous Testing And Static Code Analysis In A CI Pipeline • Utilize Docker To Containerize An Application
Topic 12	• Describe Steps To Build A Custom Dashboard To Present Data Collected From Cisco Apis • Evaluate An Application Design And Implementation Considering Maintainability
Topic 13	• Construct API Requests To Implement Chatops With Webex Teams API • Evaluate An Application Design Considering Scalability And Modularity
Topic 14	• Evaluate An Application Design Considering Latency And Rate Limiting • Identify Ways To Optimize API Usage Through HTTP Cache Controls
Topic 15	• Evaluate An Application Design And Implementation Considering Observability • Implement Robust REST API Error Handling For Time Outs And Rate Limits
Topic 16	• Identify A Configuration Management Solution To Achieve Technical And Business Requirements • Describe The Tenets Of The "12-Factor App"
Topic 17	• Explain Data Privacy Concerns Related To Storage And Transmission Of Data • Explain Considerations Of Model-Driven Telemetry
Topic 18	• Describe The Capabilities Of Appdynamics When Instrumenting An Application • Construct API Calls To Retrieve Data From Intersight
Topic 19	• Construct A Python Script Using The UCS Apis To Provision A New UCS Server Given A Template • Explain The Concepts Of Release Packaging And Dependency Management

Conclusion

Passing the Cisco DEVCOR 350-901 Exam is an important achievement for any individual who wants to pursue a career in software design and development. As you will add its related designation to your resume, your chances to get accepted in international organizations and receive a generous payment offer are much higher. You can obtain these great results by using verified training materials and invest your time in self-study with the help of manuals found on the Amazon website.

350-901 Test Practice - Pass Guaranteed Quiz 2026 350-901: Developing Applications using Cisco Core Platforms and APIs (DEVCOR) First-grade Latest Cram Materials

As an enthusiasts in IT industry, are you preparing for the important 350-901 exam? Why not let our DumpStillValid to help you? We provide not only the guarantee for you to Pass 350-901 Exam, but also the relaxing procedure of 350-901 exam preparation and the better after-sale service.

Cisco 350-901 Certification Exam is part of the Cisco Certified DevNet Professional certification track, which is designed to help developers acquire the skills and knowledge needed to design, develop, and maintain applications on Cisco platforms. Developing Applications using Cisco Core Platforms and APIs (DEVCOR) certification track focuses on building skills in software development, automation, and network programmability using Cisco APIs and platforms.

Cisco Developing Applications using Cisco Core Platforms and APIs (DEVCOR) Sample Questions (Q266-Q271):

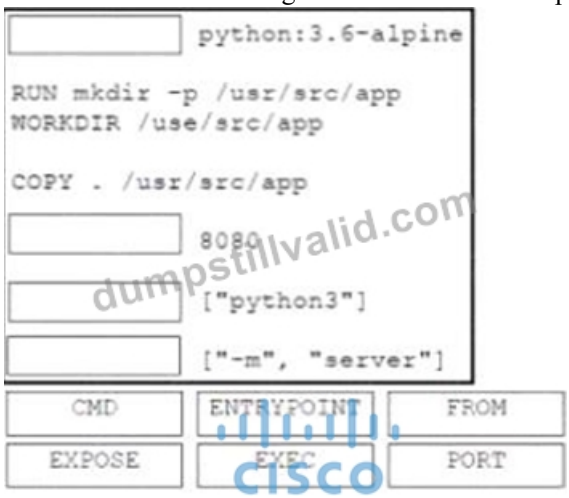
NEW QUESTION # 266
Application sometimes store configuration as constants in the code, which is a violation of strict separation of configuration from code. Where should application configuration be stored?

- A. Dockerfiles
- B. YAML files
- C. Python libraries
- D. INI files
- E. environment variables

Answer: B

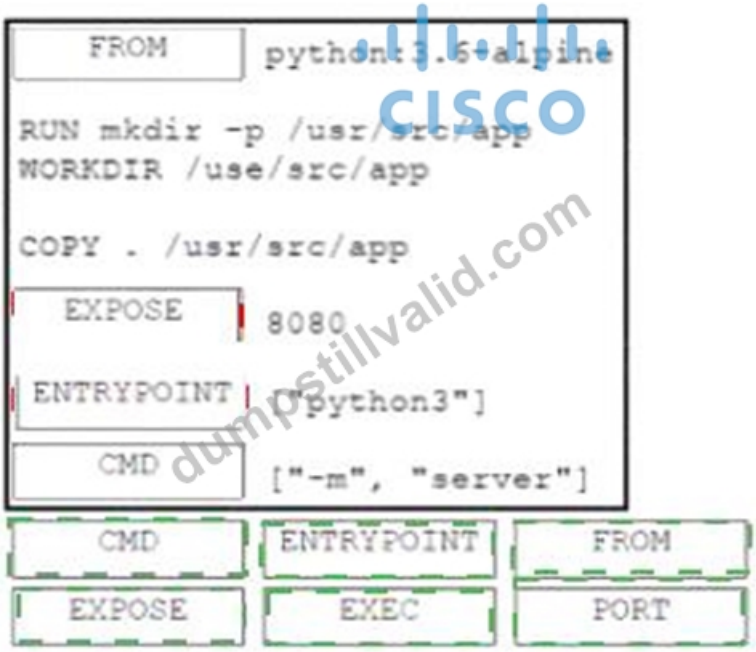
Explanation:
Section: Infrastructure and Automation
Explanation

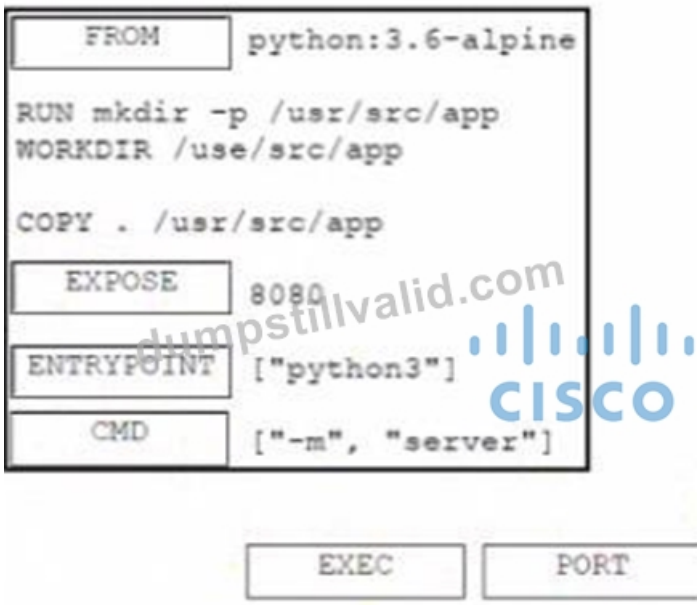
NEW QUESTION # 267
A developer must containerize a Python application to integrate into a prebuilt CD environment by creating a Docker image. It will be hosted as a web application to enable end users from accessing it remotely. Drag and drop the code from the bottom onto the box where the code is missing in the Docker file Not all options are used.



Answer:

Explanation:





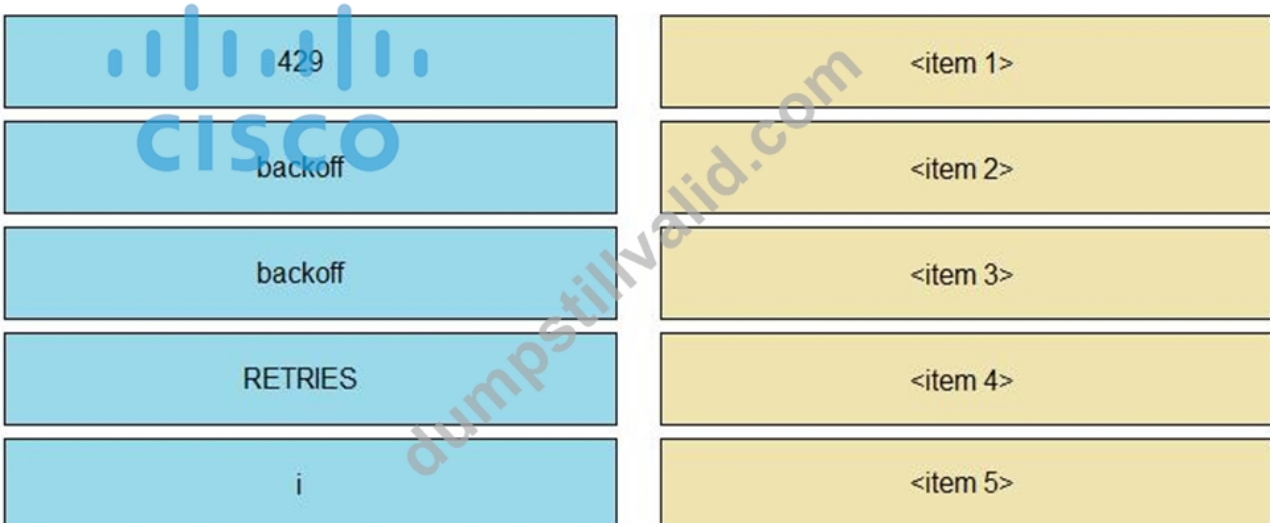
NEW QUESTION # 268
Refer to the exhibit.

```
RETRIES = 6
i = 0
backoff = 1

while True:
     try:
          response = requests.request(*args, **kwargs)
          response.raise_for_status()
          return response
     except Exception as e:
          if (response.status_code != <item 1>) or i == <item 2>:
               return response

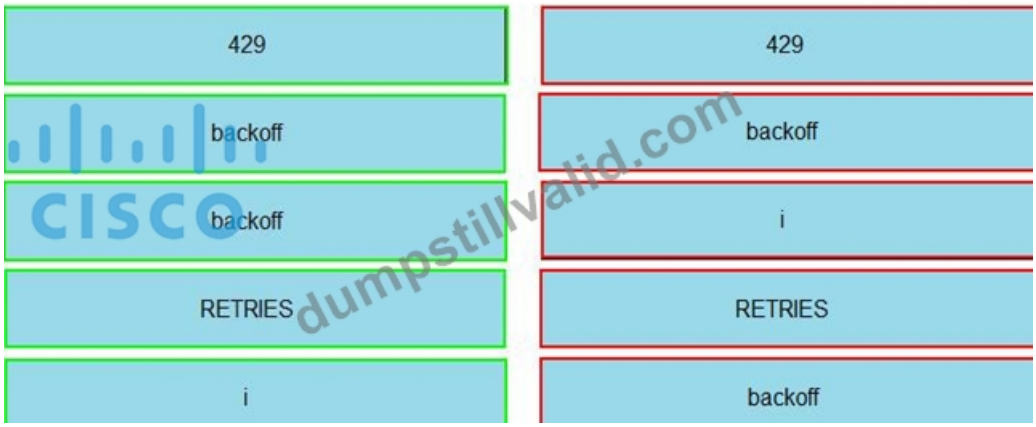
          time.sleep(<item 3>)
          <item 4> *= 2
          <item 5> += 1
```

The self-service Webex Teams bot is failing when many users attempt to interact with it at the same time. Drag and drop the code snippets from the left onto the correct item numbers on the right that match the missing sections in the exhibit to complete this code to handle this high-load situation.



Answer:

Explanation:



NEW QUESTION # 269

Refer to the exhibit.

```
from flask import request
import xml.etree.ElementTree as ET

tree = ET.parse('routers.xml')
root = tree.getroot()

@app.route('/sites')
def user_location():
    username = request.args['username']
    query = "./routers/[@name='"+router+"']"
    elmts = root.findall(query)
    return 'Location %s' % list(elmts)
```

Refer to the exhibit. A developer creates a route by using the Python Flask framework to return information about a network router. Penetration testers can extract sensitive information from the route by using specialty crafted values in the URL. Which action will mitigate this vulnerability?

- A. Secure the /routers endpoint against cross-site scripting attacks.
- B. Prevent HTTP request redirection.
- C. Implement rate limiting to prevent DOS.
- D. Validate injection of untrusted XPath expressions.

Answer: D

NEW QUESTION # 270
Refer to the exhibit.

```
response = requests.get(url, auth= (username, password))
[                                                       ]

    print("Invalid credentials. Please login again")
    username, password = get_credentials()
    response = requests.get(url, auth= (username, password))
```

Which code snippet must be added to the blank in the code to automate the evaluation and handling of errors due to wrong credentials when Basic Authorization is used?

- A. `while response.status_code == 403 :`
- B. `while response.get.status_code == 404 :`
- C. `while response.status_code == 401 :`
- D. `while response.get.status_code == 400 :`

Answer: C

NEW QUESTION # 271
