NEW QUESTION # 211
An organization that has an ISMS in place conducts management reviews at planned intervals, but does not retain documented information on the results. Is this in accordance with the requirements of ISO/IEC 27001?

- A. Yes. ISO/IEC 27001 does not require organizations to document the results of management reviews
- B. No, ISO/IEC 27001 requires organizations to document the results of management reviews
- C. Yes. ISO/IEC 27001 requires organizations to document the results of management reviews only if they are conducted ad hoc

Answer: B

Explanation:
According to ISO/IEC 27001:2022, clause 9.3.3, the organization must retain documented information as evidence of the results of management reviews. The results of management reviews must include decisions and actions related to the ISMS policy, objectives, risks, opportunities, resources, and communication. Documenting the results of management reviews is important to ensure the accountability, traceability, and effectiveness of the ISMS. It also helps the organization to monitor and measure the performance and improvement of the ISMS, and to demonstrate compliance with the requirements of ISO/IEC 27001:2022. Therefore, an organization that has an ISMS in place and conducts management reviews at planned intervals, but does not retain documented information on the results, is not in accordance with the requirements of ISO/IEC 27001.
