312-76 Pass-King Torrent - 312-76 Actual Exam & 312-76 Exam Torrent

If you are busying with your study or work and have little time to prepare for your exam, choose us, we will do the rest for you. 312-76 exam bootcamp are edited and verified by professional experts, therefore the quality and accuracy can be guaranteed. You just need to spend about 48 to 72 hours on practicing, and you can pass the exam in your first attempt by using 312-76 Exam Braindumps of us. We offer you free demo to have a try before buying. Online and offline chat service are available, and if you have

any questions about 312-76 exam bootcamp, you can have a conversation with us.

If talking about the details of the topics covered in this prerequisite exam, they are enumerated below:

- **Data Recovery Strategies: 37%**

  This module focuses on your understanding of the data recovery process & best practices, best practices & standards in virtualization, and disaster recovery based on virtualization. It also covers the details of the data recovery overview, centralized & decentralized computing overview, centralized backup, survivable storage systems, and data consolidation overview.

- **Disaster Recovery Planning Process: 10%**

  This objective evaluates the learners' understanding of the disaster recovery planning process & methodology as well as the disaster recovery planning overview.

- **Risk Assessment: 7%**

  This area focuses on the individuals' knowledge of risk overview and associated terminology. It also focuses on equipping the candidates with the competence in the risk assessment process and best practices & standards in risk management.

- **BCP Testing, Training, & Maintenance: 8%**

  This domain requires one's understanding of business continuity plan testing, BCP training program, as well as maintaining & auditing of the business continuity plan.

- **Introduction to Disaster Recovery & Business Continuity: 9%**

  This section covers the knowledge areas, which include the overview of disaster recovery & business continuity, disaster recovery & business continuity trends, as well as business continuity management overview. It also covers one's understanding of the best practices & standards in risk management and disaster recovery & business continuity.

EC-COUNCIL EC-Council Disaster Recovery Professional (EDRP) Sample Questions (Q209-Q214):

NEW QUESTION # 209
Katie has implemented the RAID level that splits data into blocks and evenly writes the data to multiple hard drives but does not provide data redundancy. This type of RAID level requires a minimum of _____ in order to set up.

- A. Two drives
- B. Six drives
- C. Four drives
- D. Three drives

Answer: A

Explanation:
RAID 0 splits data across drives (striping) for performance but offers no redundancy, requiring a minimum of two drives.
* Option B:RAID 5 minimum, not RAID 0.
* Option C/D:Higher RAID levels, not RAID 0.
* "RAID 0 uses striping across at least two drives for speed, sacrificing redundancy for performance" (Module: Storage Technologies, Section: RAID Levels).

NEW QUESTION # 210
Martin works as a network administrator in a company. He recently created an FTP server and wants to take the backup of the configuration of his Cisco Router on the FTP server. Which Cisco IOS CLI (Command Line Interface) command can help him do this?

- A. #backup running-configuration ftp
- B. #copy running-configuration tftp

- C. #copy running-configuration ftp
- D. #backup running-configuration ftp

Answer: C

Explanation:
The Cisco IOS command copy running-configuration ftp backs up the router's running configuration to an FTP server, as Martin needs. Options A and B are invalid syntax (and duplicated).
* Option D (tftp):Uses TFTP, not FTP.
* "The copy running-configuration ftp command in Cisco IOS transfers the router config to an FTP server for backup" (Module: Network Device Management, Section: Cisco Backup Commands).

NEW QUESTION # 211

Will is working as a Network Administrator. Management wants to maintain a backup of all the company data as soon as it starts operations. They decide to use a RAID backup storage technology for their data backup plan. To implement the RAID data backup storage, Will sets up a pair of RAID disks so that all the data written to one disk is copied automatically to the other disk as well. This maintains an additional copy of the data. Which RAID level is used here?

- A. RAID 0
- B. RAID 1
- C. RAID 5
- D. RAID 3

Answer: B

Explanation:
RAID 1 (mirroring) duplicates data across two disks, ensuring an identical copy is maintained, as Will implemented.
* Option A (RAID 0):Striping, no redundancy.
* Option C (RAID 3):Parity with striping, not full duplication.
* Option D (RAID 5):Parity across multiple disks, not mirroring.
* "RAID 1 mirrors data across two disks, providing an exact copy for redundancy and immediate backup availability" (Module: Storage Technologies, Section: RAID Levels).

NEW QUESTION # 212

Which of the following disaster recovery tests includes the operations that shut down at the primary site, and are shifted to the recovery site according to the disaster recovery plan?

- A. Simulation test
- B. Full-interruption test
- C. Structured walk-through test
- D. Parallel test

Answer: B

NEW QUESTION # 213

You are working as a project manager in your organization. You are nearing the final stages of project execution and looking towards the final risk monitoring and controlling activities. For your project archives, which one of the following is an output of risk monitoring and control?

- A. Quantitative risk analysis
- B. Requested changes
- C. Qualitative risk analysis
- D. Risk audits

Answer: B

Explanation:
