## ServiceNow Certified Implementation Specialist - Strategic Portfolio Management Sample Questions (Q107-Q112):

### NEW QUESTION # 107

What is a data copy of the current project's task, schedule, or structure that can be used for comparison reporting later?

- A. Accrual
- B. Commitment
- C. Forecast
- D. Baseline

**Answer: D**

Explanation:

A baseline is a data copy of the current project's task, schedule, or structure that can be used for comparison reporting later. A baseline captures the original plan of the project and allows you to track the changes and deviations from the plan over time. You can create multiple baselines for a project and compare them with the current state of the project. You can find more information about baselines in the Product Documentation for ServiceNow.

## NEW QUESTION # 111

What does the project status report allow project managers to do?

Choose 2 answers

- A. Print as a PDF attachment
- B. Show historical trend of project KPI's
- C. View the WBS
- D. View the project Gantt chart

**Answer: A,B**

Explanation:

The project status report allows project managers to do the following:

Show historical trend of project KPI's: The project status report displays the key performance indicators (KPIs) of the project, such as schedule variance, cost variance, and earned value. It also shows the historical trend of these KPIs over time, which helps project managers monitor the progress and performance of the project. You can find more information about the project status report KPIs in the Product Documentation for ServiceNow.

Print as a PDF attachment: The project status report can be printed as a PDF attachment and sent to the stakeholders or sponsors of the project. This helps project managers communicate the status and health of the project in a clear and concise format. You can find more information about the project status report PDF attachment in the Product Documentation for ServiceNow.
