Fortinet NSE7_OTS-7.2 Dumps Guide | Valid NSE7_OTS-7.2 Exam Experience

You will never be afraid of the NSE7_OTS-7.2 exam, we believe that our NSE7_OTS-7.2 preparation materials will help you change your present life. It is possible for you to start your new and meaningful life in the near future, if you can pass the NSE7_OTS-7.2 exam and get the certification. So it is very important for you to prepare for the NSE7_OTS-7.2 Practice Exam, you must pay more attention to the NSE7_OTS-7.2 certification guide to help you. And our NSE7_OTS-7.2 exam questions can give you all the help to obtain the certification.

Fortinet NSE 7 - OT Security 7.2 Sample Questions (Q79-Q84):

NEW QUESTION # 79

Refer to the exhibit. You are creating a new operational technology (OT) rule to monitor Modbus protocol traffic on FortiSIEM. Which action must you take to ensure that all Modbus messages on the network match the rule?

A new OT rule

Edit SubPattern

Name: industrial_protocol_monitor

Filters:	Paren	Attribute	Operator	Value	Paren	Next	Row
	+	Destination TCP/UDP Port	IN	Group: OT Ports	+	OR	+

Aggregate:	Paren	Attribute	Operator	Value	Paren	Next	Row
	+	COUNT(Matched Events)	=	1	+	AND	+

Group By:	Attribute	Row	Move
	Source TCP/UDP Port	+	+
	Destination TCP/UDP Port	+	+
	Event Type	+	+
	Reporting IP	+	+

- A. The condition on the SubPattern filter must use the AND logical operator.
- B. In the Group By section, remove all attributes that are not configured in the Filter section.
- **C. In the Aggregate section, set the attribute value to equal to or greater than 0.**
- D. Add a new condition to filter Modbus traffic based on the source TCP/UDP port.

Answer: C

Explanation:

The current Aggregate condition is set to COUNT(Matched Events) >= 1, which only triggers the rule after at least one event. To ensure all Modbus messages (including the first one) match the rule, the condition must be >= 0, so every event is considered, including the very first occurrence.

NEW QUESTION # 80

The OT network analyst run different level of reports to quickly explore failures that could put the network at risk. Such reports can be about device performance. Which FortiSIEM reporting method helps to identify device failures?

- A. Business service reports
- B. Active dependent rules reports
- **C. Device inventory reports**
- D. CMDB operational reports

Answer: C

NEW QUESTION # 81

Which statement about how FortiNAC processes matched rogue devices is true?

- **A. FortiNAC remembers the matching rule of the rogue device.**
- B. FortiNAC considers rogue devices as known endpoints.
- C. FortiNAC detects rogue devices by the IP address.
- D. FortiNAC matches the rogue device with only one device profiling rule.

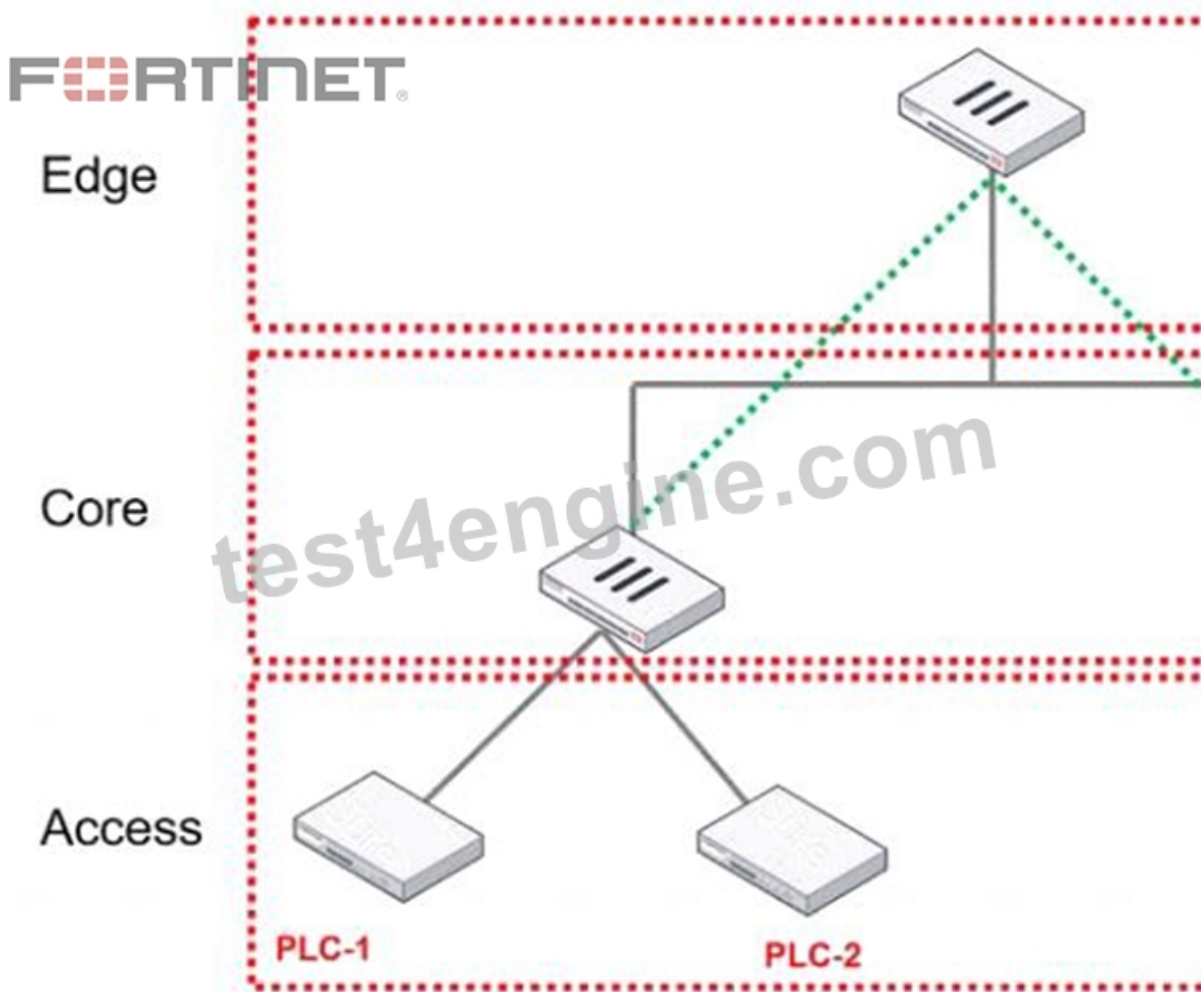

Answer: A

Explanation:

When FortiNAC detects a rogue device, it applies a device profiling rule and remembers the matching rule. This allows FortiNAC to maintain awareness of the rogue device's characteristics and behavior, enabling consistent monitoring and enforcement of security policies. This memory ensures that appropriate actions are taken when the device is detected again or exhibits suspicious activity.

NEW QUESTION # 82

Refer to the exhibit.

You are assigned to implement a remote authentication server in the OT network.

Which part of the hierarchy should the authentication server be part of?

- A. Core
- B. Access
- C. Cloud
- **D. Edge**

Answer: D

NEW QUESTION # 83

Refer to the exhibit.

Active Rules x Windows Installed Patches x Router/Switch Image Distribution x						
Back Export		1/1				
Device Name	Device Type Vendor	Device Type Model	Device Hardware Model	Device Image File	Count	
SJ-QA-A-IOS-JunOffice	Cisco	IOS	1760	C1700-advsecurityk9-mz.123-8.T4.bin	1	
SJ-Main-Cat6500	Cisco	IOS	WS-C6509	s72033-advipservicesk9_wan-mz.122-33.SX11.bin	1	
ph-network-3560_1	Cisco	IOS	WS-C3560G-48PS-S	c3560-advipservicesk9-mz.122-25.SEE4.bin	1	

An OT administrator ran a report to identify device inventory in an OT network. Based on the report results, which report was run?

- A. A FortiSIEM incident report
- **B. A FortiSIEM CMDB report**
- C. A FortiAnalyzer device report
- D. A FortiSIEM analytics report

Answer: B

NEW QUESTION # 84

.....

Using our NSE7_OTIS-7.2 study braindumps, you will find you can learn about the knowledge of your exam in a short time. Because you just need to spend twenty to thirty hours on the practice exam, our Fortinet NSE7_OTIS-7.2 Study Materials will help you learn about all knowledge, you will successfully pass the Fortinet NSE7_OTIS-7.2 exam and get your certificate.
