Our Lead2PassExam's 1Z0-1042-25 exam training material is the leader of 1Z0-1042-25 certification exam. Our 1Z0-1042-25 exam training materials is the result of Lead2PassExam's experienced IT experts with constant exploration, practice and research for many years. It has high accuracy and wide coverage. If you buy our 1Z0-1042-25 Dumps PDF, we guarantee that we will provide one year free renewal service.

Oracle 1Z0-1042-25 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Creating Orchestrated Integrations: This section tests the knowledge of Orchestration Developers and Business Process Analysts in managing orchestrated integrations within OIC. It includes using lookups, data mappers, and custom JavaScript libraries, configuring orchestration flow actions, implementing file handling options, and leveraging the fault-handling framework to manage errors effectively.
Topic 2	<ul style="list-style-type: none">Using OIC Connections & Adapters: This section evaluates the expertise of Integration Developers and Solution Architects in creating and configuring OIC connections. It includes setting up trigger and invoke connections, understanding the role of the Connectivity Agent, and effectively using adapters to connect cloud and on-premises applications seamlessly.
Topic 3	<ul style="list-style-type: none">Testing, Monitoring, and Troubleshooting Integrations: This section assesses the abilities of Support Engineers and Integration Administrators in managing integration lifecycles. It includes activating and deactivating integrations, testing REST-triggered integrations, importing and exporting integrations, as well as monitoring and troubleshooting integration instances to ensure smooth operations.
Topic 4	<ul style="list-style-type: none">Getting Started with OIC Integrations: This section of the exam measures the skills of Integration Specialists and Cloud Engineers in understanding the foundational components of Oracle Integration Cloud (OIC). It covers key integration concepts, how integrations work, and web services fundamentals such as WSDL, SOAP, REST, and JSON. The focus is on building a strong understanding of OIC's integration capabilities.

Topic 5	<ul style="list-style-type: none"> • Creating Scheduled Integrations: This domain measures the skills of Automation Engineers and Cloud Administrators in defining integration schedules and converting scheduled integrations to app-driven ones. It also includes using scheduled parameters to automate workflows efficiently.

Prominent Features of Lead2PassExam Oracle 1Z0-1042-25 Practice Test Questions

You cannot pass the 1Z0-1042-25 exam if you do not have real Oracle Cloud Infrastructure 2025 Application Integration Professional (1Z0-1042-25) exam questions. It is the foremost thing that everyone should have to nail the Oracle 1Z0-1042-25 Exam. The 1Z0-1042-25 practice test material of Lead2PassExam is available in web-based practice tests, desktop practice exam software, and PDF.

Oracle Cloud Infrastructure 2025 Application Integration Professional Sample Questions (Q26-Q31):

NEW QUESTION # 26

Which type of certificate requires the uploading of a keystore (.jks) file in Oracle Integration Cloud to facilitate two-way SSL communication with external services?

- A. Message Protection Certificate
- B. Unified Communications Certificate
- C. Multi Domain Certificate
- **D. Identity Certificate**

Answer: D

Explanation:

Comprehensive and Detailed Explanation:

Certificates in OIC:

C:True-Identity Certificate with a .jks file supports two-way SSL (mutual authentication).

A:False-specific to communication platforms.

B:False-not a distinct OIC type for this purpose.

NEW QUESTION # 27

Which adapter is NOT provided in the Oracle Cloud Adapter Pack bundled with the Oracle SOA Cloud service?

- A. Salesforce Adapter
- B. Oracle ERP Cloud Adapter
- C. SuccessFactors Adapter
- **D. Oracle E-Business Suite Adapter**

Answer: D

Explanation:

The Oracle E-Business Suite Adapter is not part of the Oracle Cloud Adapter Pack, as it's typically used for on-premises integrations rather than cloud-based services. The other adapters are cloud-focused and bundled with the SOA Cloud service.

NEW QUESTION # 28

Your design of an asynchronous Oracle Integration Cloud (OIC) integration flow includes the requirement for additional processing logic that is conditionally based on the results returned to the integration instance from earlier external service invocations. You decide to leverage the Switch action to facilitate this implementation.

Which is a valid consideration concerning the configuration and capabilities of the Switch action?

- A. Data objects returned from actions within a branch of a switch action are not visible in the main flow of the integration after the switch action.
- B. Nested switch actions are not supported, and you may need to create more complex conditional expressions, if necessary.
- C. The Switch action must include an otherwise branch.
- D. XPath version 2.0 functions can be used to create more complex conditional expressions for a branch.

Answer: D

Explanation:

XPath version 2.0 functions can be used within the Switch action to create more complex conditional expressions for defining branches in Oracle Integration Cloud.

NEW QUESTION # 29

OIC is available in two editions - Standard and Enterprise. Which OIC Enterprise Edition capabilities are ALSO available in the OIC Standard edition? (Select two)

- A. Visual Builder
- B. File Server
- C. Integration Insight
- D. B2B Trading Partner Agreements
- E. Process Applications
- F. Enterprise application Adapters (such as EBS, JDE, SAP, and Siebel)

Answer: A,B

Explanation:

Both the File Server and Visual Builder capabilities are available in the OIC Standard edition, along with the Enterprise edition. Other capabilities, such as B2B and Process Applications, are exclusive to the Enterprise edition.

NEW QUESTION # 30

Once they have been configured, which actions are allowed to be repositioned to another location within the design canvas of an orchestration-style integration flow? Select THREE.

- A. Switch Action
- B. Stage File Action using a Read File in Segments operation
- C. Stage File Action using a Write File operation
- D. JavaScript Call Action
- E. For Each Loop Action
- F. Stage File Action using a Read File operation

Answer: C,D,F

Explanation:

Comprehensive and Detailed Explanation:

In OIC's orchestration-style flows, certain actions can be moved on the canvas post-configuration:

Stage File Action - Write File (B): This operation (writing to a staged file) is movable as it's a standalone action.

JavaScript Call Action (D): Invoking custom JavaScript is flexible and repositionable.

Stage File Action - Read File (F): Reading an entire file is a movable, independent operation.

However:

Stage File Action - Read File in Segments (A): This operation involves iterative processing (e.g., scopes for segments), restricting its mobility due to dependencies.

Switch Action (C): As a conditional branching structure, it's less flexible once branches are defined.

For Each Loop Action (E): Its iterative nature ties it to specific data structures, limiting repositioning.

This reflects OIC's design constraints for complex, dependent actions.

NEW QUESTION # 31

.....

Our 1Z0-1042-25 Exam Braindumps are the hard-won fruit of our experts with their unswerving efforts in designing products and choosing test questions. Pass rate is what we care for preparing for an examination, which is the final goal of our 1Z0-1042-25 certification guide. According to the feedback of our users, we have the pass rate of 99%, which is equal to 100% in some sense. The high quality of our products also embodies in its short-time learning. You are only supposed to practice Oracle Cloud Infrastructure 2025 Application Integration Professional guide torrent for about 20 to 30 hours before you are fully equipped to take part in the examination.
