Valid 1z0-1057-25 Exam Dumps Materials - 1z0-1057-25 Quiz Cram - DumpsFree

If you are the first time to prepare the 1z0-1057-25 exam, it is better to choose a type of good study materials. After all, you cannot understand the test syllabus of the 1z0-1057-25 exam in the whole round. It is important to predicate the tendency of the 1z0-1057-25 study materials if you want to easily pass the exam. And our 1z0-1057-25 Exam Questions are the one which can exactly cover the latest information of the exam in the first time for our professionals are good at this subject and you can totally rely on us.

Oracle Project Management Cloud 2025 Implementation Professional Sample Questions (Q99-Q104):

NEW QUESTION # 99

Your client is involved in automation control systems installation. Over the years, they have analyzed their total project spend on specific resource classes. They have identified that their cost spread distribution factor on a 10 spread point scale resembles: 0-4-10-11-14-13-10-4-0-0. Identify two ways to handle this kind of a spread on their budgets and forecasts. (Choose two)

- A. Create a new spread curve or edit an existing spread curve to exactly match the spread points and attach to the resource class.
- B. Create a new spread curve or edit an existing spread curve to exactly match the spread points and attach to a project template.
- C. Use the predefined Bell Curve spread with small deviations on the spread points.
- D. Use the predefined S-Curve spread with small deviations on the spread points.

Answer: A,B

Explanation:

To handle a custom spread on budgets and forecasts, you can either create a new spread curve or edit an existing one to match the desired spread points. Then, you can attach the spread curve to a project template or a resource class, depending on whether you want to apply it to all projects using that template or all transactions using that resource class. NEW QUESTION # 100

After completing setups in a source environment, your customer wants to move the setup data to a target environment. Identify the two statements related to task list scope, which you must consider before taking a decision based on the customer requirement. (Choose two.)

- A. A task list can be segmented by a scope value and a task can be performed for each qualifying value of the selected object.
- B. Exported setup data cannot be filtered by specific scope values if the business object has scope enabled for the setup data export.
- C. A scope value is used to assign users who can perform a task within an implementation project.
- D. Exported setup data can be filtered by specific scope values if the business object has scope enabled for the setup data export.

Answer: A,D

Explanation:

NEW QUESTION # 101

Your organization has been using project class categories and codes for reporting purposes and is set up at the project level. You recently defined a new project type, Capital-Contract, and created new class categories named Build, Operate, and Transfer (BOT) and Build, Transfer, and Maintain (BTM), with class codes of Yes

/No. But on creation of a project, you are unable to associate these class categories and codes.

Identify two setups that are mandatory for these class categories and codes to be displayed. (Choose two.)

- A. Class categories should be assigned to business unit.
- B. Class codes should be associated with a related set code.
- C. Class categories should be assigned to project type.
- D. Class codes should be assigned to project unit.

Answer: B,C

Explanation:

Ref: <https://docs.oracle.com/en/cloud/saas/project-portfolio-management/19a/oapfm/project-foundation-configuration-manage-project-types.html#OAPFM360164> Topic - Associating Project Types and Class Categories: Examples Project classifications group your projects according to categories and codes that you define. When you associate project classifications with project types, the classification is available for selection on projects with that project type.

Use any of the following methods to associate class categories with project types:

* Add a classification to the project type definition

For each classification that you associate with the project type, you can enable the Assign to All Projects option to automatically add the classification to the project definition for all new projects with the project type. When this option is enabled, all projects with this project type must be assigned a class code for the class category.

* Add a project type to the class category definition

* Enable the Assign to all Project Types option on the class category definition

NEW QUESTION # 102

Which three are project gate statuses? (Choose three.)

- A. Draft
- B. Approve

- C. Closed
- D. In Review
- E. Open

Answer: C,D,E

Explanation:

Project gate statuses are values that indicate the progress or completion of a project gate. A project gate is a checkpoint that marks the end of a phase or stage in a project lifecycle. Three of the project gate statuses are:

- * Open: This status indicates that the project gate is not yet ready for review or approval.
- * In Review: This status indicates that the project gate is under review or approval by the gate reviewers or approvers.
- * Closed: This status indicates that the project gate has been reviewed or approved and the project can move to the next phase or stage. Approve and Draft are not project gate statuses, but actions that can be performed on a project gate. Approve is an action that allows a gate approver to approve a project gate and change its status to Closed. Draft is an action that allows a gate owner to create or edit a project gate and change its status to Open. Reference: <https://docs.oracle.com/en/cloud/saas/project-portfolio-management/20c/oapfm/manage-project-execution.html#OAPFM2356251>

NEW QUESTION # 103

You are currently involved in the implementation of the Project Financial Management solution for your client organization. Your client organization has two main lines of business: Consulting and Support.

Consulting Services and Support Services organizations have different project planning, management, analysis and reporting requirements for the projects that they manage, though the management reporting and transaction processing requirements are the same for both the organizations.

What will be your recommendation?

- A. Define Two Business Units and Two Project Units
- B. Define Two Business Units and One Project Unit
- C. Define One Business Unit and Three Project Units
- D. Define One Business Unit and Two Project Units

Answer: D

Explanation:

The recommendation for this scenario is to define one business unit and two project units. A business unit is an organization that performs one or many business functions such as transaction processing or reporting. A project unit is an organization that manages projects within a business unit or across multiple business units.

By defining one business unit and two project units, you can meet the following requirements of the client organization:

- * The management reporting and transaction processing requirements are the same for both the organizations: This can be achieved by using the same business unit for both the organizations, as the business unit determines the common setups such as ledger, currency, calendar, etc. for transaction processing and reporting.
- * The project planning, management, analysis and reporting requirements are different for each organization: This can be achieved by using different project units for each organization, as the project unit determines the specific setups such as project types, templates, options, etc. for project planning, management, analysis and reporting. Defining two business units and two project units is not recommended for this scenario, as this would create unnecessary duplication of setups for transaction processing.

NEW QUESTION # 104

.....

Now we can say that Oracle Project Management Cloud 2025 Implementation Professional (1z0-1057-25) exam questions are real and top-notch 1z0-1057-25 exam questions that you can expect in the upcoming Oracle Project Management Cloud 2025 Implementation Professional (1z0-1057-25) exam. In this way, you can easily pass the 1z0-1057-25 exam with good scores.
