1z0-1057-25 Exam Test | Reliable 1z0-1057-25 Real Test

People who get 1z0-1057-25 certification show dedication and willingness to work hard, also can get more opportunities in job hunting. It seems that 1z0-1057-25 certification becomes one important certification for many IT candidates. While a good study material will do great help in 1z0-1057-25 Exam Preparation. Test4Sure 1z0-1057-25 will solve your problem and bring light for

you. 1z0-1057-25 exam questions and answers are the best valid with high hit rate, which is the best learning guide for your Oracle 1z0-1057-25 preparation.

Oracle Project Management Cloud 2025 Implementation Professional Sample Questions (Q97-Q102):

NEW QUESTION # 97

You have a billable project for which the following details are provided:

Associated Inception-To-Date (ITD) Project Actual Cost: USD 60

Associated Project Budgeted Cost: USD 300

Contract Amount: USD 1000

Project Funded Amount: USD 750

Sum of Existing Revenue Events: USD 80

Identify the Associated Project Spent revenue that will get generated based on the preceding details. (Choose the best answer.)

- **A. USD 70**
- B. USD 134
- C. USD 184
- D. USD 120

Answer: A

Explanation:

Ref: <https://docs.oracle.com/en/cloud/saas/project-portfolio-management/19b/oapjb/manage-project-contract-revenue.html#OAPJB164173> Associated Project Percent Spent Example The following formula calculates the percent spent revenue for the associated project.

$$((\text{Sum of ITD Actual Cost for every subtask that is part of the associated task} / \text{Sum of Total Budgeted cost for every task that is part of associated task}) \times \text{Associated Project Funded Amount}) - \text{Sum of Existing Invoice Event Amounts for the Associated Project}$$
$$((60/300) \times 750) - 80 = 70 \quad ((\text{Actual Cost} / \text{Budgeted Cost}) \times \text{Budgeted Revenue}) - \text{Sum of Revenue Event Amount}$$

NEW QUESTION # 98

You are set up as a Follower in Manage Tasks. Which two abilities can you accomplish? (Choose two.)

- **A. View task details and the task activity stream.**
- B. Edit task details.
- C. Enter progress for tasks.
- **D. Receive email notifications about changes that team members make to a task.**

Answer: A,D

Explanation:

Ref: <https://docs.oracle.com/en/cloud/saas/project-portfolio-management/19a/oapem/execute-project-tasks-and-deliverables.html#OAPEM1122082> Followers are persons who aren't working on the task but have an interest in reviewing the task progress. Only the resources and other followers can add followers to a task. If a resource assigns the task to another team member, the application automatically changes the original resource to a follower.

What's the difference between my tasks and tasks that I follow?

* You can edit task details and enter progress for your tasks on the Manage Tasks page. If a task has multiple resources, only the primary resource can edit the task.

* When you follow a task, you can view the task details and see the task activity stream. You receive e-mail notifications of changes that team members make to the task.

* If a resource reassigns the task to another team member, then the previous resource automatically becomes a follower.

NEW QUESTION # 99

Your organization performs revenue recognition based on the Labor and Non-labor Burden schedule types.

Identify the setup required to enable this kind of revenue recognition. (Choose the best answer.)

- A. Create a revenue method classification with a revenue method of Percent Spent.
- B. Create a revenue method classification with a revenue method of Percent Complete.

- C. Create a revenue method with a revenue method classification of Rate Based.
- D. Create a revenue method with a revenue method classification of Amount Based.

Answer: C

Explanation:

To perform revenue recognition based on the Labor and Non-labor Burden schedule types, you need to create a revenue method with a revenue method classification of Rate Based. This classification allows you to use the burdened cost rates of labor and non-labor resources as the basis for revenue recognition. The burdened cost rates are derived from the burden schedules that are assigned to the project or task. Reference:

<https://docs.oracle.com/en/cloud/saas/project-portfolio-management/20c/oapfm/manage-project-revenue.html#OAPFM2355981>

NEW QUESTION # 100

Your customer has separate organizations to maintain indirect, capital, and billing types of projects. Identify the two setups that can be used to fulfill this requirement. (Choose two.)

- A. Business Unit
- B. Project Accounting Business Function
- C. Project Type
- D. Organization Tree
- E. Project Organization Classification

Answer: D,E

NEW QUESTION # 101

You have projects and tasks defined with transaction controls, which does not allow certain types of charges to the project. Your business needs to create invoices in AP with this project every period and hence would like to make the process easier by creating a distribution set. As you create the distribution set, you notice that these distribution set lines are not validated against the project transaction controls and you are allowed to save it without any validation errors. Identify the reason why the project transaction controls are not applied. (Choose the best answer.)

- A. There is no expenditure organization information available on the distribution set line.
- B. There is no expenditure item date information available on the distribution set line.
- C. The account code combination is not available on the distribution set line.
- D. There is no expenditure type information available on the distribution set line.

Answer: B

Explanation:

Ref: <https://docs.oracle.com/en/cloud/saas/project-portfolio-management/18c/oapfm/project-costing-configuration-define-project-costing-integrations.html#OAPFM174886> How can I validate distribution sets for projects information?

Oracle Fusion Projects performs validations on Oracle Fusion Payables distribution sets for payables invoices at the time you create the actual distribution set lines. It validates the project and task number during the invoice validation.

Distribution sets are typically used on recurring transactions, and the associated project does not have transaction controls. When you create a distribution set in Oracle Fusion Payables, the distribution set line is not validated against the project transaction controls in Oracle Fusion Projects because you do not enter an expenditure item date, which is required for transaction control validation. The expenditure item date is not provided because you use the distribution sets for an indefinite period of time.

NEW QUESTION # 102

.....

The training tools of Test4Sure contains exam experience and materials which are come up with by our IT team of experts. Also we provide exam practice questions and answers about the Oracle 1z0-1057-25 exam certification. Our Test4Sure's high degree of credibility in the IT industry can provide 100% protection to you. In order to let you choose to buy our products more peace of mind, you can try to free download part of the exam practice questions and answers about Oracle Certification 1z0-1057-25 Exam online.
