Oracle Fusion Cloud Procurement 2025 Implementation Professional Sample Questions (Q69-Q74):

NEW QUESTION # 69

In relation to suppliers, your client has several suppliers with whom they expect to do a high volume of business over an extended period. To simplify this, it would be useful to use master contracts to set the overall terms and conditions between parties. Which two purchasing documents can link to this type of contract?

- A. Purchase Orders
- B. Initiatives
- C. Negotiations
- D. Agreements
- E. Requisitions

Answer: A,D

NEW QUESTION # 70

For audit compliance, you require existing supplier bank account changes made by your Supplier Administrator to be approved.

Which step must you perform to fulfill this requirement?

- A. Manage Internal Supplier Registration Approvals
- **B. Manage Internal Supplier Profile Change Approvals**
- C. Configure Supplier Registration and Profile Change Request

Answer: B

NEW QUESTION # 71

Your organization now wishes to access the Responsive Self Service Procurement application from the navigator or the springboard on all form factors such as mobile phones, tablets, and laptop devices.

After opting in, which search setup needs to be completed?

- A. Stemming
- **B. Elastic**
- C. Wildcard
- D. Fuzzy

Answer: B

Explanation:

To access the Responsive Self Service Procurement application from the navigator or the springboard on all form factors, you need to complete the Elastic search setup after opting in. Elastic search is a smart search engine that provides fast and accurate results for catalog items and services. It also supports features such as auto-suggest, spell check, and synonym search. You can configure the Elastic search settings in the Manage Search Indexes task in the Setup and Maintenance work area.

NEW QUESTION # 72

You have the following business requirements when creating an implementation project:

You want to see the list of offerings and functional areas that are configured for the project.

You want to identify at which stage all offerings and functional areas are.

Which two fulfill these requirements?

- **A. After creating the implementation project, set the status of tasks to In Progress or Implemented.**
- B. You need the IT Security role to fulfill these requirements.
- C. Although the offering configuration can be changed at any time, the changes will influence any existing implementation task lists.
- D. Change Provisioned to "No" to specify the offering that you want to select while creating an implementation project.
- **E. Select the Enable check box to specify the options.**

Answer: A,E

Explanation:

When you create an implementation project, you can select the offerings and functional areas that you want to implement by selecting the Enable check box for each option. This will generate a list of setup tasks for the selected options. You can also see the status of each offering and functional area, such as Provisioned, Enabled, or Not Enabled. After creating the implementation project, you can update the status of each task to indicate the progress of the implementation. You can set the status to In Progress, Implemented, or Not Applicable. This will help you to identify the stage of each offering and functional area in the implementation project.
