Latest 1z0-1066-24 Practice Questions | 1z0-1066-24 Latest Exam Answers

If you intend to take the Oracle 1z0-1066-24 exam to open doors to high-paying jobs, you need an authentic Oracle 1z0-1066-24 practice exam material to get a passing score on the first attempt. Many people do not find a platform that is credible to purchase updated Oracle 1z0-1066-24 prep material. This leads to a waste of time and money, and ultimately failure in the 1z0-1066-24 exam.

Oracle Planning and Collaboration Cloud 2024 Implementation Professional Sample Questions (Q89-Q94):

NEW QUESTION # 89

The marketing department of a company needs to analyze the forecast based on type of demand (large retailer versus specialty store) and item cost (low versus high).

After creating a segment group with demand class and product for segment granularity, what additional sequence of actions must they also perform to satisfy marketing?

- A. Define four segments based on demand type and item cost, execute segmentation, and use the selector tool to create a new table or graph.
- B. Define two segments based on demand type and item cost, execute segmentation, and use the selector tool to create a new table or graph.
- C. Define four segmentation based on demand type and item cost, define each segment's criteria, execute segmentation, configure planning analytics to update the dimension catalog, and use the selector tool to create a new table or graph.
- D. Define four segments based on demand type and item cost, define each segment's criteria, execute segmentation, and use the selector tool to create a new table or graph.

Answer: D

NEW QUESTION # 90

The supply plan is not very reliable. Components often arrive early or late. A team of planners, buyers, marketers, product engineers, and materials managers are tasked to investigate. They list several possibilities that could explain their plan's poor results. If you were a member of the investigation team, which step would you recommend to help troubleshoot this serious issue?

- A. For inaccurate quantity-on-hand issues, use the Planning Advisor to identify inventory accuracy improvement opportunities.
- B. For incomplete or unreliable demand schedules, use the Planning Advisor to identify forecast accuracy issues.
- C. For incorrect or incomplete bills of materials, use the Planning Advisor to identify bill of material anomalies.
- **D. For incorrect or unreliable supplier lead times, use the Planning Advisor to determine lead time accuracy.**

Answer: D

Explanation:

Supplier lead times directly impact the reliability of a supply plan. Using the Planning Advisor to assess lead time accuracy can help identify inconsistencies in expected delivery times, enabling the team to pinpoint and resolve these issues. This approach is supported by Oracle Planning and Collaboration Cloud guidelines for troubleshooting supply chain challenges MY ORACLE SUPPORT

NEW QUESTION # 91

You are viewing a drop shipment plan for your organization and you want to know which customer the purchase order will be shipped to. Where can you see that?

- **A. You need to first drill down to the sales order from the supply-demand link, then open the sales order to get the customer.**
- B. You can see the customer on the supply in Supplies and Demand.
- C. It is not viewable at this time.
- D. You can see the supplier on the sales order, but not vice-versa.
- E. It is visible in the drop ship analytics.

Answer: A

NEW QUESTION # 92

Which statement is NOT true about item attributes?

- **A. Supply plans ignore items with the "planning method" attribute set to MPP.**
- B. The "forecast control" item attribute must be assigned if configure-to-order (CTO) items are being planned.
- C. Many item attributes can be overridden as part of a simulation set that gets applied to a plan.
- D. Some item attributes can be overridden directly in the Items table for simulation purposes.

Answer: A

Explanation:

The statement that "Supply plans ignore items with the 'planning method' attribute set to MPP" is incorrect. Items with this planning method are included as long as relevant configurations are active. All other statements are true, reflecting how item attributes interact with Oracle Planning Cloud functionalities MY ORACLE SUPPORT

NEW QUESTION # 93

Which statement applies only to the planning of back-to-back items and not standard items?

- A. Must have added sourcing rules to the Global Order Promising assignment set.
- B. Planning collects bookings or shipments history to forecast items.
- C. Planning analyzes supply shortages and capacity overloads using any of the standard planning tools.
- D. Planning pegs reserved supplies to sales orders.
- **E. Must use Global Order Promising and Supply Chain Orchestration to release and create new supplies**

Answer: E

Explanation:

Planning for back-to-back items

- Collect back-to-back sales orders, supplies, and reservations.
- Create supply plans for back-to-back items.
 - Planning recognizes sales order reservations to the supplies.
 - Planning pegs reserved supplies to sales orders for back-to-back items (and standard items).
- Analyze supply shortages and capacity overloads using any of the standard planning tools.
- If a back-to-back sales order does not have a supply, planning does recommend supply; however, the supply cannot be released from planning for back-to-back items.
 - Planners can notify order management to check the order line, use GOP to promise the line, and send the supply recommendation to Supply Chain Orchestration.

Planning Central creates back-to-back supplies when a back-to-back sales order does not have a reserved supply and the item is marked as "Back-to-back Enabled", which is an item-organization attribute.

In this definition, the planned order quantity equals the demand quantity. Order modifiers can be created. Planned order quantities can be less than the demand quantity when existing supplies are suggested for the sales order.

Planned orders for back-to-back enabled items cannot be released from Planning Central. GOP and SCO to release and create new supplies for back-to-back orders.

Planning Central cannot accept releases from planning for back-to-back items.

NEW QUESTION # 94

.....
