

# 1Z0-1072-25 Reliable Test Questions, 1Z0-1072-25 Reliable Braindumps Ppt

Salesforce Education-Cloud-Consultant Reliable Braindumps Questions As for every single exam you get Online Practice Test, we've designed practice for this exam too, Our Education-Cloud-Consultant valid cram is full of important knowledge to assimilate. With our professional Education-Cloud-Consultant practice materials you just need 1-3days on preparing for the real test, you will not experience the failure feel any longer as we have confidence in the quality of our Education-Cloud-Consultant exam collection materials, The content of our Education-Cloud-Consultant prep training is easy to understand that adapted to any level of candidates.

Modify the Web Part's Title Bar and Border Settings, I would drop (<https://www.braindumpspass.com/Salesforce/Education-Cloud-Consultant-latest-exam-dumps.html>) this from my list, Customer, this can be done, and this is what it costs, Flipboard got a ton of attention at launch.

[Download Education-Cloud-Consultant Exam Dumps](#)

Executing/Evaluating Test Phases, As for every single exam you get Online Practice Test, we've designed practice for this exam too, Our Education-Cloud-Consultant valid cram is full of important knowledge to assimilate.

With our professional Education-Cloud-Consultant practice materials you just need 1-3days on preparing for the real test, you will not experience the failure feel any longer as we have confidence in the quality of our Education-Cloud-Consultant exam collection materials.

The content of our Education-Cloud-Consultant prep training is easy to understand that adapted to any level of candidates, The thoughtfulness of our Education-Cloud-Consultant study materials services is insuperable.

Reliable Education-Cloud-Consultant Braindumps Questions & Education-Cloud-Consultant Valid Test Braindumps

DOWNLOAD the newest PassTestking 1Z0-1072-25 PDF dumps from Cloud Storage for free: <https://drive.google.com/open?id=1wagljOAoYNGxow23tFbcus7sT3Aqxsio>

So our high efficiency 1Z0-1072-25 torrent question can be your best study partner. Only 20 to 30 hours study can help you acquire proficiency in the exam. And during preparing for 1Z0-1072-25 exam you can demonstrate your skills flexibly with your learning experiences. The rigorous world force us to develop ourselves, thus we can't let the opportunities slip away. Being more suitable for our customers the 1Z0-1072-25 Torrent question complied by our company can help you improve your competitiveness in job seeking, and 1Z0-1072-25 exam training can help you update with times simultaneously.

## Oracle 1Z0-1072-25 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>Storage: Designed for storage administrators managing enterprise data solutions, this section tests proficiency in deploying Block</li><li>File</li><li>Object Storage with lifecycle management, cross-region replication, and tiered storage strategies. It includes configuring volume groups, snapshots, versioning, and security controls while analyzing storage performance metrics and cost optimization techniques.</li></ul>

Topic 2	<ul style="list-style-type: none"> <li>Identity and Access Management (IAM): This domain validates skills of security architects implementing granular access controls, emphasizing IAM policy creation, compartment organization, and dynamic group configuration. It covers identity domain management, network source restrictions, and tag-based access mechanisms to enforce least-privilege principles across OCI resources</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>Networking: Targeting network architects designing secure cloud architectures, this domain focuses on Virtual Cloud Network (VCN) implementation, including subnet design, IP address management, and routing through gateways (NAT, service, internet). It assesses expertise in VPN</li> <li>FastConnect deployment, DNS configuration, load balancer setup, and advanced tools like Network Path Analyzer for troubleshooting latency or connectivity issues.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>Compute: This section measures skills of cloud architects responsible for designing scalable and resilient infrastructure, covering compute instance configuration, autoscaling policies, and OS management. It evaluates understanding of OCI compute image options, infrastructure maintenance processes, and strategies for optimizing instance performance across availability domains.</li> </ul>

## 1Z0-1072-25 Reliable Braindumps Ppt - Reliable 1Z0-1072-25 Dumps Pdf

There are many ways to help you pass Oracle certification 1Z0-1072-25 exam and selecting a good pathway is a good protection. PassTestking can provide you a good training tool and high-quality reference information for you to participate in the Oracle certification 1Z0-1072-25 exam. PassTestking's practice questions and answers are based on the research of Oracle certification 1Z0-1072-25 examination Outline. Therefore, the high quality and high authoritative information provided by PassTestking can definitely do our best to help you pass Oracle certification 1Z0-1072-25 exam. PassTestking will continue to update the information about Oracle certification 1Z0-1072-25 exam to meet your need.

### Oracle Cloud Infrastructure 2025 Architect Associate Sample Questions (Q48-Q53):

#### NEW QUESTION # 48

You enabled Cross Region Replication for the volume and selected US West (San Jose) as the destination region. What should you do to create a new volume from the volume replica?

- A. No action required. By default, the replica is available as a block volume.
- B. Activate the replica.
- C. Initiate the replica.
- D. Trigger the replica.

#### Answer: A

##### Explanation:

When Cross-Region Replication is enabled for a block volume in Oracle Cloud Infrastructure (OCI), the replication process automatically creates and maintains a synchronized copy of the block volume in the selected destination region (in this case, US West (San Jose)).

Replica Availability: The replicated volume is immediately available as a block volume in the destination region. You do not need to take any additional action to activate or trigger the replica.

Creating New Volumes: Since the replica is automatically available as a block volume, you can directly use it to create a new volume in the destination region without any manual intervention.

##### Relevant OCI Documentation:

##### Cross-Region Block Volume Replication

This documentation outlines how cross-region replication works and confirms that no additional steps are needed to create a new volume from a replica

#### NEW QUESTION # 49

Which is NOT a valid action within the Oracle Cloud Infrastructure (OCI) Block Volume service?

- A. Attaching a block volume to an instance in a different availability domain.
- B. Cloning an existing volume to a new, larger volume.
- C. Restoring from a volume backup to a larger volume.
- D. Expanding an existing volume in place with offline resizing.

**Answer: A**

Explanation:

In Oracle Cloud Infrastructure (OCI), block volumes are designed to be highly flexible and can be used in various ways:

- A . Restoring from a volume backup to a larger volume: This is supported and allows for resizing during the restoration process.
- B . Cloning an existing volume to a new, larger volume: You can clone a block volume and specify a larger size for the new volume.
- C . Expanding an existing volume in place with offline resizing: OCI allows you to increase the size of an existing block volume without needing to take it offline.

Option D is NOT valid because block volumes can only be attached to compute instances within the same availability domain.

Cross-availability domain attachment of block volumes is not supported directly.

Oracle Cloud Infrastructure Documentation: Block Volume Overview

## NEW QUESTION # 50

What would happen if you choose not to proactively reboot the instance before the scheduled maintenance due date?

- A. You will receive another notification to reboot within the next 14 days.
- B. You will receive another notification to reboot within the next 7 days.
- C. The instance is either reboot-migrated or rebuilt in place for you.
- D. The instance will get terminated.

**Answer: C**

Explanation:

In OCI, if you choose not to proactively reboot your instance before the scheduled maintenance due date, the system will handle the maintenance automatically to ensure that the instance remains operational.

Reboot-Migration or Rebuild in Place: If you don't reboot the instance yourself, OCI will automatically perform a reboot-migration or rebuild in place for the instance. This ensures that the instance is moved to new hardware or updated without your intervention, maintaining uptime and applying necessary updates or fixes.

Impact on Instance: The exact action taken (reboot-migration or rebuild in place) depends on the type of maintenance required. However, either action will temporarily interrupt the instance, typically involving a reboot, but the instance's data and configuration will be preserved.

Relevant OCI Documentation:

Instance Maintenance

OCI Maintenance Events

These references discuss the procedures and options available for handling instance maintenance in OCI.

## NEW QUESTION # 51

Which OCI feature should be used to ensure that communication between database servers and OCI Object Storage is secure?

- A. Use a Local Peering Gateway
- B. Use a VPN Gateway
- C. Use a NAT Gateway
- D. Use a Service Gateway

**Answer: D**

Explanation:

To ensure secure communication between database servers and OCI Object Storage, you should use a Service Gateway. A Service Gateway enables instances in your VCN to privately access OCI services like Object Storage without traversing the public internet.

Security: The traffic between your database servers and Object Storage remains within the Oracle network, providing a secure and high-performance connection.

### NEW QUESTION # 52

Which TWO statements are TRUE about Private IP addresses in Oracle Cloud Infrastructure (OCI)?

- A. By default, the primary VNIC of an instance in a subnet has one primary private IP address.
- B. A private IP can have an optional public IP assigned to it if it resides in a public subnet.
- C. By default, the primary VNIC of an instance in a subnet has one primary private IP address and one secondary private IP address.
- D. Each VNIC can only have one private IP address.

**Answer: A,B**

Explanation:

In Oracle Cloud Infrastructure (OCI), understanding how private IP addresses work is crucial for configuring network interfaces and managing instances within your Virtual Cloud Network (VCN).

Primary VNIC and Private IP Address:

When an instance is launched in OCI, it is attached to a Virtual Network Interface Card (VNIC). The primary VNIC, which is automatically created during the instance launch, is associated with a primary private IP address by default. This private IP address is essential for the instance to communicate within the VCN. The primary private IP address is automatically assigned and cannot be removed from the primary VNIC while the instance is running. This supports the statement C.

Additional Private IPs:

Contrary to statement B, each VNIC can indeed have multiple private IP addresses, but by default, the primary VNIC comes with only one primary private IP. You can manually add secondary private IPs if needed. However, the additional IPs are not assigned by default; hence, A is incorrect.

Public IP Association:

For instances requiring internet access, a public IP address can be optionally assigned to the private IP address if the instance is in a public subnet. This is critical for scenarios where an instance needs to communicate with the internet or external networks. This aligns with statement D.

Relevant OCI Documentation:

Oracle Cloud Infrastructure Networking Overview

VNICs and Private IPs

These references provide additional context and detail on how private IP addresses work within OCI and clarify the correct statements.

### NEW QUESTION # 53

.....

PassTestking is continuing to provide the candidates with Oracle certification exam-related reference materials for years.

PassTestking is the website that is validated by all the 1Z0-1072-25 test-takers, which can provide all candidates with the best questions and answers. PassTestking comprehensively ensures the interests of all candidates, which enjoys immense praise of the candidates. Moreover PassTestking is the most trusted website on the current market.
